**PART I**  
**INTRODUCTION**

**ITEM 1. BUSINESS**

*Unless the context suggests otherwise, references in this Annual Report to “Aircastle,” the “Company,” “we,” “us,” or “our” refer to Aircastle Limited and its subsidiaries. Throughout this Annual Report, when we refer to our aircraft, we include aircraft that we have transferred into grantor trusts or similar entities for purposes of financing such assets through securitizations and term financings. These grantor trusts or similar entities are consolidated for purposes of our financial statements. All amounts in this Annual Report are expressed in U.S. dollars and the financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”).*

**Overview**

Aircastle acquires, leases, and sells commercial jet aircraft to airlines throughout the world. Our aircraft are managed by an experienced team based in the United States, Ireland and Singapore. Our aircraft are subject to net leases whereby the lessee is generally responsible for maintaining the aircraft and paying operational, maintenance and insurance costs. However, in many cases we are obligated to pay a specified portion of maintenance or modification costs. During the year ended February 28, 2023, we purchased 22 aircraft and sold 25 aircraft and other flight equipment. As of February 28, 2023, we owned and managed on behalf of our joint venture 248 aircraft leased to 73 lessees located in 44 countries and the net book value of our fleet (comprised of flight equipment held for lease and net investment in direct financing and sales-type leases, or “Net Book Value”) was \$6.6 billion. The weighted average age of our fleet was 9.7 years and the weighted average remaining lease term was 5.3 years. As of February 28, 2023, we had commitments to purchase 20 aircraft with delivery through 2024 for \$763.7 million, which includes estimated amounts for pre-delivery deposits, contractual price escalations and other adjustments.

Our total revenues, net income (loss) and Adjusted EBITDA were \$796.0 million, \$62.8 million, and \$732.3 million for the year ended February 28, 2023, respectively, and \$769.8 million, \$(278.2) million and \$752.3 million for the year ended February 28, 2022, respectively. Cash flow provided by operating activities was \$437.7 million and \$372.9 million for the years ended February 28, 2023 and 2022, respectively. Our business and financial results, customers, and the aviation industry have been impacted by the COVID-19 pandemic and the Russian invasion of Ukraine. We believe our platform and personnel have enabled us to effectively manage through these crises and will position us to take advantage of new investment opportunities when they arise. Our Company employs a team of experienced senior professionals with extensive industry and financial experience. Our leadership team has an average of more than thirty years of relevant industry experience, including managing through prior downturns in the aviation industry, like the 2008 global financial crisis and the September 11, 2001 terror attacks.

Global air travel continues to recover following the impact of the COVID-19 pandemic. According to the International Air Transit Association (“IATA”), air travel approximated 85% of pre-pandemic levels as of February 28, 2023, compared to 55% as of February 28, 2022. The recovery has been driven by strong demand for domestic travel and an improvement in international traffic, which has benefited from the relaxation of travel restrictions in most markets. The recent lifting of travel restrictions in China should help further strengthen global international traffic volumes in 2023 and beyond. We continue to believe long-term demand for air travel will return to historical trends over time.

Historically, growth in commercial air traffic has been correlated with world economic activity. Prior to the COVID-19 pandemic, commercial air traffic growth expanded at a rate one to two times that of global GDP growth. This expansion of air travel has driven growth in the world aircraft fleet; and there are approximately 26,000 commercial mainline passenger and freighter aircraft in the world fleet today. Aircraft leasing companies own approximately 49% of the world’s commercial jet aircraft. Under normal circumstances, we would expect the global fleet to continue expanding at a 2-3% average annual rate.

As a leading secondary market investor, we believe that our long-standing business strategy of maintaining conservative leverage, limiting long-term financial commitments, and focusing our portfolio on more liquid narrow-body aircraft has enabled us to manage through recent crises, such as the COVID-19 pandemic and the Russian invasion of Ukraine. Our portfolio of primarily mid-life, narrow-body aircraft should remain attractive relative to new technology aircraft due to their lower capital costs in an environment of tight airline margins.

We believe we have sufficient liquidity to meet our contractual obligations over the next twelve months and as of April 3, 2023, total liquidity of \$2.0 billion included \$1.4 billion of undrawn credit facilities, \$0.5 billion of projected adjusted operating cash flows through April 1, 2024, and \$0.1 billion of unrestricted cash.

#### *Russian Invasion of Ukraine*

At the onset of the Russian Federation's invasion of Ukraine on February 24, 2022, we had 13 aircraft on lease with Russian or Russian-affiliated airlines and have since terminated the leasing activities for all of these aircraft.

As of February 28, 2023, 9 of our aircraft that were previously leased to Russian airlines remain in Russia. Most of the operators of these aircraft have continued to fly the aircraft notwithstanding the sanctions imposed on Russia and leasing terminations. While we will continue to pursue repossession, it is unlikely we will regain possession of any of these 9 aircraft. As a result, the Company wrote off the remaining book value of these 9 aircraft, resulting in impairment charges totaling \$31.9 million during the year ended February 28, 2023. These 9 aircraft have been removed from the Company's owned fleet count. The Company is vigorously pursuing insurance claims to recover its losses relating to these aircraft and has initiated legal proceedings against its contingent and possessed insurers. The collection, timing and amounts of any insurance recoveries is uncertain.

We have also successfully recovered 4 aircraft that were previously leased to Russian or Russian-affiliated airlines as of February 28, 2023, comprised of 1 narrow-body, 1 wide-body and 2 freighter aircraft. During the year ended February 28, 2023, we sold the 2 freighter aircraft and 1 wide-body aircraft that we recovered for gains totaling \$53.5 million.

We received \$48.9 million of maintenance and general security letters of credit for our former Russian lessees during the year ended February 28, 2023, which we have recognized in maintenance and other revenue. We collected the remaining letters of credit totaling \$0.6 million subsequent to February 28, 2023.

#### **Our Competitive Strengths**

We believe the following competitive strengths will allow us to capitalize on future growth opportunities in the global aviation industry:

- **Diversified Portfolio of Modern Aircraft:** We have a portfolio of modern aircraft that is diversified with respect to lessees, geographic markets, lease maturities and aircraft types. As of February 28, 2023, our owned and managed aircraft portfolio consisted of 248 aircraft leased to 73 lessees in 44 countries. Lease expirations for our owned aircraft are well dispersed, with a weighted-average remaining lease term of 5.3 years. This provides us with a long-dated base of contracted revenues. We believe our focus on portfolio diversification reduces the risks associated with individual lessee defaults and adverse geopolitical or economic issues, and results in generally predictable cash flows.
- **Flexible, Disciplined Acquisition Approach and Broad Investment Sourcing Network:** Our investment strategy is to seek out the best risk-adjusted return opportunities across the commercial jet market, so our acquisition targets vary with market opportunities. We source our acquisitions through well-established relationships with airlines, other aircraft lessors, manufacturers, financial institutions and other aircraft owners. Since our formation in 2004, we have acquired 565 aircraft for \$18.5 billion as of February 28, 2023. We have built our aircraft portfolio through more than 180 transactions with 98 counterparties as of February 28, 2023.
- **Significant Experience in Successfully Selling Aircraft Throughout Their Life Cycle:** Our team is adept at managing and executing the sale of aircraft. Since our formation, we have sold 299 aircraft to 94 buyers for \$6.7 billion as of February 28, 2023. These sales produced net gains of \$514.1 million and involved a wide range of aircraft types and buyers. Of these aircraft, 205, or 69%, were over 14 years old at the time of sale; often being sold on a part-out disposition basis, where the airframe and engines may be sold to various buyers. We believe our competence in selling older aircraft is one of the capabilities that sets us apart from many of our competitors.
- **Strong Capital Raising Track Record and Access to a Wide Range of Financing Sources:** Since our inception, we have raised approximately \$2.1 billion in equity capital from private and public investors as of February 28, 2023. We maintain a strong, strategic relationship with Marubeni Corporation ("Marubeni"), which is one of our controlling shareholders. We have obtained \$19.4 billion in debt capital from a variety of

sources including the unsecured bond market, commercial banks, export credit agency-backed debt, and the aircraft securitization market. The diversity and global nature of our financing sources demonstrates our ability to adapt to changing market conditions and seize new opportunities.

- **Our Capital Structure Provides Investment Flexibility:** We have \$1.7 billion available from unsecured revolving credit facilities, \$1.4 billion of which does not expire until 2025, thereby limiting our near-term financial markets exposure. Given our relatively limited future capital commitments, we have the resources to take advantage of future investment opportunities. Our large, unencumbered asset base and our unsecured revolving lines of credit give us access to the unsecured bond market, which we expect will allow us to pursue a flexible and opportunistic investment strategy over the long term.
- **Experienced Management Team with Significant Expertise:** Our leadership team has an average of more than thirty years of relevant industry experience and we have expertise in the acquisition, leasing, financing, technical management, restructuring/repossession and sale of aviation assets. This experience spans several industry cycles and a wide range of business conditions and is global in nature. We believe our management team is highly qualified to manage and grow our aircraft portfolio and to address our long-term capital needs.
- **Global and Scalable Business Platform:** We operate through offices in the United States, Ireland and Singapore, using a modern asset management system designed specifically for aircraft operating lessors and capable of handling a significantly larger aircraft portfolio. We believe that our current facilities, systems and personnel are capable of supporting an increase in our revenue base and asset base without a proportional increase in overhead costs.

## Business Strategy

Our business approach is to continue to remain differentiated from those of other leasing companies which have orders with aircraft manufacturers. The recent global disruptions that occurred as a result of the COVID-19 pandemic and the Russian invasion of Ukraine have required enhanced focus on diligent, proactive risk monitoring while continuing to pursue our core strategies. Our focus is to manage risk and secure liquidity while growing our assets and profits over the long term. By limiting long-term capital commitments and maintaining a conservative capital structure, we seek to best position ourselves for future investment opportunities as macroeconomic conditions improve.

Our business strategy entails the following elements:

- **Pursuing a disciplined and differentiated investment strategy.** In our view, the relative values of different aircraft change over time. We continually reevaluate investments across different aircraft models, ages, lessees and acquisition channels as market conditions and relative investment values change. We believe our team's experience with a wide range of asset types and the financing flexibility offered through unsecured debt provides us with a competitive advantage. We view orders from aircraft manufacturers to be part of our investment opportunity set, however we have limited large, long-term capital commitments and are not reliant on orders for new aircraft from manufacturers as a source of new investments, as many of our competitors do. Over the long term we plan to grow our business and profits while maintaining a conservative and flexible capital structure.
- **Selling assets when attractive opportunities arise.** We sell assets with the aim of realizing profits and reinvesting proceeds. We also use asset sales for portfolio management purposes, such as reducing lessee specific concentrations and lowering residual value exposures to certain aircraft types.
- **Maintaining efficient access to capital from a wide set of sources and leveraging our investment grade credit rating.** We believe the aircraft investment market is influenced by the business cycle. Our strategy is to increase our purchase activity when prices are low and to emphasize asset sales when prices are high. To implement this approach, we believe it is important to maintain access to a wide variety of financing sources. Since 2018, we have had an investment grade corporate credit rating and maintained strong portfolio and capital structure metrics while achieving critical size through accretive growth. We believe our investment grade rating not only reduces our borrowing costs, but also facilitates more reliable access to both unsecured and secured debt capital throughout the business cycle. There can be no assurance, however, that we will be

able to access capital on a cost-effective basis and our failure to do so could have a material adverse effect on our business, financial condition or results of operation.

- **Leveraging our strategic relationships.** We intend to capture the benefits provided through the extensive global contacts and relationships maintained by our shareholders, Marubeni and Mizuho Leasing, which have enabled greater access to Japanese-based financing and helped source and develop our joint venture.
- **Capturing the value of our efficient operating platform and strong operating track record.** We believe our team's capabilities in the global aircraft leasing marketplace us in a favorable position to explore new income-generating activities as capital becomes available for such activities. We intend to continue to focus our efforts on investment opportunities in areas where we believe we have competitive advantages and on transactions that offer attractive risk/return profiles.
- **Maintaining a balanced and diversified lease portfolio.** We have a defined Risk Appetite articulated through our Risk Guardrails, which we use to manage portfolio risk and highlight areas where action to mitigate risk may be appropriate. Our Risk Guardrails set limits on lessee concentration by risk rating, geographic concentrations, aircraft type concentrations, overall portfolio credit quality distribution, and lease maturity distribution. We believe that our balanced and diversified fleet, as well as continued focus on portfolio concentration, has and will enable us to reduce the risks associated with the impact of adverse geopolitical and economic events, such as the COVID-19 pandemic and the Russian invasion of Ukraine.

## Acquisitions and Sales

We originate acquisitions and sales through well-established relationships with airlines, other aircraft lessors, financial institutions and brokers, as well as other sources. We believe that sourcing such transactions globally through multiple channels provides for a broad and relatively consistent set of opportunities.

Our objective is to develop and maintain a diverse operating lease portfolio. We review our operating lease portfolio to manage our portfolio diversification and to sell aircraft opportunistically when we believe selling will achieve better expected risk-adjusted cash flows than reinvesting in and re-leasing the aircraft. See "Management's Discussion and Analysis of Financial Condition and Results of Operations — Overview — Acquisitions and Sales."

We have an experienced acquisition and sales team based in Stamford, Connecticut; Dublin, Ireland; and Singapore that maintains strong relationships with a wide variety of market participants throughout the world. We believe that our seasoned personnel and extensive industry contacts facilitate our access to acquisition and sales opportunities and that our strong operating track record facilitates our access to debt and equity capital markets.

Potential investments and sales are evaluated by teams comprised of marketing, technical, risk management, finance and legal professionals. These teams consider a variety of aspects before we commit to purchase or sell an aircraft, including price, specification/configuration, age, condition and maintenance history, operating efficiency, lease terms, financial condition and liquidity of the lessee, jurisdiction, industry trends and future redeployment potential and values. We believe that utilizing a cross-functional team of experts to consider investment parameters helps us assess more completely the overall risk and return profile of potential acquisitions and helps us move forward expeditiously on letters of intent and acquisition documentation.

## Finance

We believe that cash on hand, payments received from lessees and other funds generated from operations, unsecured borrowings, borrowings from our revolving credit facilities, secured borrowings for aircraft, and other borrowings and proceeds from future aircraft sales will be sufficient to satisfy our liquidity and capital resource needs over the next twelve months. We may choose to repay all or a portion of such borrowings from time to time with the net proceeds from subsequent long-term debt financings, additional equity offerings or cash generated from operations and asset sales. Our ability to execute our business strategy, particularly the acquisition of additional commercial jet aircraft or other aviation assets, depends to a significant degree on our ability to obtain additional debt and equity capital on terms we deem attractive.

See "Management's Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources — Secured Debt Financings" and " — Unsecured Debt Financings" under Item 7.

## Segments

The Company manages, analyzes and reports on its business and results of operations on the basis of one operating segment: leasing, financing, selling and managing commercial flight equipment. Our chief executive officer is the chief operating decision maker.

### Aircraft Leases

Our aircraft are net leases whereby we retain the benefit, and bear the risk, of re-leasing and of the residual value of the aircraft at the end of the lease. Leasing can be an attractive alternative to ownership for an airline because leasing increases an airline's fleet flexibility, requires lower capital commitments, and reduces aircraft residual value risks for the airline.

Typically, the lessee agrees to lease an aircraft for a fixed term, although certain of our leases allow the lessee the option to extend the lease for an additional term or, in rare cases, terminate the lease prior to its expiration. Substantially all of our leases have fixed rates that are payable monthly in advance in U.S. dollars. Under our leases, the lessee must pay operating expenses payable or accrued during the term of the lease, which normally include maintenance, overhaul, fuel, crew, landing, airport and navigation charges, certain taxes, licenses, consents and approvals, aircraft registration and insurance premiums.

Generally, we receive a cash deposit or letter of credit as security for the lessee's performance of its obligations under the lease. Typically, the lessee is required to make payments for heavy maintenance, overhaul or replacement of certain high-value components of the aircraft, which are either made monthly in arrears or at the end of the lease term. Our determination of whether to require such payments to be made monthly or to permit a lessee to make a single maintenance payment at the end of the lease term depends on a variety of factors, including the creditworthiness of the lessee, the amount of security deposit provided by the lessee and market conditions at the time. If a lessee is making monthly maintenance payments, we would typically be obligated to use funds paid by the lessee during the lease term to reimburse the lessee for costs they incur for heavy maintenance, overhaul or replacement of certain high-value components, usually following completion of the relevant work. If a lessee makes a single end of lease maintenance payment, the lessee would typically be required to pay us for its utilization of the aircraft during the lease. In some cases, however, we may owe a net payment to the lessee in the event heavy maintenance is performed and the aircraft is returned to us in better condition than at lease inception.

Many of our leases also contain provisions requiring us to pay a portion of the cost of modifications to the aircraft performed by the lessee at its expense if such modifications are mandated by recognized airworthiness authorities. The lessees are obliged to remove liens on the aircraft other than liens permitted under the leases.

Our leases generally provide that the lessees' payment obligations are absolute and unconditional under any and all circumstances and require lessees to make payments without withholding payment on account of any amounts the lessor may owe the lessee or any claims the lessee may have against the lessor for any reason, except that under certain of the leases a breach of quiet enjoyment by the lessor may permit a lessee to withhold payment. The leases also generally include an obligation of the lessee to gross up payments under the lease where lease payments are subject to withholding and other taxes, although there may be some limitations to the gross up obligation, including provisions which do not require a lessee to gross up payments if the withholdings arise out of our ownership or tax structure. In addition, changes in law may result in the imposition of withholding and other taxes and charges that are not reimbursable by the lessee under the lease or that cannot be so reimbursed under applicable law. Our leases also generally require the lessee to indemnify the lessor for tax liabilities relating to the leases and the aircraft, including in most cases, value added tax and stamp duties, but excluding income tax or its equivalent imposed on the lessor.

The scheduled maturities of our aircraft leases by aircraft type grouping currently are as follows, taking into account sales, sale agreements, lease placements and renewal commitments as of April 18, 2023, by fiscal year:

#### Fiscal Year 2023 Lease Expirations and Lease Placements

As of April 18, 2023, we have 5 off-lease aircraft and 19 aircraft with leases expiring in fiscal year 2023, which combined account for 7% of our Net Book Value at February 28, 2023, still to be placed or sold.

#### Fiscal Year 2024-2027 Lease Expirations and Lease Placements

Taking into account lease and sale commitments, we currently have the following number of aircraft with lease expirations scheduled in fiscal years 2024-2027, representing the percentage of our Net Book Value at February 28, 2023, specified below:

- 2024: 39 aircraft, representing 13%;
- 2025: 29 aircraft, representing 12%;
- 2026: 19 aircraft, representing 7%; and
- 2027: 26 aircraft, representing 12%.

*Lease Payments and Security.* Our leases require the lessee to pay periodic rentals during the lease term. As of February 28, 2023, all but one of our leases have fixed rentals that do not vary according to changes in interest rates. For the one variable rate lease, rentals are payable on a floating interest-rate basis. Virtually all lease rentals are payable monthly in advance and in U.S. dollars.

Under our leases, the lessee must pay operating expenses payable or accrued during the term of the lease, which normally include maintenance, overhaul, fuel, crew, landing, airport and navigation charges, certain taxes, licenses, consents and approvals, aircraft registration and insurance premiums. Typically, the lessee is required to make payments for heavy maintenance, overhaul or replacement of certain high-value components of the aircraft. These maintenance payments are based on hours or cycles of utilization or on calendar time, depending upon the component, and are either made monthly in arrears or at the end of the lease term. Our determination of whether to require such payments to be made monthly or to permit a lessee to make a single maintenance payment at the end of the lease term depends on a variety of factors, including the creditworthiness of the lessee, the amount of security deposit provided by the lessee and market conditions at the time. If a lessee is making monthly maintenance payments, we would typically be obligated to use funds paid by the lessee during the lease term to reimburse the lessee for costs they incur for heavy maintenance, overhaul or replacement of certain high-value components, usually following completion of the relevant work. If a lessee makes a single end of lease maintenance payment, the lessee would typically be required to pay us for its utilization of the aircraft during the lease. In some cases, however, we may owe a net payment to the lessee in the event heavy maintenance is performed and the aircraft is returned to us in better condition than at lease inception.

Many of our leases also contain provisions requiring us to pay a portion of the cost of modifications to the aircraft performed by the lessee at its expense if such modifications are mandated by recognized airworthiness authorities. The lessees are obliged to remove liens on the aircraft other than liens permitted under the leases.

Our leases generally provide that the lessees' payment obligations are absolute and unconditional under any and all circumstances and require lessees to make payments without withholding payment on account of any amounts the lessor may owe the lessee or any claims the lessee may have against the lessor for any reason, except that under certain of the leases a breach of quiet enjoyment by the lessor may permit a lessee to withhold payment. The leases also generally include an obligation of the lessee to gross up payments under the lease where lease payments are subject to withholding and other taxes, although there may be some limitations to the gross up obligation, including provisions which do not require a lessee to gross up payments if the withholdings arise out of our ownership or tax structure. In addition, changes in law may result in the imposition of withholding and other taxes and charges that are not reimbursable by the lessee under the lease or that cannot be so reimbursed under applicable law. Our leases also generally require the lessee to indemnify the lessor for tax liabilities relating to the leases and the aircraft, including in most cases, value added tax and stamp duties, but excluding income tax or its equivalent imposed on the lessor.

#### **Lease Management and Remarketing**

Our aircraft re-leasing strategy is to develop opportunities proactively, well in advance of scheduled lease expiration. This enables consideration of a broad set of alternatives, including deployment, sale or part-out, and to allow for reconfiguration or maintenance lead times where needed. We also take a proactive approach to monitoring the credit quality of our customers, and may seek early return and redeployment of aircraft if we feel that a lessee is unlikely to perform its obligations under a lease. We have invested significant resources in developing and implementing what we consider to be state-of-the-art lease management information systems and processes to enable efficient management of aircraft in our portfolio.

#### **Portfolio Risk Management**

Our objective is to build and maintain a lease portfolio that is balanced and diversified and delivers returns commensurate with risk. We have a defined Risk Appetite to assist in portfolio risk management and highlight areas where action to mitigate risk may be appropriate, and take into account the following:

- individual lessee exposures;
- geographic concentrations;
- aircraft type concentrations;
- portfolio credit quality distribution; and
- lease maturity distribution.

We have a risk management team that undertakes detailed due diligence on lessees when aircraft are acquired with a lease already in place and for placement of aircraft with new lessees following lease expiration or termination. They also monitor the portfolio on an ongoing basis.

#### **Other Aviation Assets and Alternative New Business Approaches**

We believe investment opportunities may arise in related areas such as financing secured by commercial jet aircraft as well as jet engine and spare parts leasing, trading and financing. In the future, we may make opportunistic investments in these or other sectors or in other aviation-related assets, and we intend to continue to explore other income-generating activities and investments.

We source and service investments for our joint venture to which we provide marketing, asset management and administrative services. We are paid market-based fees for these services, which are recorded in Other revenue in our Consolidated Statements of Income (Loss).

We believe we have a world class servicing platform and may also pursue opportunities to capitalize on these capabilities such as providing aircraft management services for third party aircraft owners.

#### **Competition**

The aircraft leasing and trading industry is highly competitive with a significant number of active participants. We

face competition for the acquisition, placement and ultimately for the sale of aircraft. Competition for aircraft acquisitions comes from many sources, ranging from large established aircraft leasing companies to smaller players and new entrants.

Competition for leasing, re-leasing and selling aircraft is based principally upon the availability, type and condition of the aircraft, user base, lease rates, prices, and other lease terms. Aircraft manufacturers, leasing companies, airlines and other operators, distributors, equipment managers, financial institutions and other parties engaged in leasing, managing, marketing or remarketing aircraft compete with us, although their focus may be on different market segments and aircraft types.

Larger lessors are generally more focused on acquiring new aircraft via direct orders with the original equipment manufacturers and through purchase and lease-back transactions with airlines. These larger lessors include AerCap Holdings, Air Lease Corporation, SMBC Aviation Capital, BOC Aviation, Avolon Holdings, Aviation Capital Group, Dubai Aerospace Enterprise, Industrial and Commercial Bank of China and China Development Bank.

