HONGKONG LAND HOLDINGS LIMITED Interim Management Statement

7th November 2019 – Hongkong Land Holdings Limited has today issued its Interim Management Statement for the third quarter of 2019.

In Hong Kong, positive rental reversions continued in the Group's Central office portfolio and vacancy declined from 2.8% at 30th June 2019 to 2.4% at 30th September 2019 as tenants took up space previously committed. The Group's Central retail portfolio effectively remained fully occupied, with positive base rental reversions reflecting the general increase in rents over the past few years. It remains too early to measure the potential future impact of the current social unrest in Hong Kong.

Rental reversions in the Group's Singapore office portfolio continued to be positive, with vacancy declining from 3.3% at 30th June 2019 to 1.3% at 30th September 2019.

In Development Properties, the Group recorded higher contracted sales in mainland China in the third quarter compared to the same period last year, due to a greater number of sales launches and changes in product mix. Market sentiment remains stable. The Group's attributable interest in mainland China contracted sales during the quarter was US\$566 million, compared to US\$154 million last year. In the nine months to 30th September 2019, the Group's attributable interest in mainland China contracted sales was US\$1,209 million, compared to US\$804 million in the same period in 2018.

In Singapore, pre-sales at the Margaret Ville and Parc Esta projects are performing in line with expectations. Sales at Leedon Green (formerly Tulip Garden) are expected to commence in the first half of 2020. Contracted sales levels at the Group's developments in the rest of Southeast Asia were satisfactory.

The Group's balance sheet remains strong, with net debt at 30th September 2019 US\$253 million lower than that reported at the end of June 2019. Net debt is expected to move modestly higher by the end of the year due to payments for land purchased in mainland China.
