### Directors' report

For the year ended March 31, 2016

---

The directors present the annual report and the audited non-statutory financial statements of FMG Iraq Fund Ltd. ('the Company' or 'the Fund') for the year ended March 31, 2016.

#### Principal activities

The Company is an open-ended investment Fund, incorporated in Bermuda empowered by its bye-laws to issue, redeem and reissue its own shares at prices based on their net asset value.

The Fund invests in Iraqi equities, both domestic and international listings that derive a portion of their business from Iraq.

#### Performance review and financial position

The Fund generated a net investment loss amounting to \$1,138,695 (2015 – loss of \$7,485,376). During the year under review, \$1,377,102 (2015 - \$3,919,946) were redeemed whilst \$231,313 (2015 - \$1,402,323) were attracted to the Fund. Shareholders' funds as at March 31, 2016 amounted to \$5,908,170 (2015 - \$8,192,654).

#### Directors

The directors who served during the period were:

Anthony O'Driscoll  
William Woods  
James Keyes

In accordance with the Fund's articles of association the directors are to remain in office.

#### Auditors

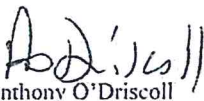

A resolution to reappoint Deloitte Audit Limited as auditor of the Fund will be proposed at the forthcoming annual general meeting.

#### Events after the reporting date

Subsequent to year end, Iraq continued being involved in significant socio-political unrest which negatively impacted the country's financial stability and its financial markets.

After the reporting date, the Fund attracted subscriptions amounting to \$5,273,350. Furthermore, the Fund experienced redemptions amounting to \$6,151,238.

Approved by the board of directors and signed on its behalf on 5 February 2018 by:

  
Anthony O'Driscoll  
Director

## FMG IRAQ FUND LTD.

### Directors' responsibility for the financial statements

---

The directors acknowledge their responsibility to prepare financial statements in accordance with International Financial Reporting Standards which give a true and fair view of the state of affairs of the Company at the end of each financial year and of the profit or loss of the company for the year then ended. In preparing the financial statements, the directors should:

- select suitable accounting policies and apply them consistently;
- make judgments and estimates that are reasonable; and
- prepare the financial statements on a going concern basis, unless it is inappropriate to presume that the Company will continue in business as a going concern.

The directors are responsible for ensuring that proper accounting records are kept which disclose with reasonable accuracy at any time the financial position of the Company and which enable the directors to ensure that the financial statements comply with International Financial Reporting Standards. This responsibility includes designing, implementing and maintaining such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The directors are also responsible for safeguarding the assets of the Company, and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

## FMG IRAQ FUND LTD.

### Notes to the financial statements

March 31, 2016

---

#### 1. Reporting entity

FMG Iraq Fund Ltd. (the 'Company' or the Fund') was incorporated in Bermuda on March 18, 2005 as an open-ended investment company, empowered by its bye laws to issue, redeem and reissue its own shares at prices based on their net asset value.

The Fund invests in Iraqi equities, both domestic and international listings that derive a portion of their business from Iraq. The assets may be allocated to external managers, either as managed accounts or to funds.

#### 2. Basis of preparation

##### 2.1 Statement of compliance

These non-statutory financial statements represent the annual financial statements of the Company prepared in accordance with International Financial Reporting Standards ("IFRS") and issued by the International Accounting Standards Board ("IASB").

##### 2.2 Basis of measurement

The financial statements have been prepared using the historical cost convention except that the following are measured at fair value:

- derivative financial instruments; and
- financial instruments designated at fair value through profit or loss.

##### 2.3 Functional and presentation currency

The financial statements are presented in the United States Dollars (USD), which is also the functional currency of the Company, rounded to the nearest unit.

##### 2.4 Use of estimates and judgements

The preparation of financial statements in conformity with IFRSs requires the use of certain accounting estimates. It also requires directors to exercise judgements in the process of applying accounting estimates. Estimates and judgements are continually evaluated and are based on experience and other factors including expectations of future events that are believed to be reasonable under the circumstances.

In the opinion of the directors, except for the valuation of investments as disclosed in note 3.2, the accounting estimates and judgements made in the course of preparing these financial statements are not difficult to reach, subjective or complex to a degree which would warrant their description as critical in terms of the requirements of IAS 1 (revised) – *Presentation of Financial Statements*.

**3. Summary of significant accounting policies**

**3.1 Foreign currency**

Transactions denominated in currencies other than the functional currency are translated at the exchange rates ruling on the date of transaction. Assets and liabilities denominated in currencies other than the functional currency are re-translated to the functional currency at the exchange rate ruling at year-end. Exchange differences arising on the settlement and on the re-translation of monetary items are dealt within the statement of profit or loss and other comprehensive income.

**3.2 Financial assets and liabilities**

*Financial instruments*

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially recognised at their fair value plus directly attributable transaction costs for all financial assets or financial liabilities not classified at fair value through profit or loss.