Competition for mid-aged and older aircraft comes from other competitors that, in many cases, rely on private equity or hedge fund capital sources. Such competitors include Carlyle Aviation Partners, Castlake, Merx Aviation and other players, including new entrants, funded by alternative investment funds and companies. These companies are typically fund-based, rather than having permanent capital structures, and have benefited from the availability of debt financing for mid-aged aircraft. Some of these companies have also set up permanent capital structures to be able to access the unsecured debt market.

Some of our competitors have greater financial resources and / or a lower cost of capital. A number commit to speculative orders of new aircraft to be placed on operating lease upon delivery from the manufacturer, which compete with new and used aircraft offered by other lessors. The aircraft leasing industry is characterized by on-going merger and acquisition activity as well as new entrants as barriers to entry into the industry are relatively low. In 2022, two start-ups with significant financial backing started operations: High Ridge Aviation (U.S., backed by PIMCO) and AviLease (Saudi Arabia, backed by a sovereign wealth fund).

We believe that we can compete favorably in aircraft acquisition, leasing and sales activities due to the reputation of our team of experienced professionals, extensive market contacts and expertise in sourcing and acquiring aircraft. We also believe our access to unsecured debt provides us with a competitive advantage in pursuing investments quickly and reliably and in acquiring aircraft in situations where it may be more difficult to finance on a secured, non-recourse basis.

## **Insurance**

We require our lessees to carry general third-party legal liability insurance, all-risk aircraft hull insurance (both with respect to the aircraft and with respect to each engine when not installed on our aircraft) and war-risk hull and legal liability insurance. We are named as an additional insured on liability insurance policies carried by our lessees, and we or one of our lenders would typically be designated as a loss payee in the event of a total loss of the aircraft. We maintain contingent hull and liability insurance coverage with respect to our aircraft which is intended to provide coverage for certain risks, including the risk of cancellation of the hull or liability insurance maintained by any of our lessees without notice to us, but which excludes coverage for other risks such as the risk of insolvency of the primary insurer or reinsurer. Not all losses are covered by insurance and in some cases, the insurers also have maximum limits that will be payable called aggregate limits.

We maintain insurance policies to cover non-aviation risks related to physical damage to our equipment and property, as well as with respect to third-party liabilities arising through the course of our normal business operations (other than aircraft operations). We also maintain limited business interruption insurance to cover a portion of the costs we would expect to incur in connection with a disruption to our main facilities, and we maintain directors' and officers' liability insurance providing coverage for liabilities related to the service of our directors, officers and certain employees. Consistent with industry practice, our insurance policies are generally subject to deductibles or self-retention amounts.

Both our insurers and the airlines' insurers have not settled our claims arising from the Russian invasion of Ukraine and we have had to resort to litigation that could take years to fully settle. The Russian invasion of Ukraine has also led insurers to reassess their coverage and significantly increase premiums. We nevertheless continue to believe the insurance coverage currently carried by our lessees and by Aircastle provides adequate protection against the accident-related and other covered risks involved in the conduct of our business. However, there can be no assurance that we have adequately insured against all risks, that lessees will at all times comply with their obligations to maintain insurance, that

our lessees' insurers and re-insurers will be or will remain solvent and able to satisfy any claims, that any particular claim will ultimately be paid or that we will be able to procure adequate insurance coverage at commercially reasonable rates in the future.

## **Environmental, Social and Governance ("ESG")**

We believe that our commitment to identifying and implementing positive environmental and social related business practices strengthens our Company, and better serves our customers, our communities and the broader environment within which we conduct our business. Board oversight of ESG matters is conducted by the Company's Risk and Governance Committee." A detailed report with our ESG disclosures in alignment with Global Reporting Initiative guidance can be found on our website at [www.aircastle.com](http://www.aircastle.com).

### *Our Commitment to Environmental Sustainability*

Ambitious targets have been made towards the ultimate goal of curbing the adverse effects of climate change. In October 2021, IATA announced its Fly Net Zero commitment to achieve net zero carbon by 2050. This commitment was echoed by the United States Aviation Climate Action Plan, released in November 2021. In February 2022, a collective of airlines, airports, and aviation manufacturers operating in the European Union ("E.U."), United Kingdom ("U.K."), and European Free Trade Associate ("EFTA") unveiled the flagship sustainability measure, Destination 2050.

For these ambitious measures to reach implementation, a wide political and administrative consensus will be required. Due to the inherent complexities of jet aircraft, decarbonizing aviation requires more radical new technology as compared to other modes of transportation. Hydrogen and electronic propulsion for commercial jet aircraft are far-reaching initiatives. Sustainable aviation fuels ("SAFs") provide the most readily available means for airline operators to reduce their carbon emissions while using existing technology, however the high cost and low availability present challenges for SAFs impactful usage.

The Company believes the operations of our customers could be affected by the potential impacts of both climate change and sustainability targets and initiatives aimed at curbing its effect, so we are committed to monitoring sustainability developments. The Company's long-term strategic plan takes these rapidly developing initiatives into consideration when we evaluate the technology behind the aircraft we target for investment. For the year ended February 28, 2023, 16 out of the Company's 22 total acquisitions were in new technology aircraft with higher efficiency and lower emissions.

### *Our People*

As of February 28, 2023, we had 115 employees. None of our employees are covered by a collective bargaining agreement, and we believe that we maintain excellent employee relations.

We believe that our commitment to our employees is critical to our continued success, leading to high employee satisfaction and low employee turnover. To facilitate talent attraction and retention, we strive to have a diverse, inclusive and safe workplace, with opportunities for our employees to grow and develop in their careers, supported by strong compensation, benefits and health and wellness programs, and by programs that build connections between our employees and their communities. Each year, we review employee career development and succession planning internally and with our Compensation Committee.

### *Our Culture & Governance*

Our Company was formed in 2004 on the values of integrity, common decency and respect for others. These values continue to this day and are shared by our employees. In addition, these values are embodied in our Code of Business Conduct and Ethics, which has been adopted by the Board of Directors of the Company to serve as a statement of principles to guide our decision-making and reinforce our commitment to these values in all aspects of our business.

The Company also maintains independent third-party whistle-blower platforms for anonymous reporting of fraud or ethics violations. Our cyber security initiatives provide protection through malware detection, cloud penetration testing, threat hunting and incident responsiveness.

We believe that our commitment to our Company, our employees and the communities in which we operate has led to high employee satisfaction and low employee turnover, as discussed above, and our commitment to our customers and

business partners has resulted in high customer satisfaction, as evidenced by long-time relationships with our customers and new/repeat transactions with our business partners.

## **Government Regulation**

The air transportation industry is highly regulated, although Aircastle itself is generally not directly subject to most air transportation regulations as we do not operate aircraft. In contrast, our lessees are subject to extensive, direct regulation under the laws of the jurisdictions in which they are registered and where they operate. Such laws govern, among other things, the registration, operation, security, and maintenance of our aircraft, environmental issues and the financial oversight of their operations.

Regulations, such as those limiting CO<sub>2</sub> emissions and reducing noise, are changing and developing in the aviation sector, where there is an additional international angle to the regulation. The impact of recent crises, such as the COVID-19 pandemic and the Russian invasion of Ukraine, on the airline sector has further complicated matters. Further regulatory changes are expected in the coming years.

## **ITEM 1A. RISK FACTORS**

*In addition to the other information set forth in this Annual Report, you should carefully consider the following factors, which could materially adversely affect our business, financial condition, results of operations in future periods or our ability to meet our debt obligations. The risks described below are not the only risks facing our Company. Additional risks not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition, results of operations.*

### **Risks Related to Our Lessees**

*Risks affecting the airline industry may materially adversely affect our customers.*

We operate as a supplier to airlines and are indirectly impacted by all the risks facing airlines today. The ability of lessees to perform their obligations under the relevant lease depends on their financial condition, which may be affected by factors beyond our control, including:

- passenger and air cargo demand, fare levels and air cargo rates;
- operating costs, including the price and availability of jet fuel, labor costs and insurance costs and coverages;
- restrictions in labor contracts and labor difficulties, including pilot shortages;
- availability of financing, including covenants in financings, terms imposed by credit card issuers, collateral posting requirements contained in hedging contracts and the ability of airlines to make or refinance principal payments;
- economic conditions, including recession, financial system distress and currency fluctuations;
- aircraft accidents;
- the continuing availability of government support through subsidies, loans, guarantees, equity investments;
- changing political conditions, including risk of protectionism, travel restrictions, or trade barriers;
- geopolitical events, including war, terrorism, epidemic or pandemic diseases and natural disasters;
- impact of climate change and emissions on demand for air travel;
- cyber risk, including information hacking, viruses, ransomware and malware; and
- governmental regulation of, including noise regulations, emissions regulations, climate change initiatives, and aircraft age limitations.

These factors, and others, may lead to defaults by our customers, or may delay or prevent aircraft deliveries or transitions, result in payment or other lease term restructurings, may increase our costs from repossessions and reduce our revenues due to downtime or lower re-lease rates.

***Adverse currency movements could negatively impact the profitability of our lessees.***

Many of our lessees are exposed to currency risk as they earn revenues in local currencies while a significant portion of their liabilities and expenses, including fuel, debt service, and lease payments are denominated in U.S. dollars. If the local currency is devalued, our lessees may not be able to increase revenue sufficiently to offset the impact of exchange rates on these expenses. Currency depreciation could impact the ability of customers to meet their contractual obligations in a timely manner. Shifts in foreign exchange rates can be significant, are difficult to predict, and can occur quickly.

***Increases in fuel prices could negatively impact the profitability of our lessees.***

Fuel costs represent a major expense to airlines and fluctuate widely. Airlines may not be able to successfully manage their exposure to fuel prices and significant changes could materially affect their operating results. Airlines may not be able to pass on increases in fuel prices to their customers by increasing fares. High fuel prices may also have an impact on consumer spending and adversely impact demand for air transportation.

***Lessee defaults could materially adversely affect our business, financial condition and results of operations.***

Investors should expect some lessees to experience payment difficulties, particularly in difficult economic or operating environments. As a result of their financial condition and lack of liquidity, lessees may be significantly in arrears in their rental or maintenance payments. Liquidity issues are more likely to lead to airline failures in the periods of large air traffic declines, financial system distress, volatile fuel prices, and economic slowdown. Given the size of our aircraft portfolio, we expect that from time to time some lessees will be slow or will fail to make their payments in full under their leases.

We may not correctly assess the credit risk of a lessee or that risk could change over time. We may not be able to charge risk-adjusted lease rates, and lessees may not be able to continue to perform their financial and other obligations under our leases in the future. We may experience some level of delinquency under our leases and default levels may increase over time. A lessee may experience periodic difficulties that are not financial in nature, which could impair its performance of maintenance obligations under the leases. These difficulties may include the failure to perform required aircraft maintenance and labor-management disagreements or disputes.

In the event that a lessee defaults under a lease, any security deposit paid or letter of credit provided by the lessee may not be sufficient to cover the lessee's outstanding or unpaid lease obligations and required maintenance and transition expenses.

***Significant costs resulting from lease defaults could have a material adverse effect on our business.***

While we have the right to repossess the aircraft and to exercise other remedies upon a lessee default, repossession of an aircraft could lead to significant costs for us. Those costs include legal and other expenses of court or other governmental proceedings, particularly if the lessee is contesting the proceedings, and costs to obtain possession and/or deregistration of the aircraft and flight and export permissions. Delays resulting from these proceedings would increase the period of time during which the aircraft is not generating revenue. We may incur maintenance, refurbishment or repair costs that a defaulting lessee has failed to incur or pay and that are necessary to put the aircraft in suitable condition for re-lease or sale. We may be required to pay off liens, claims, taxes and other governmental charges to obtain clear possession and to remarket the aircraft for re-lease or sale. We may also incur maintenance, storage or other costs while we have physical possession of the aircraft.

We may suffer other adverse consequences due to a lessee default and the repossession of the aircraft. Our rights upon a lessee default vary significantly depending upon the jurisdiction and may include the need to obtain a court order for repossession of the aircraft and/or consents for deregistration or re-export of the aircraft. When a defaulting lessee is in bankruptcy, protective administration, insolvency or similar proceedings, additional limitations may apply. Certain jurisdictions give rights to the trustee in bankruptcy or a similar officer to assume or reject the lease or to assign it to a third party, or entitle the lessee or another third party to retain possession of the aircraft without paying lease rentals or without performing all of the obligations under the lease. There can be no assurance that jurisdictions that have adopted the Cape Town Convention will enforce it as written. Certain of our lessees are owned in whole or in part by government-related entities, which could complicate our efforts to repossess the relevant aircraft. Accordingly, we may be delayed in, or prevented from, enforcing our rights under a lease and in re-leasing or selling the affected aircraft.

If we repossess an aircraft, we may not necessarily be able to export or deregister and redeploy the aircraft. When a lessee or other operator flies only domestic routes, repossession may be more difficult, especially if the jurisdiction permits the lessee or the other operator to resist deregistration. Significant costs may also be incurred in retrieving or recreating aircraft records required for registration of the aircraft and obtaining a certificate of airworthiness. A default and exercise of remedies involving a lessee where we have a significant exposure or concentration risk could have a materially adverse impact on our future revenue and cash flows.

***If our lessees encounter financial difficulties and we decide to restructure our leases with those lessees, this could result in less favorable leases and significant reductions in our cash flow.***

When a lessee is late in making payments or fails to make payments in full, we may elect to or be required to restructure the lease. Restructuring may involve anything from a simple rescheduling of payments to the termination of a lease without receiving all the past due amounts. If requests for payment restructuring or rescheduling are granted, reduced or deferred rental payments may be payable over all or some part of the remaining term of the lease, and the terms of any revised payment schedules may be unfavorable or such payments may not be made. We may be unable to agree upon acceptable terms for any requested restructurings and as a result may be forced to exercise our remedies under those leases and we may be unable to repossess our aircraft on a timely basis. If we, in the exercise of our remedies, repossess the aircraft, we may not be able to re-lease the aircraft promptly at favorable rates, or at all.

The terms and conditions of payment restructurings or reschedulings, particularly involving lessees where we have significant exposure, may adversely affect our cash flows.

***Airline reorganizations could have an adverse effect on our financial results.***

As a result of economic conditions, airlines may be forced to reorganize. Bankruptcies and reduced demand may lead to the grounding of significant numbers of aircraft and negotiated reductions in aircraft lease rental rates, with the effect of depressing aircraft market values. Additional grounded aircraft and lower market values would adversely affect our ability to sell certain of our aircraft on favorable terms, or at all, or re-lease other aircraft at favorable rates comparable to the then current market conditions, which collectively would have an adverse effect on our financial results. We may not recover any of our claims or damages against an airline under bankruptcy or insolvency protection.

***If our lessees fail to appropriately discharge aircraft liens, we might find it necessary to pay such claims.***

In the normal course of business, liens that secure the payment of airport fees and taxes, custom duties, air navigation charges (including charges imposed by Eurocontrol), landing charges, crew wages, repairer's charges, salvage or other liens, are likely, depending on the jurisdiction, to attach to the aircraft. These liens may secure substantial sums that may, in certain jurisdictions or for certain types of liens (particularly "fleet liens"), exceed the value of the relevant aircraft. Although the financial obligations relating to these liens are the responsibility of our lessees, if they fail to fulfill their obligations, these liens may attach to our aircraft and ultimately become our responsibility. Until these liens are discharged, we may be unable to repossess, re-lease or sell the aircraft or unable to avoid detention or forfeiture of the aircraft.

Our lessees may not comply with their obligations under their respective leases to discharge liens arising during the terms of their leases. If they do not do so, we may find it necessary to pay the claims secured by any liens in order to repossess the aircraft.

***Risks associated with the concentration of our lessees in certain geographical regions could harm our business or financial results.***

Through our lessees and the countries in which they operate, we are exposed to the specific conditions and associated risks of those particular jurisdictions. An adverse economic or political event in any region or country in which our lessees or our aircraft are concentrated could affect the ability of our lessees to meet their obligations to us or expose us to various legal or political risks associated with the affected jurisdictions, all of which could have a material and adverse effect on our financial results.

*Many of our lessees operate in emerging markets and we are indirectly subject to the economic and political risks associated with such markets.*

Emerging markets may be more vulnerable to economic and political problems, such as significant fluctuations in gross domestic product, interest and currency exchange rates, government instability, nationalization and expropriation of private assets, unfavorable legal systems, change in law regarding recognition of contracts or ownership rights, changes in governments or government policy and the imposition of taxes or other charges by governments. The occurrence of these events may adversely affect our ownership interest in an aircraft or the ability of our lessees to meet their lease obligations. For the year ended February 28, 2023, 45 of our lessees, which operated 118 aircraft and generated 54% of our lease rental revenue, are domiciled or habitually based in emerging markets.

#### **Risks Related to Our Aviation Assets**

*The variability of supply and demand for aircraft could depress lease rates for our aircraft.*

The aircraft leasing and sales industry has experienced periods of aircraft oversupply. The oversupply of a specific type of aircraft in the market is likely to depress aircraft lease rates for, and the value of, that type of aircraft. The supply and demand for aircraft is affected by various cyclical and non-cyclical factors that are not under our control, including:

- passenger and air cargo demand;
- operating costs, including fuel costs, and general economic conditions affecting our lessees' operations;
- foreign exchange rates;
- interest rates and the availability of capital to finance certain aircraft types;
- airline restructurings and bankruptcies;
- changes in control of, or restructurings of, other aircraft leasing companies;
- manufacturer production levels and technological innovation;
- new-entrant manufacturers, or existing manufacturers producing new aircraft models;
- geopolitical events, including war, prolonged armed conflict and acts of terrorism;
- governmental regulation, tariffs and other restrictions, such as sanctions, on trade or the leasing of aircraft;
- climate change initiatives, technological change, aircraft noise and emissions regulations, aircraft age limits and other factors leading to reduced demand for, early retirement or obsolescence of aircraft models;
- outbreaks of communicable diseases and natural disasters;
- reintroduction into service of aircraft previously grounded or in storage; and
- airport and air traffic control infrastructure constraints.

These and other factors may produce movements in aircraft values and lease rates, which would impact our cost of acquiring aircraft, or which may result in lease defaults or prevent aircraft from being re-leased or sold on favorable terms.

*Other factors that could cause a decline in aircraft value and lease rates.*

In addition to factors linked to the aviation industry generally, other factors that may affect the value and lease rates of our aircraft include:

- the age of the aircraft;
- the particular maintenance and operating history of the airframe and engines;
- the number of operators using that type of aircraft;
- whether the aircraft is subject to a lease and, if so, whether the lease terms are favorable to us;
- the demand for and availability of such aircraft;
- applicable airworthiness directives or manufacturer's service bulletins that have not yet been performed;
- grounding orders or other regulatory action that could prevent or limit utilization of our aircraft;
- regulatory and legal requirements that must be satisfied before the aircraft can be purchased, sold or re-leased; and
- compatibility of our aircraft configurations or specifications with those desired by operators and financiers.

Any decrease in the values of and lease rates for commercial aircraft which may result from the above factors or other unanticipated factors may have a material adverse effect on our financial results.

***Climate change may have a long-term impact on our business.***

There are inherent climate-related risks wherever our business is conducted. Changes in market dynamics, stakeholder and financier expectations, local, national and international climate change policies, all have the potential to disrupt our business and operations. Various countries, including the United States and countries in the European Union, have announced sustainability initiatives that, among other things, aim to reduce carbon emissions, explore sustainable aviation fuels and establish sustainability measures and targets. Climate and environmental objectives may impact the types of aircraft we target for investment and the demand for certain aircraft and engine types, and could result in a significant increase in our costs and expenses and adversely affect future revenue, cash flows and financial performance. Failure to address climate change could result in greater exposure to economic and other risks and impact our ability to adhere to developing climate goals.

***The advent of superior aircraft technology and higher production levels could cause our existing aircraft portfolio to become outdated and therefore less desirable.***

As manufacturers introduce technological innovations and new types of aircraft, including the Boeing 787, the Airbus A350, the Airbus A220 and re-engined models of the Boeing 737, Boeing 777, Airbus A320, Airbus A330 and Embraer E-Jet families of aircraft, certain aircraft in our existing aircraft portfolio may become less desirable to potential lessees or purchasers. This next generation of aircraft generally delivers improved fuel consumption and reduced noise and emissions with lower operating costs compared to prior-technology aircraft. The Boeing 787 and 737 MAX and the Airbus A350, A320neo and A220 are all currently in production. The Boeing 777X is expected to enter service in 2025. The Commercial Aircraft Corporation of China Ltd. is developing aircraft models that will compete with the Airbus A320 family aircraft, the Boeing 737 and the Embraer E-Jet. The introduction of these new models and the potential resulting overcapacity in aircraft supply, could adversely affect the residual values and the lease rates for our aircraft, our ability to lease or sell our aircraft on favorable terms, or at all.

***The effects of emissions and noise regulations and policies may negatively affect the airline industry. This may cause lessees to default on their lease payment obligations and may limit the market for certain aircraft in our portfolio.***

Many governments have imposed limits on aircraft engine emissions, such as NO<sub>x</sub>, CO and CO<sub>2</sub>, consistent with current ICAO standards. In 2015, over 190 countries, including the United States, reached an agreement to reduce global GHG emissions at the United Nations Framework Convention on Climate Change. The agreement does not expressly reference aviation, but if the agreement is implemented in the United States and other countries there could be an adverse effect on the aviation industry.

European countries have relatively strict environmental regulations that can restrict operational flexibility and decrease aircraft productivity. The E.U. has included the aviation sector in its emissions trading scheme ("ETS") but its application to flights within the European Economic Area ("EEA") deferred any further application until 2024, pending a review of the results of a new initiative introduced by the promulgated by ICAO. On December 6, 2022, a provisional agreement on the European Commission's "Fit for 55" proposal was reached between the European Parliament and the European Council that will modify the ETS system by phasing out ETS allowances for the aviation sector by 2026. It remains to be seen how this agreement will be implemented and what effect, if any, this will have on our business.

In October 2016, ICAO adopted a global market-based measure to control CO<sub>2</sub> emissions from international aviation. This measure is the "Carbon Offsetting and Reduction Scheme for International Aviation" ("CORSIA") with the aim of achieving carbon-neutral growth from 2020 onwards. The CORSIA pilot phase (2021-2023) and the CORSIA first phase (2024-2026) will apply only to routes between countries that have each volunteered to participate in the scheme. All airlines that operate routes between two volunteering countries will be subject to the offsetting requirements. The requirement to offset emissions will be divided among airlines in proportion to their total CO<sub>2</sub> emissions, which is referred to as the "sectoral" approach to emissions. From 2030 onwards, this sectoral approach will transition to an approach based on each airline's individual rate of growth.

Over time, it is possible that governments will adopt additional regulatory requirements and/or market-based policies to reduce emissions and noise levels from aircraft. Such initiatives may be based on concerns regarding climate change, energy security, public health, local impacts, or other factors, and may impact the global market for certain

aircraft and cause behavioral shifts that result in decreased demand for air travel. These concerns could result in limitations on our customers' operation of our fleet and our ability to lease or re-lease certain older mid-life aircraft, particularly aircraft equipped with older technology engines.

Compliance with current or future regulations could cause our lessees to incur higher costs and lead to higher ticket prices, which could mean lower demand for travel and adverse impacts on the financial condition of our lessees. Such compliance may also affect our lessees' ability to make rental and other lease payments and limit the market for aircraft in our portfolio.

***Public perception of the company's commitment to positive ESG initiatives could expose us to additional risk.***

Companies are facing increasing and frequently evolving scrutiny globally from customers, regulators, financiers, employees and other stakeholders related to their ESG practices and disclosure. There has been an increased expectation for the global aviation industry to balance commercial interests with conscientious ESG performance focused on accountability to stakeholders. In recognition of this trend, organizations are sometimes reviewed by rating agencies using varying sustainability evaluation criteria. In some cases, these reviews result in ESG-specific ratings. Institutions who invest in our unsecured notes or with whom we have secured lending facilities may also have an elevated focus on the ESG perception of those with whom they transact. Our ability to obtain financing at strategic rates could be impacted by these perceptions and ratings or by any developing key performance indicators which the Company and financiers may develop over time.

***The older age of some of our aircraft may expose us to higher maintenance related expenses.***

In general, the costs of operating an aircraft, including maintenance expenditures, increase with the age of the aircraft. Additionally, older aircraft typically are less fuel-efficient than newer aircraft and may be more difficult to re-lease or sell, particularly if, due to increasing production rates by aircraft manufacturers or airline insolvencies, older aircraft are competing with an excess of newer aircraft in the lease or sale market. Expenses like fuel, carbon charges, aging aircraft inspections, maintenance or modification programs and related airworthiness directives could make the operation of older aircraft less economically viable and may result in increased lessee defaults. We may also incur some of these increased maintenance expenses and regulatory costs upon acquisition or re-leasing of our aircraft. Re-leasing larger wide-body aircraft may result in higher reinvestment and maintenance expenditures than re-leasing narrow-body aircraft.

***The concentration of aircraft or engine types in our portfolio could lead to adverse effects on our business should any difficulties specific to a particular type of aircraft or engine occur.***

Our portfolio is concentrated in certain aircraft and engine types. The supply of commercial aircraft is dominated by Airbus and Boeing and there are a limited number of engine manufacturers. Should any aircraft or engine types or any manufacturers encounter disruptions, including supply chain issues, manufacturing and quality control issues, financial instability or other difficulties, it would cause a decrease in the value of these assets, an inability to lease them on favorable terms or at all, or a potential grounding of these aircraft or engines, which may adversely impact our financial results, to the extent the affected type comprises a significant percentage of our portfolio.

***We operate in a highly competitive market for investment opportunities and for the leasing and sale of aircraft.***

We compete with other lessors, airlines, aircraft manufacturers, financial institutions, aircraft brokers and other investors with respect to aircraft acquisitions, leasing and sales. The aircraft leasing industry is highly competitive and may be divided into three basic activities: (i) aircraft acquisition; (ii) leasing or re-leasing of aircraft; and (iii) aircraft sales.

A number of our competitors are substantially larger and have considerably greater financial, technical and marketing resources than we do. Some competitors may have a lower cost of funds and access to funding sources that are not available to us. In addition, some of our competitors may have higher risk tolerances, lower investment return expectations or different risk or residual value assessments, which could allow them to consider a wider variety of investments, establish more relationships, bid more aggressively on aviation assets available for sale and offer lower lease rates or sales prices than we can. Some of our competitors may provide financial services, maintenance services or other inducements to potential lessees or buyers that we cannot provide. As a result of competitive pressures, we may not be able to take advantage of attractive investment opportunities, and we may not be able to identify and make investments that are consistent with our investment objectives. Additionally, the barriers to entry in the aircraft acquisition and

leasing market are comparatively low, and new entrants appear from time to time. We may not be able to compete effectively against present and future competitors in the aircraft acquisition, leasing or sales market.

## **Risks Related to Our Leases**

***If lessees are unable to fund their maintenance obligations on our aircraft, we may incur increased costs at the conclusion of the applicable lease.***

The standards of maintenance observed by lessees and the condition of the aircraft may affect the future values and rental rates for our aircraft.

Under our leases, the lessee is responsible for maintaining the aircraft and complying with all governmental requirements applicable to the lessee and the aircraft, including, operational, maintenance, and registration requirements and airworthiness directives, although in certain cases we may agree to share certain of these costs. Failure of a lessee to perform required aircraft maintenance or required airworthiness directives could result in a decrease in value of such aircraft, an adverse effect on our ability to lease the aircraft at favorable rates or at all, or a potential grounding of such aircraft, and will likely require us to incur increased maintenance and modification costs upon the expiration or earlier termination of the applicable lease, which could be substantial, to restore such aircraft to an acceptable condition. If any of our aircraft are not subject to a lease, we would be required to bear the entire cost of maintaining that aircraft and performing any required airworthiness directives.

Many of our leases provide that the lessee is required to make periodic payments to us during the lease term to provide reserves for major maintenance events. In these leases there is an associated liability for us to reimburse the lessee after such maintenance is performed. A substantial number of our leases do not provide for any periodic maintenance reserve payments to be made to us. Typically, these lessees are required to make payments at the end of the lease term. However, in the event such lessees default, the value of the aircraft could be negatively affected by the maintenance condition and we may be required to fund the entire cost of performing major maintenance on the relevant aircraft without having received compensating maintenance payments from these lessees.

Even if we receive maintenance payments, these payments may not cover the entire expense of the scheduled maintenance they are intended to fund. In addition, maintenance payments typically cover only certain scheduled maintenance requirements and do not cover all required maintenance and all scheduled maintenance. As a result, we may incur unanticipated or significant costs at the conclusion of a lease.

***Failure to pay certain potential additional operating costs could result in the grounding or arrest of our aircraft and prevent the re-lease, sale or other use of our aircraft.***

As in the case of maintenance costs, we may incur other operational costs upon a lessee default or where the terms of the lease require us to pay a portion of those costs. Such costs include:

- the costs of casualty, liability and political risk insurance and the liability costs or losses when insurance coverage has not been or cannot be obtained as required, or is insufficient in amount or scope;
- the costs of licensing, exporting or importing an aircraft, airport charges, customs duties, air navigation charges, landing fees and similar governmental or quasi-governmental impositions, which can be substantial;
- penalties and costs associated with the failure of lessees to keep aircraft registered under all appropriate local requirements or obtain required governmental licenses, consents and approvals; and
- carbon taxes or other fees, taxes or costs imposed under emissions limitations, climate change regulations or other initiatives.

The failure to pay certain of these costs can result in liens on the aircraft. The failure to register the aircraft can result in a loss of insurance. These matters could result in the grounding or arrest of the aircraft and prevent the re-lease, sale or other use of the aircraft until the problem is cured.

***Our lessees may have inadequate insurance coverage or fail to fulfill their respective indemnity obligations, which could result in us not being covered for claims asserted against us.***

By virtue of holding title to the aircraft, lessors may be held strictly liable for losses resulting from the operation of aircraft or may be held liable for those losses based on other legal theories. Liability may be placed on an aircraft lessor in certain jurisdictions even under circumstances in which the lessor is not directly controlling the operation of the aircraft.

Lessees are required under our leases to indemnify us for, and insure against, liabilities arising out of the use and operation of the aircraft, including third-party claims for death or injury to persons and damage to property for which we may be deemed liable. Lessees are required to maintain public liability, property damage and hull all risk and hull war risk insurance on the aircraft at agreed upon levels. However, they are not generally required to maintain political risk insurance. Following the terrorist attacks of September 11, 2001, aviation insurers significantly reduced the amount of insurance coverage available to airlines for liability to persons other than employees or passengers for claims resulting from acts of terrorism, war or similar events. At the same time, they significantly increased the premiums for such third-party war risk and terrorism liability insurance and coverage in general. As a result, the amount of such third-party war risk and terrorism liability insurance that is commercially available at any time may be below the amount stipulated in our leases. The Russian invasion of Ukraine has also led insurers to reassess their coverage and significantly increase premiums.

Our lessees' insurance (including any available governmental supplemental coverage) and our contingent and possessed insurance may not cover, or be sufficient to cover, all types of claims that may be asserted against us and recovery may also be subject to aggregate limits. Any inadequate insurance coverage or default by lessees in fulfilling their indemnification or insurance obligations will reduce the proceeds that would be received by us upon an event of loss under the respective leases or upon a claim under the relevant liability insurance.

***Failure to obtain certain required licenses and approvals could negatively affect our ability to re-lease or sell aircraft.***

A number of our lessees must obtain licenses, consents or approvals in order to import or operate the aircraft or comply with the leases. These include consents from governmental or regulatory authorities for certain payments under the leases and for the import, export or deregistration of the aircraft. Subsequent changes in applicable law or administrative practice may increase such requirements and a governmental consent, once given, might be withdrawn. Consents needed in connection with future re-leasing or sale of an aircraft may not be forthcoming. Any of these events could adversely affect our ability to re-lease or sell aircraft.

## **Risks Related to Our Operations**

***Events outside of our control, including the threat or realization of epidemic or pandemic diseases, terrorist attacks, war or armed hostilities between countries or non-state actors, and natural disasters may adversely affect the demand for air travel, the financial condition of our lessees and of the aviation industry more broadly, and may ultimately impact our business.***

Air travel has historically been disrupted, sometimes severely, by the occurrence of unexpected events outside of our and our lessees' control. The occurrence of any such event, or multiple such events, could cause our lessees to experience decreased passenger demand, to incur higher costs and to generate lower revenues, which could adversely affect their ability to make lease payments to us. This in turn may lead to lease restructurings and reposessions and could result in reductions to our lease revenues and cash flows, and cause us to record impairment charges to the extent we cannot recover our investment in our aircraft assets.

Passenger demand for air travel has been recently impacted by the COVID-19 pandemic and, in the past, by other epidemic diseases such as severe acute respiratory syndrome, bird flu, swine flu, the Zika virus, and Ebola.

According to IATA, air travel approximated 85% of pre-pandemic levels as of February 28, 2023, compared to 55% as of February 28, 2022. If air traffic remains depressed over an extended period and if our customers are unable to obtain sufficient funds from private, government or other sources, we may need to provide lease concessions to certain customers in the form of deferrals or broader lease restructurings. We have also experienced and may still experience other impacts from the COVID-19 pandemic, including weaker demand for certain aircraft types and defaults, bankruptcies or reorganizations of our lessees. While we cannot currently reasonably estimate the extent to which these events will continue to impact our business, we expect our business, financial condition and results of operations will continue to be negatively impacted in the near term. Future epidemic diseases and other diseases, or the fear of such events could provoke responses that negatively affect passenger air travel.

The airline industry has also been disrupted by terrorist attacks, war or armed hostilities between countries or non-state actors, including the fear of such events. These events may lead to decreased passenger demand and revenue due to safety concerns, the inconvenience of additional security measures, the higher price of jet fuel, increased financing costs, and difficulty in raising funds on favorable terms, or at all. In addition, these events may lead to higher costs of aircraft

insurance coverage for future claims caused by acts of war, terrorism, sabotage, hijacking and other similar perils, and affect the extent to which such insurance has been or will continue to be available. they may also lead to higher insurance costs due to the increased security measures and potential special charges, such as those related to the impairment of aircraft and other long lived assets stemming from the above conditions. More recently, the Russian invasion of Ukraine and resulting sanctions by various countries, including the United States, countries in the E.U., and the U.K., have significantly affected our business, financial condition, and results of operations. The Russia invasion of Ukraine has and may continue to have adverse effects on macroeconomic conditions, including fuel prices, the availability and cost of insurance, security conditions, currency exchange rates and financial markets. It is not possible to predict the broader or longer-term consequences of the Russian invasion of Ukraine, which could include new or additional sanctions (including counter responses by the Russian government or other jurisdictions), embargoes, further escalation or regional instability, and geopolitical shifts. Such geopolitical instability and uncertainty could have a negative impact on our ability to lease aircraft, collect payments from, and support customers in certain regions based on trade restrictions, embargoes and export control law restrictions, and logistics restrictions including closures of air space, and could materially and adversely affect our business.

Demand for air travel or the inability of airlines to operate to or from certain regions due to the occurrence of natural disasters or other natural phenomena, such as severe weather conditions, floods, earthquakes or volcanic eruptions, could have an adverse effect on our lessees’ ability to satisfy their lease payment obligations to us.

***Volatile financial market conditions may adversely impact our liquidity, our access to capital and our cost of capital and may adversely impact the airline industry and the financial condition of our lessees.***

We may, from time to time, seek to opportunistically refinance, amend, re-price and/or otherwise replace any of our debt, obtain additional debt financing or enter into other financing arrangements, reduce or extend our debt, lower our interest payments or the cost of capital available to us under certain types of financing arrangements, or otherwise seek to improve our financial position or the terms of our debt or other financing agreements. These actions may include open market debt repurchases, negotiated repurchases, or other repayments, redemptions or retirements of our debt or other financing arrangements.

The amount of debt that may be borrowed or issued, refinanced, and/or repurchased, repaid, redeemed or otherwise retired, if any, will depend on market conditions, trading levels of our debt, our cash position, compliance with our debt covenants and other considerations. The availability and pricing of debt financing remains susceptible to global events, including political changes, rising interest rates, currency fluctuations, and the rate of international economic growth. If we need, but cannot obtain, adequate capital on satisfactory terms, or at all, as a result of negative conditions in the capital markets or otherwise, our business, financial condition and results of operations could be materially adversely affected.

***We bear the risk of re-leasing and selling our aircraft.***

We bear the risk of re-leasing or selling our aircraft in order to continue to generate cash flows. Only a portion of an aircraft’s value is covered by contractual cash flows from leases, so we are exposed to the risk that the residual value will not be sufficient to permit us to fully recover our investment and that we may have to record impairment charges. In certain cases we commit to purchase aircraft that are not subject to lease and therefore are subject to lease placement risk.

Other factors that may affect our ability to fully realize our investment in our aircraft and that may increase the likelihood of impairment charges include credit deterioration of a lessee, higher fuel prices which may reduce demand for older, less fuel-efficient aircraft, additional environmental regulations, age restrictions, customer preferences and other factors that may effectively shorten the useful life of older aircraft.

***We own and lease long-lived assets and have written down the value of some of our assets. If market conditions worsen, or in the event of a customer default, we may be required to record further write-downs.***

We perform an annual recoverability assessment of all aircraft in our fleet, on an aircraft-by-aircraft basis. A recoverability assessment is also performed whenever events or changes in circumstances, or indicators, suggest that the carrying amount or net book value of an asset may not be recoverable. Indicators may include, but are not limited to, a significant lease restructuring or early lease termination, a significant change in aircraft model’s storage levels, the introduction of newer technology aircraft or engines, an aircraft type that is no longer in production or significant airworthiness directive that is issued.

When we perform a recoverability assessment, we measure whether the estimated future undiscounted net cash flows expected to be generated by the aircraft exceeds its net book value. We develop the assumptions used in the recoverability analysis based on current and future expectations of the global demand for a particular aircraft type and historical experience in the aircraft leasing market and aviation industry, as well as information received from third-party industry sources. The factors considered in estimating the undiscounted net cash flows are impacted by changes in future periods due to changes in projected lease rental and maintenance payments, residual values, economic conditions, technology, airline demand for a particular aircraft type and other factors, such as the location of the aircraft and accessibility to records and technical documentation. If our estimates or assumptions change, we may revise our cash flow assumptions and record future impairment charges.

We continue to closely monitor the impact of recent crises, such as the Russian invasion of Ukraine and the COVID-19 pandemic, on our customers, air traffic, lease rental rates, and aircraft valuations, and have performed and will continue to perform additional customer and aircraft specific reviews should changes in facts and circumstances arise that may impact the recoverability of our aircraft. We have focused and will continue to focus on aircraft with near-term lease expirations, customers that have entered judicial insolvency proceedings and any additional customers that may become subject to similar-type proceedings, and certain other customers and aircraft variants that are more susceptible to the impact of these above crises and value deterioration.

***Departure of key officers could harm our business and financial results.***

Our senior management's reputations and relationships with lessees, sellers, buyers and financiers of aircraft are a critical element of our business. We encounter intense competition for qualified employees from other companies in the aircraft leasing industry, and we believe there are only a limited number of available qualified executives in our industry. The Company seeks to retain a pipeline of senior management personnel with superior talent to provide continuity of succession, including for the Chief Executive Officer position and other senior positions. Our Board of Directors is involved in succession planning, including review of short- and long-term succession plans for senior positions. Our future success depends, to a significant extent, upon the continued service of our senior management personnel, including the Chief Executive Officer, and if we lose one or more of these individuals, our business could be adversely affected.

***We are subject to risks related to our indebtedness that may limit our operational flexibility and our ability to compete with our competitors.***

As of February 28, 2023, our total indebtedness was \$4.6 billion, representing 71.1% of our total capitalization. Airastle Limited is either the principal obligor or has guaranteed most of this indebtedness, and we are responsible for timely payment when due and compliance with covenants under the related debt documentation. We may be unable to generate sufficient cash to pay, when due, the principal of, interest on or other amounts due with respect to our indebtedness, and our substantial amount of indebtedness may increase our vulnerability to adverse economic and industry conditions, reduce our flexibility in planning for or reaction to changes in the business environment or in our business or industry, and adversely affect our cash flow and our ability to operate our business and compete with our competitors. Our indebtedness subjects us to certain risks, including:

- 16.7% of our Net Book Value serves as collateral for our secured indebtedness, and the terms of certain of our indebtedness require us to use proceeds from sales of certain aircraft, in part, to repay amounts outstanding under such indebtedness;
- our failure to comply with the terms of our indebtedness, including restrictive covenants, may result in additional interest being due or defaults that could result in the acceleration of the principal, and unpaid interest on, the defaulted debt, as well as the forfeiture of any aircraft pledged as collateral; and
- non-compliance with covenants prohibiting certain investments and other restricted payments, raise additional capital or refinance our existing debt, may reduce our operational flexibility and limit our ability to refinance.

***Our ability to obtain debt financing and our cost of debt financing is, in part, dependent upon our credit ratings and a credit downgrade or being put on negative watch could adversely impact our financial results.***

Maintaining our credit ratings depends on our financial results and on other factors, including the outlook of the ratings agencies on our sector and on the market generally. A credit rating downgrade or being put on negative watch may make it more difficult or costly for us to raise debt financing in the unsecured bond market, or may result in higher pricing or less favorable terms under other financings. Credit rating downgrades or being put on negative watch, may

make it more difficult and/or more costly to satisfy our funding requirements. Any future tightening or regulation of financial institutions could impact our ability to raise funds in the commercial bank loan market in the future.

***An increase in our borrowing costs may adversely affect our earnings.***

We primarily finance our business through the issuance of Senior Notes. As our Senior Notes mature, we will be required to repay them by issuing new Senior Notes, which could result in higher borrowing costs, or repay them by using cash on hand or cash from the sale of our assets.

***The provisions of our long-term financings require us to comply with financial and other covenants. Our compliance with these ratios, tests and covenants depends upon, among other things, the timely receipt of lease payments from our lessees and upon our overall financial performance.***

- *Senior Notes* Our senior note indentures impose operating and financial restrictions on our activities. These restrictions limit our ability to, or in certain cases prohibit us from guaranteeing additional indebtedness, incurring liens and a cross-default to certain other financings of the Company.
- *Term Financings* Our secured term financings contain, among other customary provisions, a minimum net worth covenant of \$1.1 billion, a 2.0:1.0 minimum interest coverage ratio, a 2.0:1.0 minimum fixed coverage ratio, a 75% maximum loan-to-value ratio, a 2.0:1.0 EBITDA to cash interest ratio and a cross-default to certain other financings of the Company.
- *Unsecured Revolving Credit Facilities* Our unsecured revolving credit facilities/loan contain \$750 million to \$1.1 billion minimum net worth covenants, minimum unencumbered asset ratios, minimum fixed coverage ratios and cross-defaults to certain other financings of the Company.

The terms of our financings also restrict our ability to incur or guarantee additional indebtedness or engage in mergers, amalgamations or consolidations among our subsidiary companies or between a subsidiary company and a third party or otherwise dispose of all or substantially all of our assets.

***We are subject to various risks and requirements associated with transacting business in foreign jurisdictions.***

The international nature of our business exposes us to trade and economic sanctions and other restrictions imposed by the U.S. and other governments. The U.S. Departments of Justice, Commerce and Treasury, as well as other agencies and authorities have a broad range of civil and criminal penalties, they may seek to impose against companies for violations of export controls, the Foreign Corrupt Practices Act (“FCPA”), and other federal statutes, sanctions and regulations, including those established by the Office of Foreign Assets Control (“OFAC”). Increasingly, similar or more restrictive foreign laws, rules and regulations, including the U.K. Bribery Act (“UKBA”), and European laws and regulations may also apply to us. By virtue of these laws and regulations, we may be obliged to limit our business activities, we may incur costs for compliance programs and we may be subject to enforcement actions or penalties for noncompliance. In recent years, U.S. and foreign governments have increased their oversight and enforcement activities with respect to these laws, and we expect the relevant agencies to continue to increase these activities.

We have compliance policies and training programs in place for our employees with respect to FCPA, OFAC Regulations, UKBA and similar laws, but there can be no assurance that our employees, consultants or agents will not engage in conduct for which we may be held responsible. Violations of FCPA, OFAC Regulations, UKBA and other laws, sanctions or regulations may result in severe criminal or civil penalties, and we may be subject to other liabilities.

The General Data Protection Regulation (“GDPR”) requires us to protect certain personal data of E.U. citizens. While we have implemented processes and controls to comply with GDPR requirements, the manner in which the E.U. will interpret and enforce certain provisions remains unclear and we could incur significant fines of up to 4% of worldwide revenue, individual damages and reputational risks if the E.U. determines that our controls and processes are ineffective and we have failed to adequately comply with the requirements.

***We are dependent upon information technology systems, which are subject to disruption, damage, failure and risks associated with implementation and integration.***

We are dependent upon information technology systems to manage, process, store and transmit information associated with our operations, which may include proprietary business information and personally identifiable information of our customers, suppliers and employees. Our information technology systems are subject to disruption,

damage or failure from a variety of sources, including malware, ransomware, security breaches, cyber-attacks, employee error and defects in design. There may also be an elevated risk of cyber-attacks by Russia in response to economic sanctions imposed by the U.S., the E.U., the U.K. and other countries resulting from the Russian invasion of Ukraine. Damage, disruption, or failure of information technology systems may result in interruptions to our operations or may require a significant investment to fix or replace them or may result in significant damage to our reputation. Although various measures have been implemented to manage our risks related to the information technology systems and network disruptions, our resources and technical sophistication may not be adequate to prevent all types of cyber-attacks that could lead to the payment of fraudulent claims, loss of sensitive information, including our own proprietary information or that of our customers, suppliers and employees, and could harm our reputation and result in lost revenues and additional costs and potential liabilities.

#### **Risks Related to Our Organization and Structure**

*We are a holding company with no operations and rely on our operating subsidiaries to provide us with funds necessary to meet our financial obligations.*

We are a holding company with no material direct operations. Our principal assets are the equity interests we directly or indirectly hold in our operating subsidiaries. As a result, we are dependent on loans, dividends and other payments from our subsidiaries to generate the funds necessary to meet our financial obligations. Although there are currently no material legal restrictions on our operating subsidiaries' ability to distribute assets to us, legal restrictions, including governmental regulations and contractual obligations, could restrict or impair our operating subsidiaries' ability to pay dividends or make loan or other distributions to us. Our subsidiaries are legally distinct from us and may be prohibited or restricted from paying dividends or otherwise making funds available to us under certain conditions.

#### **Risks Related to Taxation**

*If Aircastle were treated as engaged in a trade or business in the United States, it would be subject to U.S. federal income taxation on a net income basis, which would adversely affect our business.*

If, contrary to expectations, Aircastle were treated as engaged in a trade or business in the United States, the portion of its net income, if any, that was "effectively connected" with such trade or business would be subject to U.S. federal income taxation at a maximum rate of 35% for taxable years ending on or prior to December 31, 2017 and 21% for taxable years beginning after December 31, 2017 (such rate, the "Federal Rate"). In addition, Aircastle would be subject to the U.S. federal branch profits tax on its effectively connected earnings and profits at a rate of 30%. The imposition of such taxes would adversely affect our business.

*The U.S. Corporate Alternative Minimum Tax ("AMT") proposals may impact our effective tax rate in future periods.*

On August 16, 2022, President Biden signed into law the Inflation Reduction Act (the "IRA"). The IRA includes a provision which imposes a 15% minimum tax on adjusted financial statement income ("AFSI") for corporations. For a corporation that is a member of a foreign-parented multi-national group, the AMT applies where (i) the three-year average annual AFSI from all members of the foreign-parented multi-national group exceeds \$1 billion, and (ii) the three-year average annual AFSI from the group's U.S. corporation(s) is \$100 million or more. There is currently limited guidance on the application and calculation of any AMT. This uncertainty will be addressed through regulations promulgated by the U.S. Treasury and guidance issued by the Internal Revenue Service. We currently do not expect these changes to have a material impact on our financial position; however, we will continue to evaluate the impact as further information becomes available.