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when the Company has a legally enforceable right to set off the recognised amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Financial assets are derecognised when the contractual rights to the cash flows from the financial assets expire or when the entity transfers the financial asset and the transfer qualifies for derecognition.

Financial liabilities are derecognised when they are extinguished. This occurs when the obligation specified in the contract is discharged, cancelled or expires.

(i) Trade and other receivables

Trade and other receivables are classified with assets and are stated at their nominal value unless the effect of discounting is material. Appropriate allowances for estimated irrecoverable amounts are recognised in the statement of profit or loss and other comprehensive income when there is objective evidence that the asset is impaired.

(ii) Financial assets and liabilities at fair value through profit or loss

Financial assets and liabilities as at fair value through profit or loss are those that are held for trading purposes or those that are so designated by the Company upon initial recognition. The Company uses this designation when doing so results in more relevant information because a group of financial assets, liabilities or both are managed and their performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy and information about the group is provided internally on that basis to the entity's key management personnel or when a contract contains one or more embedded derivatives and the entity elects to designate the entire hybrid contract as a financial asset or liability as at fair value through profit or loss. The Company's investments are monitored on a periodic basis by the investment committee appointed by the Investment Manager and the board of directors. After initial recognition, financial assets at fair value through profit or loss are measured at their fair value from those quoted market prices.

For all financial instruments which are quoted or otherwise traded in an active market, for exchange traded derivatives, exchange traded funds and for other financial instruments for which quoted prices in an active market are available, fair value is determined directly from those quoted market prices.

## FMG IRAQ FUND LTD.

### Notes to the financial statements

March 31, 2016

---

#### 3. Summary of significant accounting policies (continued)

##### 3.2 Financial assets and liabilities (continued)

###### *Financial instruments (continued)*

###### (ii) Financial assets and liabilities at fair value through profit or loss *(continued)*

Financial instruments which are unquoted or otherwise not traded in an active market are valued using broker quotes and other methodology designed to assess the value after acquisition, having regard to market terms at the measurement date, including interest rates and liquidity and other factors. The basis of valuation on each valuation date will be determined on the most appropriate basis to use, having regard to a) any relevant information generally available in the market at the time; and b) any other relevant information.

Gains and losses arising from a change in fair value are recognised in profit or loss in the period in which they arise. Where applicable, dividend income and interest income on financial assets at fair value through profit or loss is disclosed separately in profit or loss. Fair value gains and losses are recognised within net (loss)/gain on financial instruments at fair value through profit or loss.

- Valuation of investments in managed accounts

The investment in equity securities within the managed accounts are accounted for on a trade date basis and those that are traded on a national securities exchange are valued at the last traded price as reported by the Iraq Stock Exchange (ISX). The interest, dividend income and realized gains and losses arising from managed accounts are included in the relevant line items in the statement of operations. Similarly, cash attributable to the managed accounts are included within cash and cash equivalents in the statement of financial position.

- Derivative financial instruments

Derivative financial assets and derivative financial liabilities are classified as held for trading unless they are designated as effective hedging instruments. During the year under review, the Company did not designate any of its derivative financial instruments in a hedging relationship for accounting purposes.

A forward currency contract involves an obligation to purchase or sell a specific currency at a future date, at a price set at the time the contract is made. Forward foreign exchange contracts are valued by reference to the forward price at which a new forward contract of the same size and maturity could be undertaken at the valuation date. The unrealised gain or loss on open forward currency contracts is calculated as the difference between the contract rate and this forward price, and is recognised in the statement of profit or loss and other comprehensive income.

###### (iii) Trade and other payables

Trade and other payables are stated at their nominal value unless the effect of discounting is material.

###### (iv) Realised and unrealised gains and losses

Investment transactions are recorded on a trade date basis. Realised gains or losses on investments are calculated on a weighted average cost and are disclosed within net (loss)/gain on financial assets at fair value through profit or loss in the statement of profit or loss and other comprehensive income.

##### 3.3 Cash and cash equivalents

Cash and cash equivalents comprise current deposits held with banks. Cash and cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

## FMG IRAQ FUND LTD.

### Notes to the financial statements

March 31, 2016

---

#### 3. Summary of significant accounting policies (continued)

##### 3.4 Revenue recognition

Revenue is recognised to the extent that it is probable that future economic benefits will flow to the Company and these can be measured reliably. The following specific recognition criteria must also be met before revenue is recognised:

###### *(i) Interest income and expense*

Interest income and expense, including interest from non-derivative financial assets at fair value through profit or loss, are recognised as they accrue in profit or loss, where applicable, gross of withholding tax. For financial assets and liabilities not classified at fair value through profit or loss, such interest income and expense is recognized using the effective interest method.

###### *(ii) Dividend income*

Dividend income is recognised in profit or loss on the date that the Company's right to receive payment is established, which in the case of quoted securities is the ex-dividend date.

##### 3.5 Expenses

All expenses, including management and administrator, are recognised in profit or loss on an accruals basis.