*If there is not sufficient trading in shares of our ultimate parent company, or if 50% of such shares are held by certain 5% shareholders, we could lose our eligibility for an exemption from U.S. federal income taxation on rental income from our aircraft used in "international traffic" and could be subject to U.S. federal income taxation, which would adversely affect our business.*

We expect that we are currently eligible for an exemption under Section 883 of the Internal Revenue Code of 1986, as amended (the "Code"), which provides an exemption from U.S. federal income taxation with respect to rental income derived from aircraft used in international traffic by certain foreign corporations. No assurances can be given that we will continue to be eligible for this exemption. To qualify for this exemption in respect of rental income, the lessor of the aircraft must be organized in a country that grants a comparable exemption to U.S. lessors (Bermuda and Ireland each do), and certain other requirements must be satisfied. We can satisfy these requirements in any year if, for more than half

the days of such year, our shares are primarily and regularly traded on a recognized exchange and certain shareholders, each of whom owns 5% or more of our shares (applying certain attribution rules), do not collectively own more than 50% of our shares. Following the Merger, these stock ownership requirements are currently tested at the Marubeni and Mizuho Leasing levels such that Aircastle and its subsidiaries can continue to qualify for the Section 883 exemption if the stock of Marubeni is considered to be primarily and regularly traded on a recognized stock exchange and non-qualifying 5% or greater shareholders are not considered to collectively own more than 50% of Marubeni's shares, as described above. If Marubeni's shares cease to satisfy these requirements, then we may no longer be eligible for the Section 883 exemption with respect to rental income earned by aircraft used in international traffic. If we were not eligible for the exemption under Section 883 of the Code, we expect that the U.S. source rental income of Aircastle Bermuda generally would be subject to U.S. federal taxation, on a gross income basis, at a rate of not in excess of 4% as provided in Section 887 of the Code. If, contrary to expectations, Aircastle Bermuda did not comply with certain administrative guidelines of the Internal Revenue Service, such that 90% or more of Aircastle Bermuda's U.S. source rental income were attributable to the activities of personnel based in the United States, Aircastle Bermuda's U.S. source rental income would be treated as income effectively connected with the conduct of a trade or business in the United States. In such case, Aircastle Bermuda's U.S. source rental income would be subject to U.S. federal income taxation on its net income at the Federal Rate as well as state and local taxation. In addition, Aircastle Bermuda would be subject to the U.S. federal branch profits tax on its effectively connected earnings and profits at a rate of 30%. The imposition of such taxes would adversely affect our business.

#### ***Bermuda Economic Substance Act 2018.***

Pursuant to the Economic Substance Act 2018 (as amended) of Bermuda (the "ESA") that came into force in January 2019, a registered entity other than an entity which is resident for tax purposes in certain jurisdictions outside Bermuda ("non-resident entity") that carries on as a business any one or more of the "relevant activities" referred to in the ESA must comply with economic substance requirements. The ESA may require in-scope Bermuda entities which are engaged in such "relevant activities" to be directed and managed in Bermuda, have an adequate level of qualified employees in Bermuda, incur an adequate level of annual expenditure in Bermuda, maintain adequate physical presence in Bermuda or perform core income-generating activities in Bermuda. The list of "relevant activities" includes, among other things, carrying on any one or more of: insurance, financing and leasing (which excludes operating leases), headquarters, intellectual property and holding entities.

Entities subject to the economic substance requirements are required to evidence their compliance and file an economic substance declaration with the Registrar of Companies in Bermuda on an annual basis.

Any entity that must satisfy economic substance requirements but fails to do so could face financial penalties, a restriction of its business activities, automatic reporting by the Bermuda authorities to the competent authorities in the European Union or other jurisdiction of the entity's beneficial owners, on an entity's non-compliance or being struck-off as a registered entity in Bermuda. If any one of the foregoing were to occur it may adversely affect the business operations of the Company or its Bermuda subsidiaries.

The Company and its Bermuda subsidiaries believe they have complied with the ESA requirements and have filed, and will continue to file, annual economic substance declarations with the Registrar of Companies in Bermuda as required. The Registrar of Companies in Bermuda ultimately assesses compliance with the ESA requirements.

#### ***We may become subject to an increased rate of Irish taxation which would adversely affect our business.***

Our Irish subsidiaries and affiliates are expected to be subject to corporation tax on their income from leasing, managing, and servicing aircraft at the 12.5% tax rate applicable to trading income. This expectation is based on certain assumptions, including that we will maintain at least the current level of our business operations in Ireland. If we are not successful in achieving trading status in Ireland, the non-trading income activities of our Irish subsidiaries and affiliates would be subject to tax at the rate of 25% and capital gains would be taxed at the rate of 33%.

#### ***We may become subject to income or other taxes in the non-U.S. jurisdictions in which our aircraft operate, where our lessees are located or where we perform certain services which would adversely affect our business.***

Certain Aircastle entities are expected to be subject to the income tax laws of Ireland and the United States. In addition, we may be subject to income or other taxes in other jurisdictions by reason of our activities and operations, where our aircraft operate or where the lessees of our aircraft (or others in possession of our aircraft) are located.

Although we have adopted operating procedures to reduce the exposure to such taxation, we may be subject to such taxes in the future and such taxes may be substantial. In addition, if we do not follow separate operating guidelines relating to managing a portion of our aircraft portfolio through offices in Ireland and Singapore, income from aircraft not owned in such jurisdictions would be subject to local tax. Changes in tax law could impose withholding taxes on lease payments during the term of a lease. Our leases typically require our lessees to indemnify us in respect of taxes, but some leases may not require such indemnification, or a lessee may fail to make such indemnification payment. The imposition of such taxes could adversely affect our business.

***The introduction of Base Erosion and Profit Shifting by the Organization for Economic Cooperation and Development may impact our effective tax rate in future periods.***

The Organization for Economic Cooperation and Development (the “OECD”) has introduced an action plan with respect to base erosion and profit shifting (“BEPS”). The plan targets among other things tax avoidance measures such as hybrid instruments, excessive interest deductions, treaty shopping, and permanent establishment avoidance.

As part of its BEPS actions, the OECD published the “Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and Profit Shifting” (“MLI”). The MLI seeks to incorporate agreed tax treaty-related measures combating tax avoidance into bilateral existing tax treaties without the need to negotiate new treaties. The MLI may apply to double tax treaties entered into by other countries in which we have operations (in some cases with effect from as early as January 2019).

The MLI entered into force for Ireland in May 2019, and became effective for withholding tax on January 1, 2020. The MLI changed Ireland's treaties by including a principal purpose test (“PPT”), which will disallow treaty benefits where it is reasonable to conclude that the main purpose or one of the main purposes of a transaction or arrangement is to obtain directly or indirectly the benefits of the treaty. Given the subjectivity of the PPT, there is a risk that each counterparty jurisdiction will interpret it differently, which creates uncertainty in its application to leasing and other arrangements. Until such time as countries develop guidance on how the test will be applied, it will be difficult to determine its effect on us.

Ireland did not adopt the MLI’s “dependent agent” permanent establishment threshold. Some countries could seek a bilateral re-negotiation on the point to change the dependent agent provisions in their tax treaty with Ireland. Any such change could take some time to be agreed and subsequently ratified before it could come into effect.

Further changes to tax law will be required in order to fully implement the BEPS action plans. Currently, it is difficult to determine what further BEPS actions the governments of lessee jurisdictions will implement. Depending on the nature of the BEPS action plans adopted, it may result in an increase in our effective tax rate and cash taxes liabilities in future periods.

***It is unclear what impact the OECD and the BEPS initiatives will have on our business.***

On January 29, 2019, the OECD announced an initiative , to create an international consensus on new rules (referred to as “BEPS 2.0”) for the framework governing international taxation, which was supported by the publication of the Pillar One and Pillar Two Blueprint Reports (the “Blueprints”) on October 12, 2020. The stated aim is to move beyond the arm’s length principle and the scope of current taxing rights are limited to businesses with a physical presence in a country. The new rules, if adopted, would readjust the balance of taxing rights and multinational companies (“MNC”) profit allocation between jurisdictions where MNC assets are owned and the markets where users and consumers are based.

On October 8, 2021, 136 countries, including Ireland and Bermuda, approved a statement, known as the OECD BEPS Inclusive Framework (the “IF”), providing a framework for BEPS 2.0, which builds upon the Blueprints. The IF and revised Pillar Two Blueprint include a global minimum effective tax rate of 15% for groups with annual consolidated revenue in excess of €750 million, subject to certain exclusions. The OECD published detailed rules to assist in the implementation of the Pillar 2 rules involving 137 countries on December 20, 2021, and again on March 14, 2022. These detailed rules should allow some countries to introduce the Pillar 2 rules into domestic legislation during the course of 2023. On December 22, 2021, the European Commission published a proposed E.U. Directive to incorporate the Pillar 2 tax rules into E.U. law and has also issued further publications since that date. On December 12, 2022, the E.U. council unanimously agreed to adopt this Directive giving E.U. countries until December 31, 2023 to transpose the Directive into domestic legislation. Further guidance is expected from the OECD and the E.U. as to how certain aspects of the Pillar

Two Blueprint and the Directive will operate mechanically, and as such it is difficult to determine the degree to which these changes may result in an increase in our effective tax rate and cash tax liabilities in future periods.

On March 12, 2022, the E.U. released the latest draft of the E.U. Directive to implement the OECD Pillar 2 model rules in the E.U. This draft includes a proposal to defer the transposition deadline to December 31, 2023 with the rules to become effective for fiscal years beginning as from this same date and an option for Member States to defer the application of the Income and Inclusion Rule and the Undertaxed Profit Rule (“UTPR”) even further provided that they host fewer than ten Ultimate Parent Entities of in-scope groups. The compromise text also proposes that the implementation of UTPR would be deferred so as to apply in respect of fiscal years beginning from December 31, 2024.

Given that the OECD and the E.U. are still developing their plans under BEPS 2.0 and the scope of many unilateral measures remain unclear, it is unclear what impact the eventual implementation of these plans will have on our business.

***The E.U. Anti-tax Avoidance proposals may impact our effective rate of tax in future periods.***

The Council of the E.U. has implemented the E.U. Anti-Tax Avoidance Directives (“E.U. ATAD”) and the amending Directive (“E.U. ATAD 2”). These Directives seek to oblige all E.U. member states to introduce a number of anti-tax avoidance measures.

Most of the measures were implemented with effect from January 2019, though certain measures may be deferred to 2024. The E.U. ATAD contemplates the introduction of a restriction on the deductibility of interest, measures in respect of certain hybrid transactions and instruments, an exit charge, a switch overrule, controlled foreign company rules as well as a general anti-avoidance rule.

The impact of the other measures in respect of certain hybrid transactions and instruments, an exit charge, a switch over rule, controlled foreign company rules as well as a general anti-avoidance rule will depend on the exact scope of these measures. The impact on the Company’s tax position (if any), will depend on the implementation of these measures in Ireland and other E.U. jurisdictions where we have operations.

The Irish Finance Bill published on October 21, 2021 included draft legislation to enact the interest limitation measures prescribed by ATAD. The implementation date for the new law was January 1, 2022. Based on the final legislation in Finance Act 2021 signed into law on December 21, 2021, the interest limitation rule will apply to limit the deductibility of a company’s exceeding borrowing costs (i.e. its interest (and equivalent) borrowing costs as reduced by its interest (and equivalent) income) to 30% of tax adjusted EBITDA. Importantly for companies carrying on a leasing trade, a portion of their operating lease income and expense will be treated as equivalent to interest for the purposes of the test. The legislation was finalized on December 21, 2021 and Irish Revenue released guidance on the application of these rules on August 4, 2022, and updated guidance in February 2023. We currently do not expect these interest limitation rules to have a material impact on our financial position.

On December 22, 2021, the European Commission issued a proposal for a Council Directive laying down rules to prevent the misuse of shell entities for tax purposes within the E.U. (“E.U. ATAD 3”) and has since issued a number of draft amendments. While E.U. ATAD 3 was initially expected to be adopted and published into E.U. member states’ national laws by June 30, 2023, and become effective as of January 1, 2024, there is considerable uncertainty surrounding the development of the proposal and its implementation. One of the proposed amendments has been to delay the application of E.U. ATAD 3 to January 1, 2025. E.U. ATAD 3 could result in additional reporting and disclosure obligations.

On May 11, 2022, the European Commission issued a proposal for a Council Directive laying down rules providing for a debt-equity bias reduction allowance within the E.U. (“DEBRA”). DEBRA is intended to provide a notional interest deduction in respect of equity invested in a company, with the interest calculated based on the 10-year risk-free rate for the relevant currency, with the maximum deduction available limited to 30% of earnings before interest, tax, depreciation and amortization. DEBRA is expected to be enacted into legislation in the coming years, but the timing and development of this legislation are uncertain. DEBRA could result in additional reporting and disclosure obligations.

#### OVERVIEW

Aircastle acquires, leases, and sells commercial jet aircraft to airlines throughout the world. As of February 28, 2023, we owned and managed on behalf of our joint venture 248 aircraft leased to 73 lessees located in 44 countries. Our aircraft are managed by an experienced team based in the United States, Ireland and Singapore. Our aircraft are subject to net leases whereby the lessee is generally responsible for maintaining the aircraft and paying operational, maintenance and insurance costs. However, in many cases we are obligated to pay a specified portion of maintenance or modification costs. As of February 28, 2023, the Net Book Value of our flight equipment was \$6.6 billion. The weighted average age of our fleet was 9.7 years and the weighted average remaining lease term was 5.3 years. Our revenues, net income (loss) and Adjusted EBITDA were \$796.0 million, \$62.8 million, and \$732.3 million for the year ended February 28, 2023, and \$769.8 million, \$(278.2) million and \$752.3 million for the year ended February 28, 2022.

#### Acquisitions and Sales

During the year ended February 28, 2023, we acquired 22 aircraft for \$914.2 million. As of February 28, 2023, we had commitments to acquire 20 aircraft for \$763.7 million, with delivery between the first quarter of 2023 and the fourth quarter of 2025, which include estimated amounts for pre-delivery deposits, contractual price escalations and other adjustments. As of April 18, 2023, we have acquired 6 additional aircraft and have commitments to acquire 14 aircraft for \$491.2 million.

During the year ended February 28, 2023, we sold 25 aircraft and other flight equipment for net proceeds of \$426.5 million and recognized a net gain on sale of \$70.9 million. As of April 18, 2023, we have sold 3 additional aircraft.

#### Update on Russian Invasion of Ukraine

At the onset of the Russian Federation's invasion of Ukraine on February 24, 2022, we had 13 aircraft on lease with Russian or Russian-affiliated airlines and have since terminated the leasing activities for all of these aircraft.

As of February 28, 2023, 9 of our aircraft that were previously leased to Russian airlines remain in Russia. Most of the operators of these aircraft have continued to fly the aircraft notwithstanding the sanctions imposed on Russia and leasing terminations. While we will continue to pursue repossession, it is unlikely we will regain possession of any of these 9 aircraft. As a result, the Company wrote off the remaining book value of these 9 aircraft, resulting in impairment

charges totaling \$31.9 million during the year ended February 28, 2023. These 9 aircraft have been removed from the Company's owned fleet count. The Company is vigorously pursuing insurance claims to recover its losses relating to these aircraft and has initiated legal proceedings against its contingent and possessed insurers. The collection, timing and amounts of any insurance recoveries is uncertain.

We have also successfully recovered 4 aircraft that were previously leased to Russian or Russian-affiliated airlines as of February 28, 2023, comprised of 1 narrow-body, 1 wide-body, and 2 freighter aircraft. During the year ended February 28, 2023, we sold the 2 freighter aircraft and 1 wide-body aircraft that we recovered for gains totaling \$53.5 million.

We received \$48.9 million of maintenance and general security letters of credit for our former Russian lessees during the year ended February 28, 2023, which we have recognized in maintenance and other revenue. We collected the remaining letters of credit totaling \$0.6 million subsequent to February 28, 2023.

## **Finance**

We operate in a capital-intensive industry and have a demonstrated track record of raising substantial amounts of capital from debt and equity investors. Since our inception in late 2004, we raised \$2.1 billion in equity capital from private and public investors. We also obtained \$19.4 billion in debt capital from a variety of sources including export credit agency-backed debt, commercial bank debt, the aircraft securitization markets and the unsecured bond market. The diversity and global nature of our financing sources demonstrates our ability to adapt to changing market conditions and seize new growth opportunities.

We intend to fund new investments through cash on hand, funds generated from operations, maintenance payments received from lessees, unsecured bond offerings, secured borrowings secured by our aircraft, draws under on our revolving credit facilities and proceeds from any future aircraft sales. We may repay all or a portion of such borrowings from time to time with the net proceeds from subsequent long-term debt financings, additional equity offerings or cash generated from operations and asset sales. Therefore, our ability to execute our business strategy, particularly the acquisition of additional commercial jet aircraft or other aviation assets, depends to a significant degree on our ability to obtain additional debt and equity capital on terms we deem attractive.

See "Liquidity and Capital Resources" below.

### Revenues:

Total revenues increased \$26.2 million, attributable to:

Lease rental revenue decreased \$8.7 million as a result of:

- a \$67.6 million decrease due to lease terminations, of which \$59.5 million related to the termination of leasing activities with Russian or Russian-affiliated airlines as a result of sanctions;
- a \$21.3 million decrease related to the sale of 21 aircraft since March 1, 2021; and
- a \$6.9 million decrease due to lease extensions, amendments, transitions, and other changes.

These decreases were partially offset by:

- a \$66.2 million increase related to 40 aircraft purchased since March 1, 2021; and
- a \$20.9 million increase related to the timing of payments for cash basis customers and a lower number of customers for which lease rental revenue was recognized using a cash basis of accounting rather than an accrual method – see Note 1 in the Notes to Consolidated Financial Statements regarding our lease revenue recognition policy.

*Direct financing and sales-type lease revenue* decreased \$1.7 million, primarily related to the sale of 3 aircraft and scheduled lease expirations of 7 aircraft since March 1, 2021, partially offset by the reclassification of 2 aircraft to sales-type leases.

*Amortization of lease premiums, discounts and incentives.*

	Year Ended February 28,	
	2023	2022
	(Dollars in thousands)	
Amortization of lease premiums	\$ (11,214)	\$ (14,758)
Amortization of lease discounts	765	815
Amortization of lease incentives	(10,125)	(6,247)
Amortization of lease premiums, discounts and incentives	\$ (20,574)	\$ (20,190)

The amortization of lease premiums decreased \$3.5 million, primarily related to lower write-offs of unamortized lease premiums resulting from early lease terminations, partially offset by new lease premiums for aircraft purchased since March 1, 2021.

The amortization of lease incentives increased \$3.9 million, primarily related to the transition of aircraft to new lessees.

*Maintenance revenue.* For the year ended February 28, 2023, we recorded \$138.1 million of maintenance revenue, comprised primarily of \$46.4 million related to scheduled lease expirations and \$49.9 million related to the early lease terminations of 5 narrow-body, 1 wide-body, and 1 freighter aircraft. We also received \$41.8 million of maintenance security letters of credit for our former Russian lessees during the year ended February 28, 2023, which we have recognized in maintenance revenue – see Note 3 in the Notes to Consolidated Financial Statements.

For the year ended February 28, 2022, we recorded \$152.0 million of maintenance revenue, partially comprised of \$59.9 million related to the early lease terminations of 7 narrow-body and 2 wide-body aircraft and \$28.6 million related to the scheduled lease expirations of 8 narrow-body aircraft. In addition, we recorded \$61.6 million of maintenance revenue related to 9 narrow-body and 1 wide-body aircraft with Russian lessees, resulting from sanctions requiring the termination of leasing activities in Russia.

*Gain on sale of flight equipment.* During the year ended February 28, 2023, we sold 25 aircraft for gains totaling \$70.9 million as compared to the sale of 15 aircraft during the year ended February 28, 2022 for gains totaling \$26.0 million.

*Other revenue* increased \$6.1 million, primarily attributable to \$7.1 million of payments received on general security letters of credit for our former Russian lessees.

#### **Operating Expenses:**

Total operating expenses decreased \$379.1 million attributable to:

*Depreciation expense* decreased \$4.9 million primarily attributable to \$41.2 million resulting from 26 aircraft sold since March 1, 2021 and lower depreciation related to aircraft subject to aircraft impairments, including aircraft that were previously leased to Russian airlines. This was partially offset by an increase of \$30.5 million related to 40 aircraft purchased since March 1, 2021.

*Interest, net* decreased \$9.7 million, primarily due to a lower weighted average debt outstanding of \$292.1 million, partially offset by a higher average cost of borrowing.

*Selling, general and administrative expenses* increased \$10.5 million primarily due to an increase in personnel costs, as well as Russia-related legal costs and travel expenses due to increased business travel.

*Impairment of aircraft.* Excluding asset write-offs related to the Russian invasion of Ukraine, during the year ended February 28, 2023, the Company recorded impairment charges totaling \$53.7 million primarily related to the scheduled lease expirations of 3 narrow-body aircraft and lease terminations of 2 narrow-body aircraft, as well as 1 wide-body

aircraft resulting from our annual fleet review. The Company recognized \$58.9 million of maintenance and lease rentals received in advance into revenue for these aircraft during the year ended February 28, 2023.

The Company wrote off the remaining book values of 8 narrow-body and 1 freighter aircraft in Russia which have not been returned to us. As a result, the Company recorded impairment charges totaling \$31.9 million during the year ended February 28, 2023 – see Note 3 in the Notes to Consolidated Financial Statements. During the year ended February 28, 2023, the Company recognized \$20.3 million of maintenance and other revenue for these aircraft related to payments received on maintenance and general security letters of credit.

During the year ended February 28, 2022, we recorded impairment charges of \$452.3 million, of which \$449.0 million were transactional impairments, primarily related to 16 narrow-body, 2 wide-body and 2 freighter aircraft. The Company recognized \$147.8 million of maintenance, security deposits and lease rentals received in advance into revenue for these 20 aircraft during the year ended February 28, 2022. The impairment charges, in part, resulted from lease terminations, scheduled lease expirations and lessee defaults. Of the total impairment charges, \$341.3 million related to 13 aircraft that were with Russian and Ukrainian lessees, resulting from the Russian invasion of Ukraine and related sanctions placed on Russia. The Company recognized \$89.4 million of maintenance, security deposits and lease rentals received in advance into revenue for these 13 aircraft.

*Maintenance and other costs* were \$22.2 million and \$31.2 million for the years ended February 28, 2023 and 2022, respectively, which related to aircraft that have transitioned or will transition to new lessees as a result of lease terminations or scheduled lease expirations. The Company incurred higher maintenance costs during the year ended February 28, 2022 and continues to incur higher costs compared to historical levels, resulting from extended transition periods driven by supply chain issues and manpower shortages.

***Other Income (Expense):***

Total other income decreased by \$30.1 million. During the year ended February 28, 2023, the Company recognized \$14.1 million of other income related to claims settlements received in the form of cash, notes, or equity securities from various airline customers that had entered into bankruptcy proceedings or similar-type restructurings. During the year ended February 28, 2022, the Company recognized \$55.2 million of proceeds from the sales of unsecured claims related to LATAM Airlines Group S.A. and certain of its subsidiaries' Chapter 11 filing (the "LATAM Bankruptcy"). This was partially offset by a \$14.2 million loss on extinguishment of debt related to the early redemption in full of \$500.0 million outstanding aggregate principal amount of our 5.5% Senior Notes due 2022.

***Income Tax Provision (Benefit):***

Our income tax expense was \$25.5 million for the year ended February 28, 2023 as compared to an income tax benefit of \$8.0 million for the year ended February 28, 2022. Our effective tax rate was 29.6% and 2.8% for the years ended February 28, 2023 and 2022, respectively. The increase in our tax provision was primarily due to \$8.9 million of additional income tax expense resulting from the tax effects of the transfer of certain assets between tax jurisdictions. The increase is also partly attributable to changes in the mix of pre-tax book income in Bermuda, Ireland, and the United States. The year ended February 28, 2022 included the tax effect of certain net non-cash impairment charges of \$19.8 million and income from the sale of unsecured claims related to the LATAM Bankruptcy.