##### 3.6 Units redeemed

All units issued by the Company provide the right to require redemption for cash on each dealing date in accordance with the terms set out in the Company's prospectus. Such instruments give rise to a financial liability for the present value of the redemption amount and are presented in the statement of financial position as 'Net Assets attributable to redeemable preference shares'.

##### 3.7 Impairment

All assets are tested for impairment except for financial assets measured at fair value through profit and loss.

At the end of each reporting period, the carrying amount of assets is reviewed to determine whether there is any indication or objective evidence of impairment, as appropriate, and if any such indication or objective evidence exists, the recoverable amount of the asset is estimated.

In the case of financial assets there are either carried at amortised cost, objective evidence of impairment includes observable data about the following loss events - significant financial difficulty of the issuer, a breach of contract, it becoming probable that the borrower will enter bankruptcy or other financial reorganisation, the disappearance of an active market for that financial asset because of financial difficulties and observable data indicating that there is a measurable decrease in the estimated future cash flows since the initial recognition of those assets.

An impairment loss is the amount by which the carrying amount of the asset exceeds its recoverable amount.

For loans and receivables, if there is objective evidence that an impairment loss has been incurred, the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate. The carrying amount of the asset is reduced directly.

Impairment losses are recognised immediately in profit or loss.

For loans and receivables, if in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed directly.

Impairment reversals are recognised immediately in profit or loss.

3. Summary of significant accounting policies (continued)

**3.8 Adoption of revised International Financial Reporting Standards**

The following amendment to the existing standards issued by the International Accounting Standards Board is effective for the current year:

- An amendment to IAS 24 deals with Related Party Disclosures. This amendment is part of the 'Annual Improvements to IFRSs 2010-2012 cycle'. It clarifies that an entity providing key management personnel services to the reporting entity or to the parent of the reporting entity is a related party of the reporting entity. This amendment is effective for periods beginning on or after July 1, 2014.

**3.9 Standards, amendments and interpretations in issue but not yet effective**

The directors are currently evaluating the impact on the financial statements of the Company in the period of initial application of the following International Financial Reporting Standards that were in issue at the date of authorisation of these financial statements, but not yet effective.

- The final version of IFRS 9 *Financial Instruments* issued on July 24, 2014 brings together the classification and measurement, impairment and hedge accounting phases of the IASB's project to replace IAS 39 *Financial Instruments: Recognition and Measurement*. The Standard supersedes all previous versions of IFRS 9.

IFRS 9 introduces a logical approach for the classification of financial assets, which is driven by cash flow characteristics and the business model in which an asset is held. This single, principle-based approach replaces existing rule based requirements that are generally considered to be overly complex and difficult to apply. The new model also results in a single, forward-looking 'expected loss' impairment model that will require more timely recognition of expected credit losses.

IFRS 9 also removes the volatility in profit or loss that was caused by changes in the credit risk of liabilities elected to be measured at fair value. This change in accounting means that gains caused by the deterioration of an entity's own credit risk on such liabilities are no longer recognised in profit or loss. IFRS 9 is effective for annual periods commencing on or after January 1, 2018.

- The amendment to IAS 1 aim to address perceived impediments to preparers exercising their judgement in presenting their financial reports. The amendments are designed to further encourage companies to apply professional judgement in determining what information to disclose in their financial statements. The amendments make clear that materiality applies to the whole of financial statements and that the inclusion of immaterial information can inhibit the usefulness of financial disclosures. Furthermore, the amendments clarify that companies should use professional judgement in determining where and in what order information is presented in the financial disclosures. The amendment is effective for periods beginning on or after January 1, 2016.
- An amendment to IFRS 7 issued as part of the 'Annual Improvements to IFRSs 2012-2014 cycle', on 25 September 2014. The amendments provide additional guidance to clarify whether a servicing contract is continuing involvement in a transferred asset for the purposes of the disclosures required in relation to transferred assets. This amendment is effective for annual periods commencing on or after January 1, 2016.

The directors anticipate that the adoption of International Financial Reporting Standards that were in issue at the date of authorisation of these financial statements but not yet effective will have no material impact on the financial statements of the Company in the period of initial application.

FMG IRAQ FUND LTD.

Notes to the financial statements

March 31, 2016

4. Classification and fair values of financial assets and liabilities

The table below provides a reconciliation of the Company's financial assets and liabilities at fair value through profit or loss.

	2016	2015
Assets	\$	\$
<b>Designated as at fair value through profit or loss</b>		
Equity shares	5,905,640	7,944,460
<b>Held for trading</b>		
Forward contracts	2,499	-
<b>Total financial assets at fair value through profit or loss</b>	<u>5,908,139</u>	<u>7,944,460</u>
<b>Liabilities</b>		
<b>Held for trading</b>		
Forward contracts	-	5,733
<b>Total financial liabilities at fair value through profit or loss</b>	<u>-</u>	<u>5,733</u>

As part of the Company's capital appreciation strategy, the Company invests primarily in equities and managed accounts managed by fund managers focusing on Iraqi related securities.

*(a) Investments in managed accounts*

The investment in equity securities within the managed account are accounted for on a trade date basis and valued at the last traded price as reported by the Iraq Stock Exchange.

*(b) Derivative financial instruments*

Derivative financial instruments are classified as held for trading. All other assets measured at fair value have been designated at fair value through profit or loss. Further information about the derivative financial instruments (forward contracts) is disclosed in note 12.1.1.

5. Receivables

	2016	2015
	\$	\$
Dividends receivable	<u>41,867</u>	<u>26,798</u>

**FMG IRAQ FUND LTD.**

**Notes to the financial statements**

March 31, 2016

**6. Accounts payable and accrued expenses**

	2016	2015
	\$	\$
Professional fees payable	6,999	3,434
Management fees payable	31,273	38,913
Administration fees payable	10,592	14,454
Directors' fee payable	2,500	3,125
Other payables	1,289	2,742
	<u>52,653</u>	<u>62,668</u>

Management fees and directors' fee payable are due to related parties. The terms and conditions of the amounts owed to such related parties are disclosed in note 10. These amounts are unsecured, interest free and repayable on demand.

**7. Net asset value**

In accordance with the Offering Memorandum, the net asset value of each class of shares in a Fund is determined by reference to the market prices of the underlying assets in the Fund attributable to such class at the close of business on the 'valuation date'. The last dealing date in the 2016 financial year of the Fund was on March 1, and the last official valuation date in the 2016 financial year, was on March 31. The last dealing date in the 2015 financial year of the Fund was on March 2 whilst the last official valuation date in the 2015 financial year, was on March 31.

In accordance with the Offering Memorandum, the net assets of the Company are computed at the latest available dealing price or the latest available middle market quotation. However, for financial reporting purposes under IFRSs, the assets and liabilities are to be valued at the price that is most representative of the fair value in the circumstances.

**8. Taxation**

Under current Bermuda laws, the Fund is not required to pay any taxes in Bermuda on either income or capital gains. The Fund has received an undertaking from the Minister of Finance in Bermuda exempting it from any such taxes at least until the year 2035.

It is management's belief that the Fund is not engaged in a United States trade or business and will not be subject to United States income or withholding taxes in respect of the profits or losses of the Fund, other than the 30% withholding tax on U.S. source dividends.

As a result, management has made no provision for income taxes in these financial statements.

FMG IRAQ FUND LTD.

March 31, 2016

9. Share capital

The authorised share capital of the Fund is \$11,000, which is divided into 100 common shares of par value of \$1 each and 10,900,000 non-voting redeemable preference shares (the "Shares"), of par value \$0.001 each. Redeemable preference shares are issued as Class A, Class A09, Class A10, Class A11 and Class A14L shares (collectively, the "Class A Shares") and Class B, Class B09, Class B10 and Class B11 shares (collectively, the "Class B Shares"). The existing Class A, Class A09, Class B and Class B09 Shares are closed to new subscriptions. Two new classes of Shares, Class A10 and Class B10 have been issued since May 2010 and are available at the subscription price in USD. Two new classes of Shares, Class A11 and Class B11 were issued July 2011 and are available at the subscription price in CHF, and are available at the subscription price in GBP since September 2011. One new class of Shares, Class A14L was issued in July 2014 and is available at the subscription price in USD.

The holder of the common shares is not entitled to receive dividends, may not redeem their holding and is only entitled to be repaid the par value of the common shares upon a winding-up or distribution of capital. The common shares are entitled to one vote per share at a general meeting. All the common shares are owned by the investment manager. The redeemable preference shares carry no preferential or pre-emptive rights upon the issue of new shares and have no voting rights at general meetings of the Fund.

Shares may be purchased and redeemed on a Dealing Day, which is generally the first business day of each calendar month. Shares may be purchased at the net asset value per share calculated at the valuation day immediately preceding the Dealing Day, generally the last business day of the preceding month. Class A Shares may be redeemed with 45 business days' written notice while Class B Shares may be redeemed with 90 business days' written notice, at their net asset value per share, subject to certain restrictions as described in the prospectus.

If on any Valuation Day, any shareholder wishes to redeem Shares totaling more than 5% of the issued capital of the Fund or several shareholders wish to redeem Shares totaling more than 10% of the issued capital of the Fund, the Directors may defer redemption of such Shares, and the calculation of the redemption price, to a subsequent Dealing Day being not later than the fifth Dealing Day following receipt of the application for redemption. In such cases, suspended redemption requests shall be carried out on the basis of the next Net Asset Value.

10. Related party transactions

(a) Management fees

The Fund pays FMG Fund Managers Bermuda Ltd. ("the Investment Manager") a management fee at a rate of 2.0% per annum of the net assets attributable to the Class A Shares of the Fund and 1.5% per annum of the net assets attributable to the Class B Shares of the Fund, calculated on a monthly basis and payable quarterly in arrears. For the year ended March 31, 2016, the management fee was \$149,184 (2015 - \$234,724), of which \$31,273 (2015 - \$38,913) was payable at March 31, 2016. As disclosed in note 9 to these financial statements, all the common shares are owned by the Investment Manager.