***Results of Operations for the year ended February 28, 2022 as compared to the year ended February 28, 2021:***

We have omitted discussion of the above two periods covered by our consolidated financial statements presented in this Annual Report because that disclosure was already included in our Annual Report on Form 10-K for the fiscal year ended February 28, 2022, filed with the SEC on April 28, 2022. You are encouraged to reference Part II, Item 7, within that report, for a discussion of our financial condition and result of operations for the year ended February 28, 2022 to the year ended February 28, 2021.

**Aircraft Valuation**

***Annual Recoverability Assessment***

We performed our annual recoverability assessment of all our aircraft during the third quarter of 2022. We recorded an impairment charge of \$6.3 million related to 1 wide-body aircraft during the year ended February 28, 2023 as

a result of our annual recoverability assessment – see “Impairment of Aircraft” above and Note 2 in the Notes to Consolidated Financial Statements for further detail regarding impairment of our flight equipment.

We continue to closely monitor the impact of recent crises, such as the Russian invasion of Ukraine and the COVID-19 pandemic, on our customers, air traffic, lease rental rates, and aircraft valuations, and have performed and will continue to perform additional customer and aircraft specific reviews should changes in facts and circumstances arise that may impact the recoverability of our aircraft. We have focused and will continue to focus on aircraft with near-term lease expirations, customers that have entered judicial insolvency proceedings and any additional customers that may become subject to similar-type proceedings, and certain other customers or aircraft variants that are more susceptible to the impact of the above crises and value deterioration.

The recoverability assessment is a comparison of the carrying value of each aircraft to its estimated undiscounted future cash flows. We develop the assumptions used in the recoverability analysis based on current and future expectations of the global demand for a particular aircraft type and historical experience in the aircraft leasing market and aviation industry, as well as information received from third-party industry sources. The factors considered in estimating the undiscounted cash flows are impacted by changes in future periods due to changes in projected lease rental and maintenance payments, residual values, economic conditions, technology, airline demand for a particular aircraft type and other factors, such as the location of the aircraft and accessibility to records and technical documentation.

If our estimates or assumptions change, including those related to our customers that have entered judicial insolvency proceedings, we may revise our cash flow assumptions and record future impairment charges. While we believe that the estimates and related assumptions used in our recoverability assessments are appropriate, actual results could differ from those estimates.

## APPLICATION OF CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management's discussion and analysis of financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with U.S. GAAP, which requires us to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying footnotes. Our estimates and assumptions are based on historical experiences and currently available information. Actual results may differ from such estimates under different conditions, sometimes materially. A summary of our significant accounting policies is presented in the notes to our consolidated financial statements included elsewhere in this Annual Report. Critical accounting policies and estimates are defined as those that are both most important to the portrayal of our financial condition and results and require our most subjective judgments, estimates and assumptions. Our most critical accounting policies and estimates are described below.

### Lease Revenue Recognition

We lease flight equipment under net operating leases with lease terms typically ranging from three to seven years. We generally do not offer renewal terms or purchase options in our leases, although certain of our operating leases allow the lessee the option to extend the lease for an additional term. Operating leases with fixed rentals and step rentals are recognized on a straight-line basis over the term of the initial lease, assuming no renewals.

Our aircraft lease agreements generally provide for the periodic payment of a fixed amount of rent over the life of the lease, and the amount of the contracted rent will depend upon the type, age, specification and condition of the aircraft and market conditions at the time the lease is committed. The amount of rent we receive will depend on a number of factors, including the creditworthiness of our lessees and the occurrence of delinquencies, restructurings and defaults. Our lease rental revenues are also affected by the extent to which aircraft are off-lease and our ability to remarket aircraft that are nearing the end of their leases in order to minimize their off-lease time. Our success in re-leasing aircraft is affected by market conditions relating to our aircraft and by general industry conditions and trends. An increase in the percentage of off-lease aircraft or a reduction in lease rates upon remarketing would negatively impact our revenues.

In certain instances, we may provide lease concessions to customers, generally in the form of lease rental deferrals. While these deferral arrangements affect the timing of lease rental payments, the total amount of lease rental payments required over the lease term is generally the same as that which was required under the original lease agreement. We account for the deferrals as if no modifications to the lease agreements were made and record the deferred rentals as a receivable within other assets.

Should we determine that the collectability of rental payments is no longer probable, including any deferral thereof, we will recognize lease rental revenue using a cash basis of accounting rather than an accrual method. In the period we conclude that collection of lease payments is no longer probable, we recognize any difference between revenue amounts recognized to date under the accrual method and payments that have been collected from the lessee, including security deposit amounts held, as a current period adjustment to lease rental revenue.

### Maintenance Payments and Maintenance Revenue

Under our leases, the lessee must pay operating expenses accrued or payable during the term of the lease, which would normally include maintenance, overhaul, fuel, crew, landing, airport and navigation charges; certain taxes, licenses, consents and approvals; aircraft registration; and insurance premiums. Typically, our aircraft are subject to net operating leases whereby the lessee pays lease rentals and is generally responsible for maintaining the aircraft and paying operational, maintenance and insurance costs, although in a majority of cases, we are obligated to pay a portion of specified maintenance or modification costs.

Under an operating lease, the lessee will be responsible for performing maintenance on the relevant aircraft and will typically be required to make payments to us for heavy maintenance, overhaul or replacement of certain high-value components of the aircraft. These maintenance payments are based on hours or cycles of utilization or on calendar time, depending upon the component, and would be made either monthly in arrears or at or near the end of the lease term. For maintenance payments made monthly in arrears during a lease term, we will typically be required to reimburse all or a portion of these payments to the lessee upon completion of the relevant heavy maintenance, overhaul or parts replacement. We record maintenance payments paid by the lessee during a lease as accrued maintenance liabilities in recognition of our obligation in the lease to refund such payments, and therefore we typically do not recognize

maintenance revenue during the lease. Maintenance revenue recognition would occur at or near the end of a lease, when we are able to determine the amount, if any, by which reserve payments received exceed the amount we are required under the lease to reimburse to the lessee for heavy maintenance, overhaul or parts replacement. If a lease requires end of lease term maintenance payments, typically the lessee would be required to pay us for its utilization of the aircraft during the lease; however, in some cases, we may owe a net payment to the lessee in the event heavy maintenance is performed and paid for by the lessee during the lease term and the aircraft is returned to us in better condition than at lease inception. End of lease term maintenance payments made to us are recognized as maintenance revenue and end of lease term maintenance payments we make to a lessee are recorded as contra maintenance revenue.

The amount of maintenance revenue or contra maintenance revenue we recognize in any reporting period is inherently volatile and is dependent upon a number of factors, including the timing of lease expiries, including scheduled expiries and early lease terminations, the timing of maintenance events and the utilization of the aircraft by the lessee.

#### **Lease Incentives and Amortization**

Many of our leases contain provisions that may require us to pay a portion of the lessee's costs for heavy maintenance, overhaul or replacement of certain high-value components. We account for these expected payments as lease incentives, which are amortized as a reduction of revenue over the life of the lease. We estimate the amount of our portion for such costs, typically for the first major maintenance event for the airframe, engines, landing gear and auxiliary power units, expected to be paid to the lessee based on assumed utilization of the related aircraft by the lessee, the anticipated cost of the maintenance event and the estimated amounts the lessee is responsible to pay. The assumptions supporting these estimates are reevaluated annually.

This estimated lease incentive is not recognized as a lease incentive liability at the inception of the lease. We recognize the lease incentive as a reduction of lease revenue on a straight-line basis over the life of the lease, with the offset being recorded as a lease incentive liability, which is included in maintenance payments on the balance sheet. The payment to the lessee for the lease incentive liability is first recorded against the lease incentive liability, and any excess above the lease incentive liability is recorded as a prepaid lease incentive asset, which is included in other assets on the balance sheet and continues to amortize over the remaining life of the lease.

#### **Flight Equipment Held for Lease and Depreciation**

Flight equipment held for lease is stated at cost and depreciated using the straight-line method, typically over a 25-year life from the date of manufacture for passenger aircraft and over a 30 to 35-year life for freighter aircraft, depending on whether the aircraft is a converted or purpose-built freighter, to estimated residual values. Estimated residual values are generally determined to be approximately 15% of the manufacturer's estimated realized price for passenger aircraft when new and 5% to 10% for freighter aircraft when new. Management may make exceptions to this policy on a case-by-case basis when, in its judgment, the residual value calculated pursuant to this policy does not appear to reflect current expectations of value. Examples of situations where exceptions may arise include but are not limited to:

- flight equipment where estimates of the manufacturers' realized sales prices are not relevant (e.g., freighter conversions);
- flight equipment where estimates of the manufacturers' realized sales prices are not readily available; and
- flight equipment which may have a shorter useful life due to obsolescence.

In accounting for flight equipment held for lease, we make estimates about the expected useful lives, the fair value of attached leases, acquired maintenance assets or liabilities and the estimated residual values. In making these estimates, we rely upon actual industry experience with the same or similar aircraft types and our anticipated utilization of the aircraft. As part of our due diligence review of each aircraft we purchase, we prepare an estimate of the expected maintenance payments and any excess costs which may become payable by us, taking into consideration the then-current maintenance status of the aircraft and the relevant provisions of any existing lease.

For planned major maintenance activities for aircraft off-lease, the Company capitalizes the actual maintenance costs by applying the deferral method. Under the deferral method, we capitalize the actual cost of major maintenance events, which are typically depreciated on a straight-line basis over the period until the next maintenance event is required.

For purchase and lease back transactions, we account for the transaction as a single arrangement. We allocate the consideration paid based on the fair value of the aircraft and lease. The fair value of the lease may include a maintenance premium and a lease premium or discount.

When we acquire an aircraft with a lease, determining the fair value of the attached lease requires us to make assumptions regarding the current fair values of leases for specific aircraft. We estimate a range of current lease rates of like aircraft in order to determine if the attached lease is within a fair value range. If a lease is below or above the range of current lease rates, we present value the estimated amount below or above fair value range over the remaining term of the lease. The resulting lease discount or premium is amortized into lease rental income over the remaining term of the lease.

### **Impairment of Flight Equipment**

We perform an annual recoverability assessment of all aircraft in our fleet, on an aircraft-by-aircraft basis. A recoverability assessment is also performed whenever events or changes in circumstances, or indicators, suggest that the carrying amount or net book value of an asset may not be recoverable. Indicators may include, but are not limited to, a significant lease restructuring or early lease termination, significant change in an aircraft type's storage levels, the introduction of newer technology aircraft or engines, an aircraft type is no longer in production or a significant airworthiness directive is issued. When we perform a recoverability assessment, we measure whether the estimated future undiscounted net cash flows expected to be generated by the aircraft exceed its net book value. The undiscounted cash flows consist of cash flows from currently contracted lease rental and maintenance payments, future projected lease rates and maintenance payments, transition costs, estimated down time, and estimated residual or scrap values for an aircraft. In the event that an aircraft does not meet the recoverability test, the aircraft will be adjusted to fair value, resulting in an impairment charge. See Note 2 in the Notes to Consolidated Financial Statements.

We continue to closely monitor the impact of recent crises, such as the Russian invasion of Ukraine and the COVID-19 pandemic, on our customers, air traffic, lease rental rates, and aircraft valuations, and have performed and will continue to perform additional customer and aircraft specific reviews should changes in facts and circumstances arise that may impact the recoverability of our aircraft. We have focused and will continue to focus on aircraft with near-term lease expirations, customers that have entered judicial insolvency proceedings and any additional customers that may become subject to similar-type proceedings, and certain other customers or aircraft variants that are more susceptible to the impact of the above crises and value deterioration.

### **Net Investment in Direct Financing and Sales-Type Leases**

If a lease meets specific criteria at lease commencement or at the effective date of a lease modification, we recognize the lease as a direct financing or sales-type lease. The net investment in direct financing and sales-type leases consists of the lease receivable, estimated unguaranteed residual value of the leased flight equipment at lease-end and, for direct financing leases, deferred selling profit. For sales-type leases, we recognize the difference between the net book value of the aircraft and the net investment in the lease as a gain or loss on sale of flight equipment. Selling profit on a direct financing lease is deferred and amortized over the lease term, and a selling loss is recognized at lease commencement. Interest income on our net investment in leases is recognized as Direct financing and sales-type lease revenue over the lease term in a manner that produces a constant rate of return on the net investment in the lease.

The net investment in leases is recorded in the consolidated financial statements net of an allowance for credit losses. The allowance for credit losses is recorded upon the initial recognition of the net investment in the lease based on the Company's estimate of expected credit losses over the lease term. The allowance reflects the Company's estimate of lessee default probabilities and loss given default percentages. When determining the credit loss allowance, we consider relevant information about past events, current conditions, and reasonable and supportable forecasts that affect the collectability of the net investment in the lease. The allowance also considers potential losses due to non-credit risk related to unguaranteed residual values. A provision for credit losses is recorded as a component of operating expenses in our Consolidated Statements of Income (Loss) to adjust the allowance for changes to management's estimate of expected credit losses.

## **Fair Value Measurements**

We measure the fair value of certain assets and liabilities on a non-recurring basis, when U.S. GAAP requires the application of fair value, including events or changes in circumstances that indicate that the carrying amounts of assets may not be recoverable. Assets subject to these measurements include our aircraft and investment in unconsolidated joint ventures. We record aircraft at fair value when we determine the carrying value may not be recoverable. Fair value measurements for aircraft in impairment tests are based on the average of the market approach that uses Level 2 inputs, which include third party appraisal data and an income approach that uses Level 3 inputs, which include the Company's assumptions and appraisal data as to future cash proceeds from leasing and selling aircraft discounted using the Company's weighted average cost of capital.

We account for our investments in unconsolidated joint ventures under the equity method of accounting. Investments are reviewed for impairment whenever events or changes in circumstances indicate the fair value is less than its carrying value and the decline is other-than-temporary

## **Income Taxes**

The Company records an income tax provision in accordance with the various tax laws for those jurisdictions within which our transactions occur. Airastle uses an asset and liability based approach in accounting for income taxes. Deferred income tax assets and liabilities are recognized for the future tax consequences attributed to differences between the financial statement and tax basis of existing assets and liabilities using enacted rates applicable to the periods in which the differences are expected to affect taxable income. A valuation allowance is established, when necessary, to reduce deferred tax assets to the amount estimated by us to be realizable. The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained upon examination by the taxing authorities. We did not have any unrecognized tax benefits.

## **RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS**

See Note 1 in the Notes to Consolidated Financial Statements below.

## **RECENTLY PROPOSED ACCOUNTING PRONOUNCEMENTS**

See Note 1 in the Notes to Consolidated Financial Statements below.

## **LIQUIDITY AND CAPITAL RESOURCES**

Our business is very capital intensive, requiring significant investments in order to expand our fleet and to maintain and improve our existing portfolio. Our operations have historically generated a significant amount of cash, primarily from lease rentals and maintenance collections. We have also met our liquidity and capital resource needs by utilizing several sources over time, including:

- various forms of borrowing secured by our aircraft, including term facilities, term financings and limited recourse securitization financings for new aircraft acquisitions;
- unsecured indebtedness, including our current unsecured revolving credit facilities, term loan and senior notes;
- asset sales; and
- sales of common and preference shares.

Going forward, we expect to continue to seek liquidity from these sources and other sources, subject to pricing and conditions we consider satisfactory.

During the year ended February 28, 2023, we met our liquidity and capital resource needs with \$437.7 million of cash flow from operations and \$426.5 million of proceeds from the sale of aircraft and other flight equipment.

As of February 28, 2023, the weighted average maturity of our secured and unsecured debt financings was 2.5 years and we were in compliance with all applicable covenants. We have also determined that as of February 28, 2023, our consolidated subsidiaries' restricted net assets, as defined by Rule 4-08(e)(3) of Regulation S-X, are less than 25% of our consolidated net assets.

While the industry continues to recover from the impact of COVID-19, according to IATA, air travel approximated 85% of pre-pandemic levels as of February 28, 2023, compared to 55% as of February 28, 2022. If air traffic remains depressed over an extended period and if our customers are unable to obtain sufficient funds from private, government or other sources, we may need to provide lease concessions to certain customers in the form of deferrals or broader lease restructurings. We may ultimately be unable to collect some or all amounts that we have deferred or may defer in future periods. As of February 28, 2023, we hold \$61.7 million in security deposits, \$465.6 million in maintenance payments and \$81.4 million in letters of credit from our lessees.

We believe we have sufficient liquidity to meet our contractual obligations over the next twelve months and as of April 3, 2023, total liquidity of \$2.0 billion included \$1.4 billion of undrawn credit facilities, \$0.5 billion of projected adjusted operating cash flows through April 1, 2024, and \$0.1 billion of unrestricted cash. In addition, we believe payments received from lessees and other funds generated from operations, unsecured bond offerings, borrowings secured by our aircraft, borrowings under our revolving credit facilities and other borrowings and proceeds from future aircraft sales will be sufficient to satisfy our liquidity and capital resource needs over the next twelve months. Our liquidity and capital resource needs include payments due under our aircraft purchase obligations, required principal and interest payments under our long-term debt facilities, expected capital expenditures, lessee maintenance payment reimbursements and lease incentive payments.

## Cash Flows

	Year Ended February 28,	
	2023	2022
	(Dollars in thousands)	
Net cash flow provided by operating activities	\$ 437,737	\$ 372,865
Net cash flow used in investing activities	(537,874)	(586,500)
Net cash flow provided by (used in) financing activities	161,316	(196,281)

### Operating Activities:

Cash flow provided by operating activities was \$437.7 million and \$372.9 million for the years ended February 28, 2023 and 2022, respectively. The increase of \$64.9 million was primarily attributable to:

- \$48.9 million of payments received on maintenance and general security letters of credit for our former Russian lessees;
- a \$70.8 million increase in cash related to accounts receivable, other assets and lease rentals received in advance, primarily due to an increase in customer collections, including the repayment of lease deferrals, as global air traffic recovers from the COVID-19 pandemic; and
- a \$20.9 million increase in lease rental revenue related to the timing of payments for cash basis customers and a lower number of customers for which lease rental revenue was recognized using a cash basis of accounting rather than an accrual method for the year ended February 28, 2023.

The year ended February 28, 2022 included an additional \$47.4 million of lease payments related to our former Russian and Russian-affiliated airline customers.

### Investing Activities:

Cash flow used in investing activities was \$537.9 million and \$586.5 million for the years ended February 28, 2023 and 2022, respectively. The decrease of \$48.6 million was primarily attributable to a \$215.7 million increase in proceeds from the sale of flight equipment, partially offset by a \$198.6 million increase in the acquisition and improvement of flight equipment. Aircraft sales deposits and purchase deposits returned, net of aircraft purchase deposits paid and progress payments increased \$28.6 million.

### Financing Activities:

Cash flow provided by financing activities was \$161.3 million for the year ended February 28, 2023 as compared to cash flow used in financing activities of \$196.3 million for the year ended February 28, 2022. The net cash increase of \$357.6 million was primarily attributable to proceeds of \$473.8 million from borrowings under secured and unsecured financings, as well as a \$226.6 million decrease in repayments of secured and unsecured debt financings.

These inflows were partially offset by a \$393.0 million decrease in net proceeds from the issuance of preference shares.

## Debt Obligations

For complete information on our debt obligations, please refer to Note 8 in the Notes to Consolidated Financial Statements below.

## Contractual Obligations

Our contractual obligations consist of principal and interest payments on debt financings, aircraft acquisitions and rent payments pursuant to our office leases. Total contractual obligations were \$6.0 billion at both February 28, 2023 and 2022.

The following table presents our actual contractual obligations and their payment due dates as of February 28, 2023.

Contractual Obligations	Payments Due by Period as of February 28, 2023

(1) Future interest payments on variable rate, SOFR and LIBOR-based debt obligations are estimated using the interest rate in effect at February 28, 2023.

(2) Represents contractual payment obligations for our office leases in Stamford, Connecticut; Dublin, Ireland and Singapore.

(3) At February 28, 2023, we had signed purchase agreements to acquire 20 aircraft for \$763.7 million. These amounts include estimates for pre-delivery deposits, contractual price escalation and other adjustments. As of April 18, 2023, we have commitments to acquire 14 aircraft for \$491.2 million.

## Capital Expenditures

From time to time, we make capital expenditures to maintain or improve our aircraft. These expenditures include the cost of major overhauls necessary to place an aircraft in service and modifications made at the request of lessees. For the years ended February 28, 2023, 2022 and 2021, we incurred a total of \$90.8 million, \$46.6 million and \$26.6 million, respectively, of capital expenditures, including lease incentives, related to the acquisition and improvement of flight equipment.

As of February 28, 2023, the weighted average age (by Net Book Value) of our aircraft was 9.7 years. In general, the costs of operating an aircraft, including maintenance expenditures, increase with the age of the aircraft. Our lease agreements call for the lessee to be primarily responsible for maintaining the aircraft. Maintenance reserves are generally paid by the lessee to provide for future maintenance events. Provided a lessee performs scheduled maintenance of the aircraft, we are required to reimburse the lessee for scheduled maintenance payments. In certain cases, we are also required to make lessor contributions, in excess of amounts a lessee may have paid, towards the costs of maintenance events performed by or on behalf of the lessee. We may incur additional maintenance and modification costs in the future in the event we are required to remarket an aircraft or a lessee fails to meet its maintenance obligations under the lease agreement.

Actual maintenance payments to us by lessees in the future may be less than projected as a result of a number of factors, such as in the event of a lessee default. Maintenance reserves may not cover the entire amount of actual maintenance expenses incurred and, where these expenses are not otherwise covered by the lessees, there can be no assurance that our operational cash flow and maintenance reserves will be sufficient to fund maintenance requirements, particularly as our aircraft age. See Item 1A. “Risk Factors — Risks Related to Our Business — Risks related to our leases — *If lessees are unable to fund their maintenance obligations on our aircraft, we may incur increased costs at the conclusion of the applicable lease.*”

## Off-Balance Sheet Arrangements

We entered into a joint venture arrangement in order to help expand our base of new business opportunities. This joint venture does not qualify for consolidated accounting treatment. The assets and liabilities of this entity are not included in our consolidated balance sheets and we record our net investment under the equity method of accounting. See Note 6 in the Notes to Consolidated Financial Statements.

We hold a 25% equity interest in our joint venture with Mizuho Leasing and as of February 28, 2023, the net book value of its 9 aircraft was \$285.2 million.

## Foreign Currency Risk and Foreign Operations

At February 28, 2023, more than 99% of our leases are payable to us in U.S. dollars. However, we incur Euro- and Singapore dollar-denominated expenses in connection with our subsidiaries in Ireland and Singapore. For the year ended February 28, 2023, expenses, such as payroll and office costs, denominated in currencies other than the U.S. dollar totaled \$20.2 million in U.S. dollar equivalents and represented approximately 26% of total selling, general and administrative expenses.

Our international operations are a significant component of our business strategy and permit us to more effectively source new aircraft, service the aircraft we own and maintain contact with our lessees. Therefore, it is likely that our international operations and our exposure to foreign currency risk will increase over time. Although we have not yet entered into foreign currency hedges because our exposure to date has not been significant, if our foreign currency exposure increases we may enter into hedging transactions in the future to mitigate this risk. For the years ended February 28, 2023, 2022 and 2021, we incurred insignificant net gains and losses on foreign currency transactions.

## Management’s Use of EBITDA and Adjusted EBITDA

We define EBITDA as income (loss) from continuing operations before income taxes, interest expense, and depreciation and amortization. We use EBITDA to assess our consolidated financial and operating performance, and we believe this non-U.S. GAAP measure is helpful in identifying trends in our performance.

This measure provides an assessment of controllable expenses and affords management the ability to make decisions which are expected to facilitate meeting current financial goals, as well as achieving optimal financial performance. It provides an indicator for management to determine if adjustments to current spending decisions are needed.

EBITDA provides us with a measure of operating performance because it assists us in comparing our operating performance on a consistent basis as it removes the impact of our capital structure (primarily interest charges on our outstanding debt) and asset base (primarily depreciation and amortization) from our operating results. Accordingly, this metric measures our financial performance based on operational factors that management can impact in the short-term, namely the cost structure, or expenses, of the organization. EBITDA is one of the metrics used by senior management and the Board of Directors to review the consolidated financial performance of our business.

We define Adjusted EBITDA as EBITDA (as defined above) further adjusted to give effect to adjustments required in calculating covenant ratios and compliance as that term is defined in the indenture governing our senior unsecured notes. Adjusted EBITDA is a material component of these covenants.

The table below shows the reconciliation of net income (loss) to EBITDA for the years ended February 28, 2023, 2022 and 2021, respectively.

	Year Ended February 28,

#### Limitations of EBITDA and Adjusted EBITDA

An investor or potential investor may find EBITDA and Adjusted EBITDA important measures in evaluating our performance, results of operations and financial position. We use these non-U.S. GAAP measures to supplement our U.S. GAAP results in order to provide a more complete understanding of the factors and trends affecting our business.

EBITDA and Adjusted EBITDA have limitations as analytical tools and should not be viewed in isolation or as substitutes for U.S. GAAP measures of income (loss). Material limitations in making the adjustments to our income (loss) to calculate EBITDA and Adjusted EBITDA, and using these non-U.S. GAAP measures as compared to U.S. GAAP net income (loss), income (loss) from continuing operations and cash flows provided by or used in operations, include:

- depreciation and amortization, though not directly affecting our current cash position, represent the wear and tear and/or reduction in value of our aircraft, which affects the aircraft's availability for use and may be indicative of future needs for capital expenditures;

- the cash portion of income tax provision (benefit) generally represents charges (gains), which may significantly affect our financial results; and
- adjustments required in calculating covenant ratios and compliance as that term is defined in the indenture governing our senior unsecured notes which may not be comparable to similarly titled measures used by other companies.

EBITDA and Adjusted EBITDA are not alternatives to net income (loss), income (loss) from operations or cash flows provided by or used in operations as calculated and presented in accordance with U.S. GAAP. You should not rely on these non-U.S. GAAP measures as a substitute for any such U.S. GAAP financial measure. We strongly urge you to review the reconciliations to U.S. GAAP net income (loss), along with our consolidated financial statements included elsewhere in this report. We also strongly urge you to not rely on any single financial measure to evaluate our business. In addition, because EBITDA and Adjusted EBITDA are not measures of financial performance under U.S. GAAP and are susceptible to varying calculations, EBITDA and Adjusted EBITDA as presented in this report, may differ from and may not be comparable to similarly titled measures used by other companies.

#### **ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Interest rate risk is the exposure to loss resulting from changes in the level of interest rates and the spread between different interest rates. These risks are highly sensitive to many factors, including U.S. monetary and tax policies, U.S. and international economic factors and other factors beyond our control. We are exposed to changes in the level of interest rates and to changes in the relationship or spread between interest rates. Our primary interest rate exposures relate to our floating rate debt obligations. Rent payments under our aircraft lease agreements typically do not vary during the term of the lease according to changes in interest rates. However, our borrowing agreements generally require payments based on a variable interest rate index, such as the London Interbank Offered Rate ("LIBOR"), Secured Overnight Funding Rate ("SOFR") or an alternative reference rate. Therefore, to the extent our borrowing costs are not fixed, increases in interest rates may reduce our net income by increasing the cost of our debt without any corresponding increase in rents or cash flow from our securities. Our borrowing agreements may provide a mechanism for determining an alternative rate of interest as entities begin to transition away from LIBOR due to reference rate reform. There is no assurance that any such alternative, successor or replacement reference rate will be similar to, or produce the same value or economic equivalence of, LIBOR.

##### **Sensitivity Analysis**

The following discussion about the potential effects of changes in interest rates is based on a sensitivity analysis, which models the effects of hypothetical interest rate shifts on our financial condition and results of operations. Although we believe a sensitivity analysis provides the most meaningful analysis permitted by the rules and regulations of the SEC, it is constrained by several factors, including the necessity to conduct the analysis based on a single point in time and by the inability to include the extraordinarily complex market reactions that normally would arise from the market shifts modeled. Although the following results of a sensitivity analysis for changes in interest rates may have some limited use as a benchmark, they should not be viewed as a forecast. This forward-looking disclosure also is selective in nature and addresses only the potential interest expense impacts on our financial instruments. It also does not include a variety of other potential factors that could affect our business as a result of changes in interest rates.

As of February 28, 2023, a hypothetical 100-basis point increase/decrease in our variable interest rate on our borrowings would result in an interest expense increase/decrease of \$3.7 million and \$3.7 million, respectively, over the next twelve months.

#### **ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA**

Our consolidated financial statements and notes thereto, referred to in Item 15(A)(1) of this Annual Report, are filed as part of this Annual Report and appear in this Annual Report beginning on page F-1.

#### **ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

## **ITEM 9A. CONTROLS AND PROCEDURES**

### **Management's Evaluation of Disclosure Controls and Procedures**

The term “disclosure controls and procedures” is defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the “Exchange Act”). This term refers to the controls and procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”) as appropriate, to allow timely decisions regarding required disclosure. An evaluation was performed under the supervision and with the participation of the Company's management, including the CEO and CFO, of the effectiveness of the Company's disclosure controls and procedures as of February 28, 2023. Based on that evaluation, the Company's management, including the CEO and CFO, concluded that the Company's disclosure controls and procedures were effective as of February 28, 2023.

### **Management's Annual Report on Internal Control over Financial Reporting**

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f) and 15d-15(f). The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or because the degree of compliance with policies or procedures may deteriorate.

Under the supervision and with the participation of our management, including our CEO and CFO, we conducted an assessment of the effectiveness of our internal control over financial reporting as of February 28, 2023. The assessment was based on criteria established in the Internal Control — Integrated Framework (2013), issued by the Committee of Sponsoring Organizations (“COSO”) of the Treadway Commission. Based on this assessment, management concluded that our internal control over financial reporting was effective as of February 28, 2023.

### **Changes in Internal Control over Financial Reporting**

There were no changes in the Company's internal control over financial reporting that occurred during the quarter ended February 28, 2023, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## **ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS**

## ITEM 11. EXECUTIVE COMPENSATION

### EXECUTIVE COMPENSATION

#### Compensation Discussion and Analysis

Our 2022 fiscal year began on March 1, 2022 and ended on February 28, 2023. All references herein to a year shall mean our fiscal year unless otherwise noted.

This Compensation Discussion and Analysis describes and analyzes our executive compensation philosophy and programs. This Compensation Discussion and Analysis focuses on the compensation paid for our 2022 fiscal year to our Chief Executive Officer, Chief Financial Officer (including our former Chief Financial Officer) and three other most highly compensated executive officers, together referred to as our named executive officers (“NEOs”). For 2022, our NEOs were:

Named Executive Officer	Title
Michael J. Inglese	Chief Executive Officer
Roy Chandran	Chief Financial Officer
Douglas C. Winter	Chief Commercial Officer
Christopher L. Beers	Chief Legal Officer & Secretary
Joseph Schreiner	Former Chief Technical Officer
Aaron Dahlke	Former Chief Financial Officer

Aaron A. Dahlke, our former Chief Financial Officer, resigned from the Company effective September 20, 2022 to pursue an opportunity outside of the aviation industry. Roy Chandran, the Company’s Chief Strategy Officer, assumed the role as Chief Financial Officer effective September 1, 2022. Joseph Schreiner, our former Chief Technical Officer, retired from the Company effective February 28, 2023.

#### Pay for Performance Philosophy

We believe executive compensation should be tied to Company performance weighted in favor of long-term performance, and our compensation program for 2022 rewarded executives and employees in two areas:

- **Annual Corporate Performance:** Achievement of internal corporate financial metrics focused on: (i) profit before tax; (ii) cash flow; (iii) growth through new investments; and (iv) discrete objectives (as described below); and
- **Individual Performance:** Achievement of individual performance goals set at the beginning of each year.

For 2022, we made an annual incentive compensation award in the form of a cash bonus, the payment of which was based on a mix of corporate performance and individual performance. For more highly compensated employees, including our NEOs, achievement of corporate financial metrics carried a greater weighting relative to individual performance, as illustrated in the table below:

Position	Corporate Performance	Individual Performance
CEO	85%	15%
Other NEOs	80%	20%

**2022 Corporate Financial Metrics.** We based corporate performance targets on the Company’s business plan and established a performance range for each metric. Results below the low end of each range would yield a minimum contribution of 50% to the Company’s incentive compensation pool for that metric. Conversely, performance above target would result in an enhanced contribution to the Company’s incentive compensation pool, up to a 150% contribution at the upper end of the performance range for each metric. For 2022, we established the following targets, performance ranges and relative weightings for the corporate financial metrics:

Metric	2022 Target (in millions)	Performance Range	Weighted Score
Profit before tax <sup>(1)</sup>	\$ 44.0	50%-150%	40%
Cash flow <sup>(2)</sup>	\$ 415.0	50%-150%	20%
Net investments <sup>(3)</sup>	\$ 1,100.0	50%-150%	20%
Discrete objectives <sup>(4)</sup>	\$ —	50%-150%	20%

(1) Profit before tax is Income (loss) from continuing operations before income taxes and earnings of unconsolidated equity method investments, plus earnings of unconsolidated equity method investments.

(2) Cash flow for a period is Cash Flow from Operations plus distributions from our joint venture investment, if any.

(3) New investments measures the total annual amount invested in aviation assets.

(4) Our discrete objectives are a qualitative rating based on our performance in maintaining our investment grade ratings, managing our assets and effectiveness on placements given the market environment.

**Individual Performance Goals and Compensation.** We set individual performance goals for every employee at the beginning of each year and measure each employee's performance against those goals at the end of the year to determine incentive compensation levels. For 2022, we determined incentive pay for each employee by applying the weighted corporate and individual performance metrics. We set individual bonus targets based on an employee's function, role and seniority within the organization, among other factors. For 2022, our annual incentive compensation awards were paid out to our executive officers in the form of cash. For additional retention purposes, we granted long term incentive awards in 2022 as part of our long term incentive award program that was introduced in 2021 – see below for further discussion of our long-term incentive award program.

## Compensation Overview

For 2022, there were three primary elements of total direct compensation: base salary, annual cash bonus, and annual long term incentive award.

**Base Salary.** Base salaries provide fixed compensation and allow us to attract and retain talented management. We set base salaries for our named executive officers and review them periodically by taking into account the current market environment and the responsibilities, experience, value to the Company and demonstrated performance of our NEOs.

**Annual Incentive Compensation.** We grant an incentive compensation award in the form of a cash bonus based on the Company's performance against corporate financial metrics and performance against individual performance goals.

**Long-Term Incentive Plan.** In 2021, we introduced a long term incentive ("LTI") award program, in the form of cash awards, for our executive officers and certain other senior professionals. The LTI awards are intended to enhance management retention by rewarding participants for exceptional performance over a three-year performance period using the internal rate of return with respect to our common shareholders' book equity ("Book Equity IRR") as the measure of long-term performance. Each fiscal year within the three-year performance period constitutes a performance year. Our LTI awards are granted with a target award amount, whereby one-third of the target award relates to each performance year. The annual award earned in respect of a given performance year is adjusted based on the Book Equity IRR achieved for the given performance year. The Book Equity IRR for each performance year is evaluated against a performance range in order to determine the target annual award earned. The LTI awards yield a minimum payout of 50% and a maximum payout of 150% of the target annual award.

For maximum retention, our executive officers' LTI awards cliff vest at the end of the three-year performance period subject to continued employment through such date.

Our LTI awards granted in 2022 and 2021 have the following performance range with results between the minimum and target and the maximum and target being interpolated on a linear basis.

### Annual Performance Range for LTI Awards

2022 LTI Awards	Book Equity (IRR)	2021 LTI Awards	% of Target Annual Award Earned
Equal to or greater than 4%	Equal to or greater than 6%		150%
Greater than 1.5% and less than 4%	Greater than 2.5% and less than 6%		Interpolated

Equal to 0.5% through 1.5%	Equal to 0.5% through 2.5%	100%
Greater than -2.0% and less than 0.5%	Greater than -3.0% and less than 0.5%	Interpolated
Less than or equal to -2.0%	Less than or equal to -3.0%	50%

**Actual Performance for 2022 Performance Year.** The Company's financial performance reflects the aviation industry's emergence from the COVID-19 pandemic, the recovery of global air traffic, and an improvement in our customer's financial condition. Our financial results are partly driven by strong gains on sales, which include the sales of 2 freighter aircraft and 1 wide-body aircraft that we recovered from our former Russian or Russian-affiliated lessees. As a result, the Book Equity IRR for the 2022 performance year was 2.9%. Therefore, the portion of our 2022 and 2021 LTI awards related to the 2022 performance year were earned at 128.1% and 105.8%, respectively. For our executive officers, the 2022 and 2021 LTI awards will vest on February 28, 2025 and February 29, 2024, respectively.

**Other Compensation.** Our NEOs are eligible to receive severance payments and accelerated vesting of restricted cash awards and LTI awards in certain circumstances, as described in greater detail below in the section entitled "Potential Payments upon Termination or Change in Control." Severance and change in control benefits provide transitional assistance for separated employees and are essential to recruiting and retaining talented executives in a competitive market. In addition, our NEOs are also eligible to participate in our employee benefit plans, including medical, dental, life insurance and 401(k) plans. These plans are available to all employees and do not discriminate in favor of our NEOs.

**Recoupment Policy.** In January 2016, we adopted a clawback policy covering certain incentive compensation awarded to our executive officers. The policy requires reimbursement of incentive payments awarded to an executive officer based upon financial results that were subsequently the subject of a restatement due to the Company's material noncompliance with financial reporting requirements. The amount of reimbursement would be to the extent that a lower payment would have been awarded to the executive based on the restated financial results. The policy applies to all incentive compensation awarded or paid to an executive officer in the three years prior to the restatement, even if the executive officer did not engage in conduct which contributed to the restatement. In addition, we may seek to recover any portion of incentive compensation when we determine that an executive officer engaged in a certain misconduct.

**Retirement.** For our executive officers, we have designed a qualifying retirement feature that will allow the LTI awards to continue to vest following retirement, subject to satisfaction of the Book Equity IRR performance objectives. For purposes of the LTI awards, a qualifying retirement means: (a) a retirement date no earlier than March 27, 2024; (b) the executive provides at least twelve months' notice; (c) the executive is at least 55 years old on the date of retirement and (d) such individual is not an executive officer (or serving in any other senior commercial role) with certain competitors prior to the vesting date.

**Summary.** The primary goals of our compensation programs are to attract, motivate and retain the most talented and dedicated employees and to align incentive compensation.

## 2022 Compensation

**Performance versus Corporate Financial Metrics.** For 2022, the Company's performance against its corporate financial metrics resulted in an incentive compensation pool equal to 118% of the total target, as shown in the table below. Certain financial metrics, such as profit before tax and cash flow, were impacted by the effects of the aviation industry's emergency from the COVID-19 pandemic, the recovery of global air traffic, and an improvement in our customer's financial condition.

Metric	2022 Target (in millions)	Weighting	2022 Performance (in millions)	Performance Range	Performance	Weighted Score
Profit before tax	\$ 44.0	40%	\$ 88.2	50% - 150%	150%	60 %
Cash flow	\$ 415.0	20%	\$ 437.7	50% - 150%	118%	24 %
New investments (in millions)	\$ 1,100.0	20%	\$ 914.2	50% - 150%	83%	16 %
Discrete objectives	—	20%	—	50% - 150%	90%	18 %
<b>Total</b>						<b>118 %</b>

The Compensation Committee took the following actions related to fiscal year 2022 annual incentive compensation for our NEOs, which was determined solely based on corporate and individual performance levels.

Named Executive Officer	2022 Incentive Compensation
Michael J. Inglese	\$872,160 cash
Roy Chandran	\$607,026 cash
Douglas C. Winter	\$664,838 cash
Christopher L. Beers	\$664,838 cash
Joseph Schreiner	\$429,840 cash

#### How We Make Decisions

*Risk.* The Compensation Committee reviews the risks and rewards associated with the Company’s compensation programs. We believe that our compensation programs encourage prudent business judgment and appropriate risk-taking, with the overall goal of building sustainable and profitable growth.

We believe none of our compensation programs create risks that are reasonably likely to have a material adverse impact on the Company.

*Role of Executive Officers.* For 2022, the Committee set the corporate financial metrics at the beginning of the year based on the annual business plan endorsed by the Board. We set performance goals for the Chief Executive Officer, who in turn established individual performance goals for the other NEOs. Regularly during the year, the senior management team presented to us the Company’s actual performance against the corporate performance metrics. We shared these discussions with the full Board on a regular basis.

#### COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Board is currently comprised of three Directors and operates pursuant to a written charter, which is available at <http://www.aircastle.com> under “Investors—Governance Documents.”

The Compensation Committee is primarily responsible for reviewing, approving and overseeing the Company’s compensation plans and practices and works with management to establish the Company’s executive compensation philosophy and programs.

The Compensation Committee has reviewed and discussed the foregoing Compensation Discussion and Analysis with management and based on that review and discussion, has recommended to the Board that it be included in this Form 10-K.

Respectfully submitted,  
The Compensation Committee

## **Report of Independent Registered Public Accounting Firm**

To the Shareholders and the Board of Directors of Aircastle Limited and Subsidiaries

### **Opinion on the Financial Statements**

We have audited the accompanying consolidated balance sheets of Aircastle Limited and Subsidiaries (the Company) as of February 28, 2023 and 2022, the related consolidated statements of income (loss), comprehensive income (loss), shareholders' equity and cash flows for the years then ended and the year ended February 28, 2021, and the related notes (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at February 28, 2023 and 2022, and the results of its operations and its cash flows for the years then ended and the year ended February 28, 2021, in conformity with U.S. generally accepted accounting principles.

### **Basis for Opinion**

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB and in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

### **Critical Audit Matters**

The critical audit matters communicated below are matters arising from the current period audit of the financial statements that were communicated or required to be communicated to the audit committee and that: (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

### ***Recoverability assessment and Impairment of flight equipment held for lease***

#### ***Description of the Matter***

As more fully described in Note 1 to the consolidated financial statements, flight equipment held for lease is assessed for recoverability by management on an aircraft-by-aircraft basis annually and whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. As a result of the assessments during the year ended February 28, 2023, the Company recorded impairment charges of \$86 million related to the flight equipment held for lease.

Auditing the Company's assessment of recoverability of flight equipment held for lease was complex and highly judgmental due to the higher estimation required in determining the future cash flows to evaluate whether such cash flows were less than the carrying amount of flight equipment. Further, auditing this analysis also involved evaluating the assumptions utilized in estimating the fair values to calculate the impairment charges. In particular, the future cash flows were sensitive to changes related to significant assumptions such as the estimation of the future projected lease rates, future maintenance cash flows, scenario probabilities, as well as the value of aircraft adjusted for maintenance condition at the end of the useful life.

#### ***How We Addressed the Matter in Our Audit***

We obtained an understanding, evaluated the design, and tested the operating effectiveness of controls over the Company's processes to determine whether the book value of each aircraft is recoverable and measure the impairment charge, where applicable. This included controls over management's review of the significant assumptions described above, which are included in the Company's recoverability analysis.

To test the estimated future cash flows attributable to the flight equipment held for lease, we performed audit procedures on a sample of transactions that included, among others, evaluating and testing the significant assumptions discussed above and the underlying data used by the Company in its analysis. Our testing of the Company's significant assumptions included, among others, comparing data to currently contracted lease rental and maintenance cash flows, evaluating future projected lease rates to third party data, evaluating the timing and cost of estimated future maintenance cash flows to manufacturers' specifications and/or historical data, recalculating end of life value of aircraft based on projected maintenance condition at the end of its useful life and comparing it to published third party and/or historical sales data, and evaluating scenario probabilities based on market conditions and publications. In addition, for the assumptions that most significantly impact recoverability we performed a sensitivity analysis to evaluate the changes to the future cash flows from changes in the significant assumptions. We also involved our valuation specialists to assist in evaluating the reasonableness of the fair value of certain assets used in the calculation of the impairment charges recorded. We considered current industry and economic trends and changes to the business. We assessed the historical accuracy of certain assumptions by performing a look back analysis.

### ***Accounting for Income Tax***

#### ***Description of the Matter***

The Company is incorporated in Bermuda and leases its aircraft within over 40 countries. The Company's income is subject to U.S. federal, state and local income taxes, as well as foreign income tax in many of the jurisdictions it leases aircraft. As more fully described in Note 11 to the consolidated financial statements, the Company recognized a consolidated provision for income taxes of \$25 million for the year ended February 28, 2023.

Auditing the Company's income tax accounting was complex due to the complicated international tax structure maintained by the Company. Specifically, the auditing of the application of changes in tax law and transactions to transfer, buy or sell aircraft in foreign jurisdictions required increased auditor effort, including the use of tax professionals with specialized skills, to evaluate the Company's application of the tax laws in relevant jurisdictions and the related income tax.

#### ***How We Addressed the Matter in Our Audit***

We obtained an understanding, evaluated the design and tested the operating effectiveness of controls over the Company's process to prepare the consolidated income tax provision. Our procedures also included, among others, an evaluation of management's review and consideration of the international tax structure, identification of changes to tax laws in the various jurisdictions in which it operates and its treatment of the transactions to transfer, buy and sell aircraft.

To test the income tax related accounts, we performed audit procedures that included, among others, understanding the Company's tax structure as it relates to current leases through review of its organization chart and various lease documents. We evaluated the Company's treatment of tax law changes, if any, in the foreign jurisdictions it operates to current tax laws. We also obtained, and assessed the completeness of, a list of transactions to transfer, purchase and sell aircraft during the period and evaluated the tax treatment of a sample of transactions through review of the lease documents and our assessment of the tax law. Our audit procedures were performed with the assistance of our tax professionals with specialized skills and knowledge.

We have served as the Company's auditor since 2004.

## **Note 1. Summary of Significant Accounting Policies**

### **Organization**

Aircastle Limited (“Aircastle,” the “Company,” “we,” “us” or “our”) is a Bermuda exempted company that was incorporated on October 29, 2004 under the provisions of Section 14 of the Companies Act of 1981 of Bermuda. Aircastle’s business is acquiring, leasing, managing and selling commercial jet aircraft.

The Company is controlled by affiliates of Marubeni Corporation (“Marubeni”) and Mizuho Leasing Company, Limited (“Mizuho Leasing”).

Aircastle is a holding company and conducts its business through subsidiaries that are wholly-owned, either directly or indirectly, by Aircastle.

### **Basis of Presentation and Principles of Consolidation**

The consolidated financial statements presented are prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) and include the accounts of Aircastle and all its subsidiaries, including any variable interest entity of which Aircastle is the primary beneficiary. All intercompany transactions and balances have been eliminated in consolidation.

We manage and analyze our business and report on operations based on one operating segment: leasing, financing, selling and managing commercial flight equipment. Our Chief Executive Officer is the chief operating decision maker.

The Company’s management has reviewed and evaluated all events or transactions for potential recognition and/or disclosure subsequent to the balance sheet date of February 28, 2023 through the date on which the consolidated financial statements included in this Annual Report were issued.

### **Risk and Uncertainties**

In the normal course of business, Aircastle encounters several significant types of economic risk including credit, market, aviation industry and capital market risks. Credit risk is the risk of a lessee’s inability or unwillingness to make contractually required payments and to fulfill its other contractual obligations to Aircastle. Market risk reflects the change in the value of financings due to changes in interest rate spreads or other market factors, including the value of collateral underlying financings. Aviation industry risk is the risk of a downturn in the commercial aviation industry which could adversely impact a lessee’s ability to make payments, increase the risk of early lease terminations and depress lease rates and the value of the Company’s aircraft. Capital market risk is the risk that the Company is unable to obtain capital at reasonable rates to fund the growth of its business or to refinance existing debt facilities.