(b) Incentive fees

The Class A Shares also incur a quarterly incentive fee equal to 20% of the net profits of the Fund, if any, during each calendar quarter (each a 'Performance Period'), accrued with respect to each Class A Share of the Fund. The net profits are computed in a manner consistent with the principles applicable to the computation of the net assets of the Fund. If a Class A Share has a loss chargeable to it during any Performance Period, and during a subsequent Performance Period there is a profit allocable to such Class A Share, there will be no incentive fee payable until the amount of the net loss previously allocated has been recouped. Incentive fees are only paid when the net asset value of the Class A Shares increase above a previously established "high water mark" net asset value for those Class A Shares.

In the event of either a redemption being made at a date other than the end of a performance period or the Management Agreement is terminated at any time prior to the last day of a performance period, the incentive fee will be computed as though the termination date or Redemption Date, as applicable, was the last day of such performance period. Once earned, the incentive fee will be retained by the Manager regardless of the Fund's future results.

FMG IRAQ FUND LTD.

Notes to the financial statements

March 31, 2016

---

10. Related party transactions (continued)

*(b) Incentive fees (continued)*

The Class B Shares also pay to the investment manager an incentive fee of 10% of the net profits attributable to the Class B Shares, calculated monthly and payable quarterly. Net profits are defined as the amount by which cumulative profits attributable to the Class B Shares before the incentive fee but after deduction of all transaction costs, management fees and expenses exceeds a hurdle rate equal to the amount that would have been earned in that fiscal period had the assets of the Fund been invested at the USD 12-month LIBOR rate at the beginning of the fiscal period. Net profits include both realized and unrealized gains less losses on investments. If net profit for a month is negative, it will be carried forward ("carry forward losses"). No incentive fee will be payable until net profits in subsequent month(s) exceed carry forward losses together with any cumulative actual losses from the previous fiscal years adjusted for redemptions. Investors should note that, the net profit amount, upon which incentive fees are calculated, is not reduced for prior period carry forward losses. Once earned, the incentive fee is retained by the investment manager regardless of the Fund's future results.

For the years ended March 31, 2016 and March 31, 2015, there were no incentive fees payable.

*(c) Administration fees*

The administration fee charged is the higher of \$4,000 per month or 20 basis points of the Fund's net asset value per annum, and \$3,000 per month while less than \$10 million. For the year ended March 31, 2016, administration fees were \$39,468 (2015 - \$57,882), of which \$10,592 (2015 - \$14,454) was payable at March 31, 2016. The administrator delegated its duties to Apex Fund Services (Malta) Ltd ("the sub-administrator").

*(d) Key management personnel*

The directors of the Company are paid an annual fee of \$2,500 each for acting as directors of the Company. The total directors' fee charged for the year under review is \$13,500 (2015 - \$7,500).

11. Fair values of financial assets and financial liabilities

At March 31, 2016 and March 31, 2015, the fair value of listed investments is based on quoted prices in an active market at the end of the reporting period. The quoted market price used for financial assets and liabilities held by the sub-fund is the price within the bid – ask spread that is most representative of the fair value in the circumstances to be used to measure fair value. The fair values of derivative contracts are valued by reference to the price at which a new contract of the same size and maturity could be undertaken at valuation date. The fair values of other financial assets and financial liabilities are not materially different from their carrying amounts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

FMG IRAQ FUND LTD.

Notes to the financial statements

March 31, 2016

11. Fair values of financial assets and financial liabilities (continued)

The Company classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- Those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (Level 2); and
- Those with inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table provides an analysis of the Fund's investments and derivatives carried at fair value:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<u>2016</u>				
Equities	\$ <u>5,905,640</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>5,905,640</u>
Total investments	\$ <u>5,905,640</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>5,905,640</u>
Derivative assets	\$ <u>-</u>	\$ <u>2,499</u>	\$ <u>-</u>	\$ <u>2,499</u>
<u>2015</u>				
Equities	\$ <u>7,944,460</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>7,944,460</u>
Total investments	\$ <u>7,944,460</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>7,944,460</u>
Derivative liabilities	\$ <u>-</u>	\$ <u>5,733</u>	\$ <u>-</u>	\$ <u>5,733</u>

There were no transfers between levels 1, 2 or 3 during the years ended March 31, 2016 and 2015.

The investment in equity securities within the managed account are traded on the Iraq Stock Exchange and valued at the last traded price. These investment are categorised in Level 1 of the fair value hierarchy.

## FMG IRAQ FUND LTD.

### Notes to the financial statements

March 31, 2016

---

#### 11. Fair values of financial assets and financial liabilities *(continued)*

At March 31, 2016 and 2015, the carrying amounts of other financial assets and liabilities approximated their fair values due to the short-term nature of these balances.