### **Use of Estimates**

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. While Aircastle believes the estimates and related assumptions used in the preparation of the consolidated financial statements are appropriate, actual results could differ from those estimates.

### **Cash and Cash Equivalents**

Aircastle considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents.

Virtually all our cash and cash equivalents are held or managed by five major financial institutions.

### **Flight Equipment Held for Lease and Depreciation**

Flight equipment held for lease is stated at cost and depreciated using the straight-line method, typically over a 25-year life from the date of manufacture for passenger aircraft and over a 30 to 35-year life for freighter aircraft, depending on whether the aircraft is a converted or purpose-built freighter, to estimated residual values. Estimated residual values are generally determined to be 15% of the manufacturer's estimated realized price for passenger aircraft when new and 5% to 10% for freighter aircraft when new. Management may make exceptions to this policy on a case-by-case basis when, in its judgment, the residual value calculated pursuant to this policy does not appear to reflect current expectations of value. Examples of situations where exceptions may arise include but are not limited to:

- flight equipment where estimates of the manufacturer's realized sales prices are not relevant (e.g., freighter conversions);
- flight equipment where estimates of the manufacturer's realized sales prices are not readily available; and
- flight equipment which may have a shorter useful life due to obsolescence.

Major improvements and modifications incurred in connection with the acquisition of aircraft that are required to get the aircraft ready for initial service are capitalized and depreciated over the remaining life of the flight equipment.

For planned major maintenance activities for aircraft off-lease, the Company capitalizes the actual maintenance costs by applying the deferral method. Under the deferral method, we capitalize the actual cost of major maintenance events, which are typically depreciated on a straight-line basis over the period until the next maintenance event is required.

In accounting for flight equipment held for lease, we make estimates about the expected useful lives, the fair value of attached leases, acquired maintenance assets or liabilities and the estimated residual values. In making these estimates, we rely upon actual industry experience with the same or similar aircraft types and our anticipated lessee's utilization of the aircraft.

For purchase and lease back transactions, we account for the transaction as a single arrangement. We allocate the consideration paid based on the fair value of the aircraft and lease. The fair value of the lease may include a maintenance premium and a lease premium or discount.

When we acquire an aircraft with a lease, determining the fair value of attached leases requires us to make assumptions regarding the current fair values of leases for specific aircraft. We estimate a range of current lease rates of like aircraft in order to determine if the attached lease is within a fair value range. If a lease is below or above the range of current lease rates, we present value the estimated amount below or above the fair value range over the remaining term of the lease. The resulting lease discount or premium is amortized into lease rental income over the remaining term of the lease.

### **Impairment of Flight Equipment**

We perform an annual recoverability assessment of all aircraft in our fleet, on an aircraft-by-aircraft basis. A recoverability assessment is also performed whenever events or changes in circumstances, or indicators, suggest that the carrying amount or net book value of an asset may not be recoverable. Indicators may include, but are not limited to, a significant lease restructuring or early lease termination, significant change in an aircraft type's storage levels, the introduction of newer technology aircraft or engines, an aircraft type is no longer in production or a significant airworthiness directive is issued. When we perform a recoverability assessment, we measure whether the estimated future undiscounted net cash flows expected to be generated by the aircraft exceed its net book value. The undiscounted cash flows consist of cash flows from currently contracted lease rental and maintenance payments, future projected lease rates and maintenance payments, transition costs, estimated down time, and estimated residual or scrap values for an aircraft. In the event that an aircraft does not meet the recoverability test, the aircraft will be adjusted to fair value, resulting in an impairment charge. See Note 2 in the Notes to Consolidated Financial Statements.

Management develops the assumptions used in the recoverability analysis based on current and future expectations of the global demand for a particular aircraft type and historical experience in the aircraft leasing market and aviation

**Aircastle Limited and Subsidiaries**

*(Dollars in thousands, except per share amounts)*

industry, as well as information received from third party industry sources. The factors considered in estimating the undiscounted cash flows are impacted by changes in future periods due to changes in projected lease rental and maintenance payments, residual values, economic conditions, technology, airline demand for a particular aircraft type and other factors, such as the location of the aircraft and accessibility to records and technical documentation.

We continue to closely monitor the impact of recent crises, such as the Russian invasion of Ukraine and the COVID-19 pandemic, on our customers, air traffic, lease rental rates, and aircraft valuations, and have performed and will continue to perform additional customer and aircraft specific reviews should changes in facts and circumstances arise that may impact the recoverability of our aircraft. We have focused and will continue to focus on aircraft with near-term lease expirations, customers that have entered judicial insolvency proceedings and any additional customers that may become subject to similar-type proceedings, and certain other customers or aircraft variants that are more susceptible to the impact of the above crises and value deterioration.

**Net Investment in Direct Financing and Sales-Type Leases**

If a lease meets specific criteria at lease commencement or at the effective date of a lease modification, we recognize the lease as a direct financing or sales-type lease. The net investment in direct financing and sales-type leases consists of the lease receivable, estimated unguaranteed residual value of the leased flight equipment at lease-end and, for direct financing leases, deferred selling profit. For sales-type leases, we recognize the difference between the net book value of the aircraft and the net investment in the lease as a gain or loss on sale of flight equipment. Selling profit on a direct financing lease is deferred and amortized over the lease term, and a selling loss is recognized at lease commencement. Interest income on our net investment in leases is recognized as Direct financing and sales-type leases revenue over the lease term in a manner that produces a constant rate of return on the net investment in the lease.

The net investment in leases is recorded net of an allowance for credit losses. The allowance for credit losses is recorded upon the initial recognition of the net investment in the lease based on the Company's estimate of expected credit losses over the lease term. The allowance reflects the Company's estimate of lessee default probabilities and loss given default percentages. When determining the credit loss allowance, we consider relevant information about past events, current conditions, and reasonable and supportable forecasts that affect the collectability of the net investment in the lease. The allowance also considers potential losses due to non-credit risk related to unguaranteed residual values. A provision for credit losses is recorded as a component of operating expenses to adjust the allowance for changes to management's estimate of expected credit losses.

**Unconsolidated Equity Method Investment**

Aircastle accounts for its interest in an unconsolidated joint venture using the equity method as we do not control the joint venture entity. Under the equity method, the investment is initially recorded at cost and the carrying amount is affected by its share of the unconsolidated joint venture's undistributed earnings and losses and distributions of dividends and capital. The investment may also reflect an equity loss in the event that circumstances indicate an other-than-temporary impairment.

**Security Deposits**

Most of our operating leases require the lessee to pay Aircastle a security deposit or provide a letter of credit. Security deposits represent cash received from the lessee that is held on deposit until lease expiration or termination. If a lease is terminated, we recognize security deposits in excess of outstanding lease payments as other revenue.

**Maintenance Payments**

Typically, under an operating lease, the lessee is responsible for performing all maintenance but they may also be required to make payments to us for heavy maintenance, overhaul or replacement of certain high-value components of the aircraft. These maintenance payments are based on hours or cycles of utilization or on calendar time, depending upon the component, and are required to be made monthly in arrears or at the end of the lease term. Whether to permit a lessee to make maintenance payments at the end of the lease term, rather than requiring such payments to be made monthly, depends on a variety of factors, including the creditworthiness of the lessee, the level of security deposit which may be

**Aircastle Limited and Subsidiaries**  
**Notes to Consolidated Financial Statements**  
*(Dollars in thousands, except per share amounts)*

provided by the lessee and market conditions at the time we enter into the lease. If a lease requires monthly maintenance payments, we would typically be obligated to reimburse the lessee for costs they incur for heavy maintenance, overhaul or replacement of certain high-value components to the extent of maintenance payments received in respect of the specific maintenance event, usually shortly following completion of the relevant work. If a lease requires end of lease term maintenance payments, typically the lessee would be required to pay us for its utilization of the aircraft during the lease; however, in some cases, we may owe a net payment to the lessee in the event heavy maintenance is performed and paid for by the lessee during the lease term and the aircraft is returned to us in better condition than at lease inception.

We record monthly maintenance payments by the lessee as accrued maintenance payments liabilities in recognition of our contractual commitment to refund such receipts. In these contracts, we typically do not recognize such maintenance payments as maintenance revenue during the lease. Reimbursements to the lessee upon the receipt of evidence of qualifying maintenance work are charged against the existing accrued maintenance payments liability. We currently defer maintenance revenue recognition of most monthly maintenance payments until we are able to determine the amount, if any, by which the monthly maintenance payments received from a lessee exceed costs to be incurred by that lessee in performing heavy maintenance, which generally occurs at or near the end of the lease. End of lease term maintenance payments made to us are recognized as maintenance revenue, and end of lease term maintenance payments we make to a lessee are recorded as contra maintenance revenue.

#### **Lease Incentives and Amortization**

Many of our leases contain provisions that may require us to pay a portion of the lessee's costs for heavy maintenance, overhaul or replacement of certain high-value components. We account for these expected payments as lease incentives, which are amortized as a reduction of revenue over the life of the lease. We estimate the amount of our portion for such costs, typically for the first major maintenance event for the airframe, engines, landing gear and auxiliary power units, expected to be paid to the lessee based on assumed utilization of the related aircraft by the lessee, the anticipated amount of the maintenance event cost and the estimated amounts the lessee is responsible to pay. The assumptions supporting these estimates are reevaluated annually.

This estimated lease incentive is not recognized as a lease incentive liability at the inception of the lease. We recognize the lease incentive as a reduction of lease revenue on a straight-line basis over the life of the lease, with the offset being recorded as a lease incentive liability which is included in maintenance payments on the balance sheet. The payment to the lessee for the lease incentive liability is first recorded against the lease incentive liability, and any excess above the lease incentive liability is recorded as a prepaid lease incentive asset, which is included in other assets on the balance sheet and continues to amortize over the remaining life of the lease.

Lease acquisition costs related to reconfiguration of the aircraft cabin, other lessee specific modifications and other direct costs are capitalized and amortized into revenue over the initial life of the lease, assuming no lease renewals, and are included in other assets.

#### **Income Taxes**

Aircastle uses an asset and liability based approach in accounting for income taxes. Deferred income tax assets and liabilities are recognized for the future tax consequences attributed to differences between the financial statement and tax basis of existing assets and liabilities using enacted rates applicable to the periods in which the differences are expected to affect taxable income. A valuation allowance is established, when necessary, to reduce deferred tax assets to the amount estimated by us to be realizable. The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities. We did not have any unrecognized tax benefits.

#### **Fair Value Measurements**

Fair value is defined as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. We measure the fair value of our cash and cash equivalents and our investments in debt and equity securities on a recurring basis and measure the fair value of our

**Aircastle Limited and Subsidiaries**  
**Notes to Consolidated Financial Statements**  
*(Dollars in thousands, except per share amounts)*

investment in unconsolidated joint venture and aircraft on a non-recurring basis. See Note 3 in the Notes to Consolidated Financial Statements.

#### **Lease Revenue Recognition**

We lease flight equipment under net operating leases with lease terms typically ranging from three to seven years. We generally do not offer renewal terms or purchase options in our leases, although certain of our operating leases allow the lessee the option to extend the lease for an additional term. Operating leases with fixed rentals and step rentals are recognized on a straight-line basis over the term of the initial lease, assuming no renewals.

In certain instances, we may provide lease concessions to customers, generally in the form of lease rental deferrals. While these deferral arrangements affect the timing of lease rental payments, the total amount of lease rental payments required over the lease term is generally the same as that which was required under the original lease agreement. We account for the deferrals as if no modifications to the lease agreements were made and record the deferred rentals as a receivable within other assets.

Should we determine that the collectability of rental payments is no longer probable, including any deferral thereof, we will recognize lease rental revenue using a cash basis of accounting rather than an accrual method. In the period we conclude that collection of lease payments is no longer probable, we recognize any difference between revenue amounts recognized to date under the accrual method and payments that have been collected from the lessee, including security deposit amounts held, as a current period adjustment to lease rental revenue.

#### **Comprehensive Income (Loss)**

Comprehensive income (loss) consists of net income and other gains and losses, net of income taxes, if any, affecting shareholders' equity that, under U.S. GAAP, are excluded from net income (loss).

#### **Deferred Financing Costs**

Deferred financing costs, which are included in borrowings from secured and unsecured financings, net of debt issuance costs, in the Consolidated Balance Sheets, are amortized using the interest method for amortizing loans over the lives of the relevant related debt.

#### **Recent Accounting Pronouncements**

In December 2022, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") 2022-06 to defer the sunset date of Reference Rate Reform Topic 848 ("ASC 848"). U.S. GAAP requires entities to evaluate whether a contract modification, such as the replacement or change of a reference rate, results in the establishment of a new contract or continuation of an existing contract. ASC 848 allows an entity to elect not to apply certain modification accounting requirements to contracts affected by reference rate reform as entities transition away from the LIBOR to alternative reference rates. The standard provides this temporary election through December 31, 2024, and cannot be applied to contract modifications that occur after December 31, 2024. Reference rate reform will primarily impact our lease and debt arrangements for which floating-rate lease rentals and interest expense are based on LIBOR. As of February 28, 2023, we have only 1 aircraft in our fleet that has a floating-rate lease rental and for the year ended February 28, 2023, 7% of our interest expense was derived from floating-rate debt which is referenced to LIBOR. We have not adopted ASC 848 and are evaluating the election available to us under the standard.

#### **Note 2. Fair Value Measurements**

Fair value measurements and disclosures require the use of valuation techniques to measure fair value that maximize the use of observable inputs and minimize use of unobservable inputs. These inputs are prioritized as follows:

- Level 1: Observable inputs such as quoted prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities or market corroborated inputs.

**Aircastle Limited and Subsidiaries**  
**Notes to Consolidated Financial Statements**  
*(Dollars in thousands, except per share amounts)*

- Level 3: Unobservable inputs for which there is little or no market data and which require us to develop our own assumptions about how market participants price the asset or liability.

The valuation techniques that may be used to measure fair value are as follows:

- The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.
- The income approach uses valuation techniques to convert future amounts to a single present amount based on current market expectation about those future amounts.
- The cost approach is based on the amount that currently would be required to replace the service capacity of an asset (replacement cost).

The following tables set forth our financial assets as of February 28, 2023 and 2022, that we measured at fair value on a recurring basis by level within the fair value hierarchy. Assets measured at fair value are classified in their entirety based on the lowest level of input that is significant to their fair value measurement.

	Fair Value as of February 28, 2023	Fair Value Measurements at February 28, 2023 Using Fair Value Hierarchy			
		Level 1	Level 2	Level 3	Valuation Technique
<b>Assets:</b>					
Cash and cash equivalents	\$ 231,861	\$ 231,861	\$ —	\$ —	Market

Investment in equity securities	5,790	2,346	—	3,444	Market/Income
Total	\$ 242,680	\$ 234,207	\$ —	\$ 8,473	

	Fair Value as of February 28, 2022	Fair Value Measurements at February 28, 2022 Using Fair Value Hierarchy			
		Level 1	Level 2	Level 3	Valuation Technique
<b>Assets:</b>					
Cash and cash equivalents	\$ 167,891	\$ 167,891	\$ —	\$ —	Market
Restricted cash and cash equivalents	2,791	2,791	—	—	Market
Total	\$ 170,682	\$ 170,682	\$ —	\$ —	

Our cash and cash equivalents consist largely of money market securities that are highly liquid and easily tradable. These securities are valued using inputs observable in active markets for identical securities (Level 1). During the year ended February 28, 2023, the Company received debt securities in the form of notes and equity securities as result of claims settlements from various airline customers that had entered into bankruptcy proceedings or similar-type restructurings. Our investment in equity securities that are traded in an active market have been valued using quoted market prices (Level 1). Our investments in other equity securities and debt securities for which there is no active market or there is limited market data have been valued using the income approach (Level 3).

For the years ended February 28, 2023 and 2022, we had no transfers into or out of Level 3.

We measure the fair value of certain assets and liabilities on a non-recurring basis, when U.S. GAAP requires the application of fair value, including events or changes in circumstances that indicate the carrying amounts of these assets may not be recoverable. Assets subject to these measurements include our aircraft and investment in unconsolidated joint venture. We record aircraft at fair value when we determine the carrying value may not be recoverable. Fair value measurements for aircraft in impairment tests are based on the average of the market approach (Level 2), which includes third party appraisal data, and an income approach (Level 3), which includes the Company's assumptions and appraisal data as to future cash proceeds from leasing and selling aircraft discounted using the Company's weighted average cost of capital. See "Aircraft Valuation" below for further information.

**Aircastle Limited and Subsidiaries**  
**Notes to Consolidated Financial Statements**  
*(Dollars in thousands, except per share amounts)*

We account for our investment in unconsolidated joint venture under the equity method of accounting. Our investment is recorded at cost and is adjusted by undistributed earnings and losses and the distributions of dividends and capital. This investment is reviewed for impairment whenever events or changes in circumstances indicate the fair value is less than its carrying value and the decline is other-than-temporary.

**Financial Instruments**

Our financial instruments, other than cash, consist principally of cash equivalents, accounts receivable, investments in debt and equity securities, accounts payable, and secured and unsecured debt financings. The fair value of cash and cash equivalents, accounts receivable and accounts payable approximates the carrying value of these financial instruments because of their short-term nature.

The fair value of our senior notes is estimated using quoted market prices (Level 1), whereas all our other financings are valued using a discounted cash flow analysis, based on our current incremental borrowing rates for similar types of borrowing arrangements (Level 2).

The carrying amounts and fair values of our financial instruments at February 28, 2023 and 2022, are as follows:

	February 28, 2023		February 28, 2022	
	Carrying Amount of Asset	Fair Value of Asset	Carrying Amount of Asset	Fair Value of Asset

**Aircraft Valuation**

*Impairment of Flight Equipment*

Excluding asset write-offs related to the Russian invasion of Ukraine, during the year ended February 28, 2023, the Company recorded impairment charges totaling \$53.7 million primarily related to the scheduled lease expirations of 3 narrow-body aircraft and lease terminations of 2 narrow-body aircraft, as well as 1 wide-body aircraft resulting from our annual fleet review. The Company recognized \$58.9 million of maintenance and lease rentals received in advance into revenue for these aircraft during the year ended February 28, 2023.

The Company wrote off the remaining book values of 8 narrow-body and 1 freighter aircraft in Russia which have not been returned to us. As a result, the Company recorded impairment charges totaling \$31.9 million during the year ended February 28, 2023 – see Note 3 in the Notes to Consolidated Financial Statements. During the year ended February 28, 2023, the Company recognized \$20.3 million of maintenance and other revenue for these 9 aircraft related to payments received on maintenance and general security letters of credit.

During the year ended February 28, 2022, we recorded impairment charges of \$452.3 million, of which \$449.0 million were transactional impairments, primarily related to 16 narrow-body, 2 wide-body and 2 freighter aircraft. The Company recognized \$147.8 million of maintenance, security deposits and lease rentals received in advance into revenue for these 20 aircraft during the year ended February 28, 2022. The impairment charges, in part, resulted from lease terminations, scheduled lease expirations and lessee defaults. Of the total impairment charges, \$341.3 million related to

13 aircraft that were leased to Russian and Ukrainian lessees, resulting from the Russian invasion of Ukraine and related sanctions placed on Russia. The Company recognized \$89.4 million of maintenance, security deposits and lease rentals received in advance into revenue for these 13 aircraft.

*Annual Recoverability Assessment*

We performed our annual recoverability assessment of all our aircraft during the third quarter of 2022. We recorded an impairment charge of \$6.3 million related to 1 wide-body aircraft during the year ended February 28, 2023, as a result of our annual recoverability assessment – see the discussion above for further detail regarding impairment of our flight equipment.

We continue to closely monitor the impact of recent crises, such as the Russian invasion of Ukraine and the COVID-19 pandemic, on our customers, air traffic, lease rental rates, and aircraft valuations, and have performed and will continue to perform additional customer and aircraft specific reviews should changes in facts and circumstances arise that may impact the recoverability of our aircraft. We have focused and will continue to focus on aircraft with near-term lease expirations, customers that have entered judicial insolvency proceedings and any additional customers that may become subject to similar-type proceedings, and certain other customers or aircraft variants that are more susceptible to the impact of the above crises and value deterioration.

The recoverability assessment is a comparison of the carrying value of each aircraft to its estimated undiscounted future cash flows. We develop the assumptions used in the recoverability analysis based on current and future expectations of the global demand for a particular aircraft type and historical experience in the aircraft leasing market and aviation industry, as well as information received from third-party sources. These factors considered in estimating the undiscounted cash flows are impacted by changes in future periods due to changes in projected lease rental and maintenance payments, residual values, economic conditions and other factors, such as the location of the aircraft and accessibility to records and technical documentation.

If our estimates or assumptions change, including those related to our customers that have entered judicial insolvency proceedings, we may revise our cash flow assumptions and record future impairment charges. While we believe that the estimates and related assumptions used in our recoverability assessments are appropriate, actual results could differ from those estimates.

**Note 3. Flight Equipment Held for Lease, Net**

The following table summarizes the activities for the Company's flight equipment held for lease for the years ended February 28, 2023 and 2022:

*Write-off of Russian Aircraft*

As of February 28, 2023, 9 of our aircraft that were previously leased to Russian airlines remain in Russia. Most of the operators of these aircraft have continued to fly the aircraft notwithstanding the sanctions imposed on Russia and leasing terminations. While we will continue to pursue repossession, it is unlikely we will regain possession of any of these 9 aircraft. As a result, the Company wrote off the remaining book value of these 9 aircraft, resulting in impairment

*(Dollars in thousands, except per share amounts)*

charges totaling \$31.9 million during the year ended February 28, 2023. These 9 aircraft have been removed from the Company's owned fleet count. The Company is vigorously pursuing insurance claims to recover its losses relating to these aircraft and has initiated legal proceedings against its contingent and possessed insurers. The collection, timing and amounts of any insurance recoveries is uncertain.

We also had 1 freighter aircraft outside of Russia that we successfully repossessed during the year ended February 28, 2023. Additionally, in response to further sanctions against Russia in the United Kingdom ("U.K."), the Company terminated the lease of 1 freighter aircraft with a U.K.-based airline and successfully repossessed that aircraft during the year ended February 28, 2023. We recognized \$18.8 million of maintenance and other revenue as a result of this lease termination. We sold these 2 freighter aircraft and 1 wide-body aircraft, which was also leased to a Russian airline, during the year ended February 28, 2023, for gains totaling \$53.5 million.

We received \$48.9 million of maintenance and general security letters of credit for our former Russian lessees during the year ended February 28, 2023, which we have recognized in maintenance and other revenue. We collected the remaining letters of credit totaling \$0.6 million subsequent to February 28, 2023.

**Secured Debt Financings:**

*Term Financings*

On November 21, 2022 (“the “Effective Date”), we entered into a full recourse \$450.0 million secured financing facility (the “2022 Secured Facility”) with a syndicate of banks in relation to 17 owned aircraft. The 2022 Secured Facility bears interest at a floating rate under the Term Secured Overnight Funding Rate (“SOFR”) (as defined in the credit agreement governing the 2022 Secured Facility) plus 2.35% per annum and matures on November 21, 2029. The 2022 Secured Facility contains, among other customary provisions, a \$1.1 billion minimum net worth covenant, a 2.0:1.0 minimum interest coverage ratio covenant, and a 75% maximum loan-to-value ratio, which reduces to 70% through the term of the facility. The credit commitments under the 2022 Secured Facility will be available for borrowings for three to six months following the Effective Date. As of February 28, 2023, \$279.0 million was borrowed under the 2022 Secured Facility in relation to 10 aircraft.

On February 10, 2023, we prepaid in full the \$159.4 million outstanding principal amount of one of our term financings secured by 12 aircraft, including \$1.3 million of accrued interest. We incurred a loss on the early extinguishment of debt totaling \$0.6 million, primarily related to the write off of deferred financing costs.

**Unsecured Debt Financings:**

*5.000% Senior Notes due 2023*

We repaid the \$500.0 million aggregate principal amount of our 5.000% Senior Notes due 2023 at their final stated maturity date in April 2023.