The puttable value of redeemable shares is calculated based on the net difference between total assets and all other liabilities of the Fund in accordance with the Fund's offering supplement. These shares are not actively traded on an open market. A demand feature is attached to these shares, as they are redeemable at the holders' option and can be put back to the Fund at any dealing date for cash equal to a proportionate share of the Fund's net asset value attributable to the share class. The fair value is based on the amount payable on demand, discounted from the first date that the amount could be required to be paid. The impact of discounting in this instance is not material. As such, Level 2 is deemed to be the most appropriate categorisation for net assets attributable to holders of redeemable shares.

#### 12. Financial risks management

The nature and extent of the financial instruments outstanding at the reporting date and the risk management policies employed by the Fund are discussed below.

##### *Iraq business environment*

The Fund invests in equity securities issued by entities established in Iraq and trading on the ISX. Iraq continues to experience significant political and economic change which has affected, and may continue to affect, the activities of enterprises operating in this environment. The prospect for future economic stability in Iraq is largely dependent upon the political developments, mainly related to the on-going war and terrorism afflictions, which are beyond the Fund's control. Consequently, operations in Iraq involve risks, which do not typically exist in other markets. Such risks include, but are not limited to, the Fund's investments in companies in Iraq which may prove difficult to sell in times of forced liquidity, risks involved in estimating the valuation of the underlying businesses, currency fluctuations, change in the interest rates, institutional, settlement and custodial risks, and other risks generally associated with investing in emerging markets. Accordingly, its performance may be strongly impacted by the performance of that region, as well as regulatory and political changes and other factors that may impact the region.

##### *12.1 Market risk*

Market risk embodies the potential for both loss and gains and includes currency risk, interest rate risk and price risk.

The Fund's investment strategy to manage the market risk is outlined in each of the Fund's offering supplement under the heading 'Investment Strategy'. The Fund's market risk is managed on a regular basis by the investment manager using different investment techniques as outlined in the supplements of the Fund. The Fund's overall market positions are monitored on a monthly basis by the board of directors.

The Fund's exposure to the different types of investments is summarised in note 4 to the financial statements.

##### *12.1.1 Currency risk*

The Fund may invest in securities and other investment companies and enter into transactions denominated in currencies other than the US Dollar. Consequently, the Fund is exposed to risks that the exchange rate of the US Dollar relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Fund's assets or liabilities denominated in currencies other than the US Dollar.

FMG IRAQ FUND LTD.

Notes to the financial statements

March 31, 2016

12. Financial risks management (continued)

12.1.1 Currency risk (continued)

The following table sets out the Fund's total exposure to foreign currency risk split between assets and liabilities, net assets attributable to non-USD denominated share classes, forward foreign exchange contracts (stated at the notional values) and the resulting net exposure to foreign currencies:

	<u>Assets</u>	<u>Liabilities</u>	<u>Net assets attributable to non-USD denominated share classes</u>	<u>Forward FX contracts</u>	<u>Net exposure</u>
<b>March 31, 2016</b>					
GBP	\$ 7,858	\$ (360)	\$ 156,333	\$ 173,433	\$ 367,264
CHF	\$ -	\$ (12)	\$ -	\$ -	\$ (12)
IQD	\$ 6,165,626	\$ -	\$ -	\$ -	\$ 6,165,626
EUR	\$ -	\$ (7,251)	\$ -	\$ -	\$ (7,251)
	<u>\$ 6,173,484</u>	<u>\$ (7,624)</u>	<u>\$ 156,333</u>	<u>\$ 173,433</u>	<u>\$ 6,495,626</u>

	<u>Assets</u>	<u>Liabilities</u>	<u>Net assets attributable to non-USD denominated share classes</u>	<u>Forward FX contracts</u>	<u>Net exposure</u>
<b>March 31, 2015</b>					
GBP	\$ 1	\$ (1)	\$ (196,474)	\$ 193,678	\$ (2,796)
CHF	\$ 3,597	\$ -	\$ -	\$ -	\$ 3,597
IQD	\$ 7,986,504	\$ -	\$ -	\$ -	\$ 7,986,504
EUR	\$ -	\$ (3,672)	\$ -	\$ -	\$ (3,672)
	<u>\$ 7,990,102</u>	<u>\$ (3,673)</u>	<u>\$ (196,474)</u>	<u>\$ 193,678</u>	<u>\$ 7,983,633</u>

The amounts in the table above are based on the carrying values of assets and liabilities, net assets attributable to non-USD denominated share classes and the underlying notional amounts of forward foreign exchange contracts.

Forward foreign exchange contracts are entered into by the Fund to hedge exposure to assets and liabilities denominated in currencies other than USD and to hedge the exposure of certain share classes denominated in currencies other than USD, mainly GBP and CHF.

The gains and losses on forward foreign exchange contracts entered into for the purpose of hedging the exposure to monetary assets and liabilities are recorded in gains and losses on forward foreign exchange contracts in the statement of operations. The gains and losses on contracts entered into for the purpose of hedging the exposure of share classes denominated in currencies other than USD are also recorded in gains and losses on forward foreign exchange contracts in the statement of operations, but are allocated specifically to the non-USD denominated share classes to which the hedging activities, and resultant gains and losses, relate.

FMG IRAQ FUND LTD

Notes to the financial statements

March 31, 2016

12. Financial risks management (continued)

12.1.1 Currency risk (continued)

At March 31, 2016, the Fund had the following open forward foreign exchange contract disclosed at their notional values:

<u>Currency to be bought</u>	<u>Currency to be sold</u>	<u>Contract due date</u>	<u>Fair value</u>
GBP 122,515	USD 173,433	April 5, 2016	\$ 2,499
Net unrealised gain on open forward foreign exchange contracts			<u>\$ 2,499</u>

At March 31, 2015, the Fund had the following open forward foreign exchange contract disclosed at their notional values:

<u>Currency to be bought</u>	<u>Currency to be sold</u>	<u>Contract due date</u>	<u>Fair value</u>
GBP 126,836	USD 193,678	April 7, 2015	\$ (5,733)
Net unrealised loss on open forward foreign exchange contracts			<u>\$ (5,733)</u>

12.1.2 Price risk

The Company's equity instruments and trading derivative financial instruments are susceptible to price risk arising from uncertainties about future prices of the instruments.

Price risk is mitigated by the Company's investment manager by constructing a portfolio of instruments. The Company may employ various techniques and enter into hedging transactions to attempt to mitigate a portion of the risks inherent to its investment strategies. The Company did not use derivative financial instruments for speculative purposes and had not designated any of its derivative financial instruments in a hedging relationship for accounting purposes.

As all of the Company's financial instruments are carried at fair value with fair value changes recognised in the statement of profit or loss and other comprehensive income, all changes in market price will directly affect net investment income.

The following is an analysis of the Fund's investment portfolio by industry as at the reporting date:

	March 31, 2016 % of net assets	March 31, 2015 % of net Assets
Banks	44	51
Telecommunications	7	10
Industrial	41	27
Services	8	9

## FMG IRAQ FUND LTD.

### Notes to the financial statements

March 31, 2016

---

#### 12. Financial risks management (continued)

##### *Sensitivity analysis*

At March 31, 2016, had the US Dollar strengthened by 5% in relation to the IQD currency, there would also be an approximate net impact of \$308,281 (2015 - \$399,325) on the statement of operations and on the net assets attributable to all share classes. A 5% weakening of the US Dollar against other currencies would have resulted in an approximate equal but opposite effect.

At March 31, 2016 if the price of the investments increased by 5%, this would have increased the net assets attributable to holders of redeemable preference shares by \$295,282 (2015 - \$397,223); an equal change in the opposite direction would have decreased the net assets attributable to holders of redeemable preference shares by an equal but opposite amount. Actual results will differ from this sensitivity analysis and the difference could be material.

Actual results may differ from this sensitivity analysis and the difference could be material to the financial statements.

##### *12.1.2 Interest rate risk*

Interest rate risk arises when an entity invests in or issues interest-bearing financial instruments. The Fund does not hold investments which are sensitive to interest rates and this risk is considered by the Investment Manager as insignificant due to the low interest rates on bank deposits.

##### *12.2 Credit risk*

Credit risk is the risk that counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Company. The Company has policies that limit the amount of credit exposure to any single issuer. Accordingly, the investment manager monitors the Company's credit position on a regular basis. Financial assets, which potentially subject the Company to credit risk, consist principally of trade and other receivables, cash and cash equivalents and derivative assets classified at fair value through profit or loss.

Bank balances and receivables are all short term, and are not considered to represent a significant credit risk. Bank balances are held with Credit Suisse AG and Rabee Securities. Credit Suisse AG has a rating A2 at the reporting date according to Moody's Ratings (2015: rating of A according to Fitch), whilst the rating of Rabee Securities is not available. Rabee Securities is headquartered in Baghdad and is licensed and regulated as Securities Brokerage Company by the Iraq Stock Exchange (ISX).

Transactions involving derivative financial instruments are effected with Credit Suisse AG, with whom the Fund signed master netting agreements. Master netting agreements provide for the net settlement of contracts with the same counterparty in the event of default and therefore reducing the credit risk to both parties.

##### *Guarantees provided to third parties*

Effective August 24, 2009 the Fund granted the Custodian a right of lien against all currency accounts and investments held by the Custodian on the Fund's behalf. The purpose of the right of lien is to secure any and all claims of the Custodian against the Fund arising from any current or future agreements or contracts as well as claims on other legal grounds resulting from business operations with the Fund. At the reporting date, the Fund had not made use of this credit facility.

FMG IRAQ FUND LTD.

Notes to the financial statements

March 31, 2016

12. Financial risks management (continued)

*12.3 Liquidity risk*

Liquidity risk is the risk that the Fund will not be able to meet its financial obligations as they fall due. The Fund invests directly or through managed accounts and may invest indirectly through other investment companies. Certain of the Fund's investments may be suspended, therefore, the Fund may not be able to quickly redeem these positions at their stated fair value in order to meet its liquidity requirements, including redemption requests from its shareholders. The Fund's exposure to liquidity risk is managed by the investment manager.

The Fund is exposed to cash redemptions of redeemable shares monthly. Class A and Class B shareholders may redeem with 45 business days' and 90 business days' notice, respectively. Redeemable shares are redeemed on demand at the holder's option. Notwithstanding, if on any valuation day, any shareholder wishes to redeem Shares totalling more than 5% of the issued capital of the Fund or several shareholders wish to redeem Shares totalling more than 10% of the issued capital of the Fund, the directors may defer redemption of such Shares, and the calculation of the redemption price, to a subsequent dealing day being not later than the fifth dealing day following receipt of the application for redemption. In such cases, suspended redemption requests shall be carried out on the basis of the next net asset value.

The following table shows the contractual, undiscounted cash flows of the Company's financial liabilities as at March 31, 2016 and March 31, 2015.

March 2016

	<u>Less than 1 month</u>	<u>1-6 months</u>	<u>Over 6 months</u>
<u>Financial liabilities</u>			
Redemptions payable	246,390	-	-
Accounts payable and accrued expenses	-	52,653	-
Net assets attributable to redeemable preference shares	-	5,908,170	-

March 2015

	<u>Less than 1 month</u>	<u>1-6 months</u>	<u>Over 6 months</u>
<u>Financial liabilities</u>			
Financial liabilities at fair value through profit or loss	5,733	-	-
Redemptions payable	8,810	-	-
Accounts payable and accrued expenses	-	62,668	-
Net assets attributable to redeemable preference shares	-	8,192,654	-

**FMG IRAQ FUND LTD.**

**Notes to the financial statements**

March 31, 2016

---

**12. Financial risks management (continued)**

*12.4 Custody/Broker risk*

The Fund is also exposed to operational risks such as custody/broker risk. Such risk is the risk of a loss being incurred on financial instruments held in custody as a result of a custodian's or prime broker's insolvency, negligence, misuse of assets, fraud, poor administration or inadequate record-keeping. Although an appropriate legal framework is in place that reduces the risk of loss of value of the financial instruments held by the custodian or prime broker in the event of its failure, the ability of the Fund to transfer the securities might be temporarily impaired.

*12.5 Capital management*

The investment objective of the Fund is to achieve capital appreciation by investing predominantly in long-only equities.

The Company's capital is represented by redeemable shares with no par value and with no voting rights. They are entitled for payment of a proportionate share based on the Company's net asset value per share on the redemption date.

If on any Valuation Day, any shareholder wishes to redeem Shares totaling more than 5% of the issued capital of the Fund or several shareholders wish to redeem Shares totaling more than 10% of the issued capital of the Fund, the Directors may defer redemption of such Shares, and the calculation of the redemption price, to a subsequent Dealing Day being not later than the fifth Dealing Day following receipt of the application for redemption. In such cases, suspended redemption requests shall be carried out on the basis of the next Net Asset Value.

The Company endeavours to invest the subscriptions received in appropriate investments while maintaining sufficient liquidity to meet redemptions, such liquidity being augmented by short-term borrowings or disposal of listed securities where necessary.

As at the end of the reporting period, the level of redemption requests made by the redeemable preference shareholders were not significant and resulted as part of the normal course of business of the Fund.

**13. Events after the reporting date**

Subsequent to year end, Iraq continued being involved in significant socio-political unrest which negatively impacted the country's financial stability and its financial markets.

After the reporting date, the Fund attracted subscriptions amounting to \$5,273,350. Furthermore, the Fund experienced redemptions amounting to \$6,151,238.

## Independent auditors' report

to the members of  
**FMG Iraq Fund Ltd.**

We have audited the accompanying non-statutory financial statements of FMG Iraq Fund Ltd. (the "Company") set out on pages 5 to 26, which comprise the statement of financial position as at March 31, 2016, and the statement of profit or loss and other comprehensive income, statement of changes in net asset attributable to holders of redeemable preference shares and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

### Directors' responsibility for the non-statutory financial statements

As explained more fully in the statement of directors' responsibilities on page 4, the directors of the Company are responsible for the preparation of the non-statutory financial statements that give a true and fair view in accordance with International Financial Reporting Standards, and for such internal control as the directors determine is necessary to enable the preparation of these non-statutory financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's responsibility

Our responsibility is to express an opinion on these non-statutory financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the non-statutory financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in these non-statutory financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the non-statutory financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation of the non-statutory financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Company. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of these non-statutory financial statements.

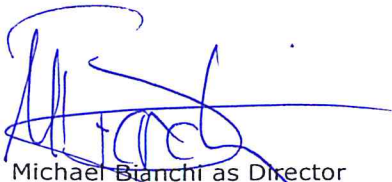

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Independent auditors' report (continued)

to the members of  
**FMG Iraq Fund Ltd.**

### Opinion

In our opinion, the non-statutory financial statements give a true and fair view of the financial position of FMG Iraq Fund Ltd. as at March 31, 2016, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.