*Revolving Credit Facilities*

On May 24, 2022, we entered into an amendment for one of our unsecured revolving credit facilities that expanded the size and extended the term of the facility. As a result, the existing \$230.0 million commitment was expanded to \$280.0 million, with \$35.0 million and \$245.0 million of the commitment allocated to Tranche B and Tranche C, respectively. Tranche A and Tranche B matured on their respective stated maturity dates of December 27, 2021 and February 28, 2023. Tranche C will mature on May 24, 2025.

On June 27, 2022, a \$100.0 million commitment under one of our unsecured revolving credit facilities, with a total commitment of \$1.0 billion, matured on its stated maturity date. On September 8, 2022, we entered into an amendment that expanded the size of the facility from \$900.0 million to \$1.0 billion and replaced LIBOR with Term SOFR as the benchmark interest rate. The facility bears interest at Adjusted Term SOFR (as defined in the amendment to the credit agreement) plus 1.625% per annum and matures on April 26, 2025.

On July 30, 2022, a \$50.0 million commitment under our revolving credit facility with Mizuho Bank Ltd., a related party, matured on its stated maturity date.

On January 27, 2023, we entered into an amendment that expanded the size of our revolving credit facility with Mizuho Marubeni Leasing America Corporation, a related party, from \$100.0 million to \$200.0 million and extended its maturity date to January 26, 2025. The amendment also replaced LIBOR with Term SOFR as the benchmark interest rate. The facility bears interest at a rate of Adjusted Term SOFR (as defined in the amendment to the credit agreement) plus either 1.72% or 1.97%, depending on the amount drawn, and requires the Company to have a minimum of \$20.0 million revolving credit outstanding throughout the term of the facility. This transaction was approved by our Audit Committee as an arm’s length transaction under our related party policy.

On February 28, 2023, the Company entered into a \$300.0 million unsecured revolving credit facility with Mizuho Bank Ltd., a related party. The facility bears interest at a rate of Adjusted Term SOFR (as defined in the amendment to the credit agreement) plus 2.0%, matures on February 28, 2024 and includes a one-year extension option. This transaction was approved by our Audit Committee as an arm’s length transaction under our related party policy.

As of February 28, 2023, we had \$20.0 million in borrowings outstanding under our revolving credit facilities and had \$1.7 billion available for borrowing.

We do not expect to incur income taxes on future distributions of undistributed earnings of non-U.S. subsidiaries and accordingly, no deferred income taxes have been provided for the distributions of such earnings. As of February 28, 2023, we have elected to permanently reinvest our accumulated undistributed U.S. earnings of \$44.1 million. Accordingly, no U.S. withholding taxes have been provided. Withholding tax of \$2.2 million would be due if such earnings were remitted.

Our aircraft-owning subsidiaries generally earn income from sources outside the United States and typically are not subject to U.S. federal, state or local income taxes. The aircraft owning subsidiaries resident in Ireland and the U.S. are subject to tax in those respective jurisdictions.

We have a U.S.-based subsidiary which provides management services to our subsidiaries and is subject to U.S. federal, state and local income taxes. We also have Ireland and Singapore based subsidiaries which provide management services to our non-U.S. subsidiaries and are subject to tax in those respective jurisdictions.

Differences between statutory income tax rates and our effective income tax rates applied to pre-tax income from continuing operations for the years ended February 28, 2023, 2022 and 2021, consisted of the following:

	Year Ended February 28,

Singapore	27	174	75

Non-deductible expenses in the U.S.	19	16	(1,904)
Other	(968)	71	(4,708)
Provision (benefit) for income taxes	\$ 25,466	\$ (7,998)	\$ 10,236

The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities. We did not have any unrecognized tax benefits.

We conduct business globally and, as a result, the Company and its subsidiaries or branches are subject to foreign, U.S. federal and various state and local income taxes, as well as withholding taxes. In the normal course of business the Company is subject to examination by taxing authorities throughout the world, including such major jurisdictions as Ireland and the United States.

Our policy is that we will recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. We did not accrue interest or penalties associated with any unrecognized tax benefits, nor was any interest expense or penalty recognized during the year.

For purposes of making the computation referred to above, Investments, acquisitions, dispositions, amalgamations, mergers, consolidations and disposed operations (as determined in accordance with GAAP) that have been made by the Borrower or any Subsidiary during the four-quarter reference period or subsequent to such reference period and on or prior to or simultaneously with the FCR Calculation Date shall be calculated on a pro forma basis assuming that all such Investments, acquisitions, dispositions, amalgamations, mergers, consolidations and disposed operations (and the change in any associated fixed charge obligations and the change in EBITDA resulting therefrom) had occurred on the first day of the four-quarter reference period. If since the beginning of such period any Person (that subsequently became a Subsidiary or was amalgamated or merged with or into the Borrower or any Subsidiary since the beginning of such period) shall have made any Investment, acquisition, disposition, amalgamation, merger, consolidation or disposed operation that would have required adjustment pursuant to this definition, then the Fixed Charge Coverage Ratio shall be calculated giving pro forma effect thereto for such period as if such Investment, acquisition, disposition, amalgamation, merger, consolidation or disposed operation had occurred at the beginning of the applicable four-quarter period.

For purposes of this definition, whenever pro forma effect is to be given to a transaction, the pro forma calculations shall be made in good faith by a responsible financial or accounting officer of the Borrower (including pro forma expense and cost reductions, regardless of whether these cost savings could then be reflected in pro forma financial statements in accordance with Regulation S-X promulgated under the Securities Act or any other regulation or policy of the SEC related thereto). If any Indebtedness bears a floating rate of interest and is being given pro forma effect, the interest on such Indebtedness shall be calculated as if the rate in effect on the FCR Calculation Date had been the applicable rate for the entire period (taking into account any Hedging Obligations applicable to such Indebtedness). Interest on a Capitalized Lease Obligation shall be deemed to accrue at an interest rate reasonably determined by a responsible financial or accounting officer of the Borrower to be the rate of interest implicit in such Capitalized Lease Obligation in accordance with GAAP. For purposes of making the computation referred to above, interest on any Indebtedness under a revolving credit facility computed on a pro forma basis shall be computed based upon the average daily balance of such Indebtedness during the applicable period. Interest on Indebtedness that may optionally be determined at an interest rate based upon a factor of a prime or similar rate, a eurocurrency interbank offered rate, or other rate, shall be deemed to have been based upon the rate actually chosen, or, if none, then based upon such optional rate chosen as the Borrower may designate.

## ARTICLE II

### THE REVOLVING CREDIT FACILITY

#### 2.1. Revolving Loans.

(a) Commitment. Subject to the terms and conditions of this Agreement, each Lender severally agrees to make Loans to the Borrower under the Revolving Credit Facility in

Dollars from time to time from the A&R Closing Date until the Revolving Credit Termination Date on a pro rata basis as to the total borrowing requested by the Borrower on any day determined by such Lender's Applicable Commitment Percentage up to but not exceeding the Revolving Credit Commitment of such Lender (it being understood that the Revolving Credit Termination Date for the Specified Commitments shall have a Stated Termination Date as set forth in the definition of Stated Termination Date), provided, however, that the Lenders will not be required and shall have no obligation to make any such Loan (i) so long as a Default or an Event of Default has occurred and is continuing or (ii) if the Agent has accelerated the maturity of any of the Loans as a result of an Event of Default; and provided, further, that immediately after giving effect to each such Loan the amount of Revolving Credit Outstandings shall not exceed the Total Revolving Credit Commitment. Within such limits, the Borrower may borrow, repay and reborrow under the Revolving Credit Facility on a Business Day from the A&R Closing Date until, but (as to borrowings and reborrowings) not including, the Revolving Credit Termination Date; provided, however, that (1) no Revolving Loan that is a Eurodollar Rate Loan shall be made which has an Interest Period that extends beyond the earliest Stated Termination Date applicable to any Revolving Credit Commitments as provided in the definition of "Interest Period" and (2) each Revolving Loan that is a Eurodollar Rate Loan may, subject to the provisions of Section 2.7, be repaid only on the last day of the Interest Period with respect thereto unless such payment is accompanied by the additional payment, if any, required by Section 5.5.

(b) Amounts. Each Revolving Loan hereunder and each Conversion under Section 2.8 shall be in an amount of at least \$500,000.

(c) Procedures. An Authorized Representative shall give the Agent (i) at least three (3) Business Days' irrevocable written notice of a Borrowing Notice with appropriate insertions, effective upon receipt, of each Revolving Loan (which shall be borrowed as a Eurodollar Rate Loan) prior to 10:30 A.M. (New York City time), (ii) at least three (3) Business Days' irrevocable written notice of an Interest Rate Selection Notice with appropriate insertions, effective upon receipt, of each Revolving Loan that is to be Converted into a Eurodollar Rate Loan prior to 10:30 A.M. (New York City time), and (iii) at least one (1) Business Day's irrevocable written notice of a Borrowing Notice with appropriate insertions, effective upon receipt, of each Revolving Loan (which shall be borrowed as a Base Rate Loan) prior to 10:30 A.M. (New York City time) and (iv) at least three (3) Business Days' irrevocable written notice of an Interest Rate Selection Notice with appropriate insertions, effective upon receipt, of each Revolving Loan that is to be Converted into a Base Rate Loan prior to 10:30 A.M. (New York City time). Each such notice shall specify the amount of the borrowing, the date of borrowing or Conversion (as applicable), type of Revolving Loan (Base Rate or Eurodollar Rate), the date of borrowing and, if a Eurodollar Rate Loan, the Interest Period to be used in the computation of interest.

(d) Promptly (and, to the extent feasible, not later than 2:00 P.M. (New York City time)) on the date specified for each borrowing under this Section 2.1, each Lender shall, pursuant to the terms and subject to the conditions of this Agreement, make the amount of the Loan or Loans to be made by it on such day available by wire transfer to the Agent in the amount of its pro rata share, determined according to such Lender's Applicable Commitment Percentage of the Revolving Loan or Revolving Loans to be made on such day. Such wire transfer shall be

directed to the Agent at the Principal Office and shall be in the form of Dollars constituting immediately available funds. The amount so received by the Agent shall, subject to the terms and conditions of this Agreement, be made available to the Borrower by delivery of the proceeds thereof as shall be directed in the applicable Borrowing Notice by an Authorized Representative and reasonably acceptable to the Agent.

(e) The Borrower shall have the option to elect the duration of the initial and any subsequent Interest Periods and to Convert the Revolving Loans in accordance with Section 2.8. Eurodollar Rate Loans and Base Rate Loans may be outstanding at the same time, provided, however, there shall not be outstanding at any one time Eurodollar Rate Loans for the Borrower having more than two (2) different Interest Periods. If the Agent does not receive an Interest Rate Selection Notice giving notice of election of the duration of an Interest Period by the time prescribed by Section 2.8, the Borrower shall be deemed to have elected for any Eurodollar Rate Loan an Interest Period of one month.

## 2.2. Payment of Interest.

(a) The Borrower shall pay interest to the Agent for the account of each Lender on the outstanding and unpaid principal amount of each Loan made by such Lender for the period commencing on the date of such Loan until such Loan shall be due at the then applicable Base Rate for Base Rate Loans or applicable Eurodollar Rate for Eurodollar Rate Loans, as designated by the Authorized Representative pursuant to Section 2.1; provided, however, that if any Event of Default shall occur and be continuing, all amounts outstanding hereunder shall bear interest during such period at the Default Rate.

(b) Interest on each Loan shall be computed on the basis of a year of 360 days and calculated in each case for the actual number of days elapsed. Interest on each Loan shall be paid (x) in the case of Base Rate Loans, quarterly in arrears on the tenth (10th) calendar day of each January, April, July and October (or, if such day is not a Business Day, on the next succeeding Business Day) and, in the case of Eurodollar Rate Loans, on the last day of each Interest Period or every 90 days for any Interest Period greater than 90 days, (y) upon payment or prepayment of the principal amount of any Loan or any portion thereof, on the amount so paid or prepaid and (z) at the Revolving Credit Termination Date.

## 2.3. Payment of Principal.

(a) Scheduled Repayment; Voluntary Prepayments. The principal amount of each Revolving Loan shall be due and payable to the Agent for the benefit of each Lender in full on the Stated Termination Date, or earlier as specifically provided herein. For the avoidance of doubt, it is understood that each Specified Loan shall be due and payable to the Agent for the benefit of the Specified Lender in full on the applicable Stated Termination Date. The Borrower may prepay the outstanding principal amount of any Loan, in whole or in part, (i) in the case of Base Rate Loans, upon notice given to the Agent not later than 1:00 P.M. (New York City time) on the date of payment and (ii) in the case of Eurodollar Rate Loans, upon three (3) Business Days' notice to the Agent. All such prepayments must be accompanied by accrued interest up to, and including, the date of such prepayment and any compensation due under Section 5.5 hereof.

(b) Mandatory Prepayments and Commitment Reductions.

(i) Reserved

(ii) If a Change of Control occurs, the Borrower shall prepay the entire principal amount of the Loans on or prior to the date which is ninety (90) days after the date of such Change of Control and the Total Revolving Credit Commitments shall be permanently reduced to \$0.

(iii) The Borrower shall notify the Agent in writing of any mandatory prepayment of Loans and corresponding reduction of the Total Revolving Credit Commitments required to be made pursuant to clauses (i) through (ii) of this Section 2.3(b) at least three (3) Business Days prior to the date of such prepayment. Each such notice shall specify the date of such prepayment and provide a reasonably detailed calculation of the amount of such prepayment. The Agent will promptly notify each Lender of the contents of any such prepayment notice and of such Lender's pro rata share of the prepayment. Any Lender (a "Declining Lender", and any Lender which is not a Declining Lender, an "Accepting Lender") may elect, by delivering not less than two (2) Business Days prior to the proposed prepayment date, a written notice (such notice, a "Rejection Notice") that any mandatory prepayment otherwise required to be made with respect to the Loans held by such Lender pursuant to clause (i) of this Section 2.3(b) not be made, in which event the portion of such prepayment or commitment reduction which would otherwise have been applied to the Loans of the Declining Lenders shall instead be retained by the Borrower. If a Lender fails to deliver a Rejection Notice within the time frame specified above, any such failure will be deemed an acceptance of the total amount of such mandatory prepayment of Loans.

(iv) If for any reason the aggregate amount of Loans outstanding at any time exceeds the aggregate Total Revolving Credit Commitments then in effect, the Borrower shall promptly prepay Loans in an aggregate amount equal to such excess.

2.4. Manner of Payment.

(a) Each payment of principal (including any prepayment) and payment of interest and fees, and any other amount required to be paid to the Lenders with respect to the Loans, shall be made to the Agent at the Principal Office, for the account of each Lender, in Dollars and in immediately available funds without setoff, deduction or counterclaim before 12:30 P.M. (New York City time) (or, solely with respect to a prepayment of Base Rate Loans, 1:00 P.M. (New York City time)) on the date such payment is due.

(b) The Agent shall deem any payment made by or on behalf of the Borrower hereunder that is not made both in Dollars and in immediately available funds and prior to 12:30 P.M. (New York City time) (or, solely with respect to a prepayment of Base Rate Loans, 1:00 P.M. (New York City time)) to be a non-conforming payment. Any such payment shall not be deemed to be received by the Agent until the time such funds become available funds. Any nonconforming payment may constitute or become a Default or Event of Default. Interest shall continue to accrue on any principal as to which a non-conforming payment is made until the later

of (x) the date such funds become available funds or (y) the next Business Day at the Default Rate from the date such amount was due and payable.

(c) In the event that any payment hereunder becomes due and payable on a day other than a Business Day, then such due date shall be extended to the next succeeding Business Day unless provided otherwise under clause (a) of the definition of "Interest Period"; provided that interest shall continue to accrue during the period of any such extension and provided, further, that in no event shall any such due date be extended beyond the Revolving Credit Termination Date.

(d) Any payment or prepayment of any principal or interest on any Loan hereunder shall be accompanied by a certificate signed by an Authorized Representative and delivered to the Agent, which certificate shall identify such Loan, the amount of principal and interest paid thereon.

#### 2.5. Notes.

At the request of any Lender, Revolving Loans made by such Lender shall be evidenced by a Note payable to such Lender or its registered assigns in the respective amount of its Applicable Commitment Percentage of the Revolving Credit Commitment and shall be duly completed, executed and delivered by the Borrower.

#### 2.6. Pro Rata Payments.

Except as otherwise provided herein, (a) each payment on account of the principal of and interest on the Loans (including in connection with any reduction of Revolving Credit Commitments described under Section 2.7) and the fees described in Section 2.10 shall be made to the Agent for the account of the Lenders pro rata based on their Applicable Commitment Percentages, (b) all payments to be made by the Borrower for the account of each of the Lenders on account of principal, interest and fees, shall be made without diminution, set off, recoupment or counterclaim, and (c) the Agent will promptly distribute to the Lenders in immediately available funds payments received in fully collected, immediately available funds from the Borrower.

#### 2.7. Reductions; Increases.

(a) The Borrower shall, by notice from an Authorized Representative, have the right from time to time but not more frequently than once each calendar month, upon not less than three (3) Business Days' written notice to the Agent, effective upon receipt, to reduce the Total Revolving Credit Commitment. The Agent shall give each Lender, within one (1) Business Day of receipt of such notice, facsimile notice, or telephonic notice (confirmed in writing), of such reduction. Each such reduction shall be in the aggregate amount of \$500,000 or such greater amount which is in an integral multiple of \$500,000, or the entire remaining Total Revolving Credit Commitment, and shall permanently reduce the Total Revolving Credit Commitment. Each reduction of the Total Revolving Credit Commitment shall be accompanied by payment of the Revolving Loans to the extent that the principal amount of Revolving Credit Outstandings exceeds the Total Revolving Credit Commitment after giving effect to such

reduction, together with accrued and unpaid interest on the amounts prepaid. No such reduction shall result in the payment of any Eurodollar Rate Loan other than on the last day of the Interest Period of such Eurodollar Rate Loan unless such prepayment is accompanied by amounts due, if any, under Section 5.5. Any reduction of the Total Revolving Credit Commitment shall be applied pro rata to the respective Revolving Credit Commitments of the Lenders.

(b) The Borrower shall, by notice from an Authorized Representative (a "Increased Commitment Notice"), have the right from time to time upon not less than three (3) Business Days' written notice to the Agent, to increase the Total Revolving Credit Commitment (any such increase, the "Increased Commitments") in a minimum amount of \$500,000 or such greater amount that is an integral multiple of \$500,000, up to a maximum amount equal to the difference between \$1,200,000,000 and the Total Revolving Credit Commitment as of the date prior to the making of such Increased Commitments. Each Increased Commitment Notice shall specify (i) the date (each, an "Increased Amount Date") on which the Borrower proposes that the Increased Commitments shall be effective, which shall be a Business Day and (ii) the identity of each existing Lender (each, an "Increasing Lender") and each other Person that is not an existing Lender that is an Eligible Assignee (each, a "New Lender") to whom the Borrower proposes any portion of such Increased Commitments be allocated and the amounts of such allocations; provided that any existing Lender approached to provide all or a portion of the Increased Commitments may elect or decline, in its sole discretion, to provide such Increased Commitments. Such Increased Commitments shall be effected pursuant to one or more accession agreements executed and delivered by the Borrower, each New Lender and Increasing Lender (as applicable) and the Agent; provided that no Default or Event of Default shall exist on such Increased Amount Date before or after giving effect to such Increased Commitments. The Increased Commitments shall be on the same terms and subject to the same conditions as the existing commitments.

On any Increased Amount Date on which Increased Commitments are effected, subject to the satisfaction of the foregoing terms and conditions, and notwithstanding any other provision herein to the contrary, if as of the Increased Amount Date prior to giving effect to the Increased Commitments any Revolving Credit Outstandings exist, the Borrower shall borrow from the New Lenders and Increasing Lenders an amount of new Loans that will be applied to prepay the outstanding Loans of the existing Lenders so that after giving pro forma effect to the Increased Commitments, such Loans and such prepayments, each Lender holds an equal pro rata share of the Revolving Credit Outstandings; provided that the Borrower shall make any payment due to any Lender under Section 5.5 in connection therewith.

(c) Upon the termination and/or repayment of the Specified Commitments and Specified Loans on the Stated Termination Date for the Specified Commitments, the Total Revolving Credit Commitments shall be automatically reduced by an amount equal to the Specified Commitments immediately prior to such termination and/or repayment on such Stated Termination Date. The Applicable Commitment Percentages set forth on Exhibit A hereto shall be automatically adjusted to remove the Specified Commitments upon such termination and/or repayment. For the avoidance of doubt, such termination and/or repayment and reduction of the Total Revolving Credit Commitments shall not limit the Borrower's ability to incur Increased Commitments pursuant to Section 2.7(b).

2.8. Conversions and Elections of Subsequent Interest Periods.

Subject to the limitations set forth below and in Article V, the Borrower may:

(a) upon delivery, effective upon receipt, of a properly completed Interest Rate Selection Notice to the Agent on or before 10:30 A.M. (New York City time) on any Business Day, (x) Convert all or a part of Eurodollar Rate Loans to Base Rate Loans on the last day of the Interest Period for such Eurodollar Rate Loans or (y) Continue all of any outstanding borrowing of Eurodollar Rate Loans; and

(b) provided that no Default or Event of Default shall have occurred and be continuing and upon delivery, effective upon receipt, of a properly completed Interest Rate Selection Notice to the Agent on or before 10:30 A.M. (New York City time) three (3) Business Days prior to the date of such Conversion, Convert Base Rate Loans to Eurodollar Rate Loan on any Business Day.

Each election and Conversion or Continuation pursuant to this Section 2.8 shall be subject to the limitations on Eurodollar Rate Loans set forth in the definition of "Interest Period" herein and in Sections 2.1, 2.3 and Article V. The Agent shall give written notice to each Lender of such notice of Conversion or Conversion prior to 3:00 P.M. (New York City time) on the day such notice of election, Conversion or Continuation is received. All such Conversions of Loans shall be effected pro rata based on the Applicable Commitment Percentages of the Lenders.

2.9. Increase and Decrease in Amounts.

The amount of the Total Revolving Credit Commitment that shall be available to the Borrower as Loans shall be reduced by the aggregate amount of Revolving Credit Outstandings.

2.10. Fees.

The Borrower shall pay (i) the fees separately agreed to by the Borrower and the Agent on the dates separately specified and (ii) a commitment fee for the period from and including the A&R Closing Date to the Revolving Credit Termination Date, computed at a rate per annum equal to the Applicable Commitment Fee on the average daily amount of the available unused Revolving Credit Commitment of such Lender during the period for which payment is made, payable monthly in arrears on each Fee Payment Date, commencing on the first such date to occur after the A&R Closing Date. All computations of fees shall be made on the basis of a 360-day year and actual days elapsed.

2.11. Deficiency Advances.

No Lender shall be responsible for any default of any other Lender in respect to such other Lender's obligation to make any Loan hereunder nor shall the Revolving Credit Commitment of any Lender hereunder be increased as a result of such default of any other Lender. Without limiting the generality of the foregoing, in the event any Lender shall fail to advance funds to the Borrower as herein provided, the Agent may in its discretion and in its

capacity as a Lender, but shall not be obligated to, advance all or any portion of such amount or amounts (each, a “deficiency advance”) and shall thereafter be entitled to payments of principal of and interest on such deficiency advance in the same manner and at the same interest rate or rates as if it had originally made such Loan; provided that (i) such Defaulting Lender shall not be entitled to receive payments of principal, interest or fees with respect to such deficiency advance until such deficiency advance shall be paid by such Lender and (ii) upon payment to the Agent from such other Lender of the entire outstanding amount of each such deficiency advance, together with accrued and unpaid interest thereon, from the most recent date or dates interest was paid to the Agent by the Borrower on each Loan comprising the deficiency advance at the interest rate per annum for overnight borrowing by the Agent from the Federal Reserve Bank, then such payment shall be to the Agent as a Lender in full payment of such deficiency advance and the Borrower shall be deemed to have borrowed the amount of such deficiency advance from such other Lender as of the most recent date or dates, as the case may be, upon which any payments of interest were made by the Borrower thereon.

2.12. Use of Proceeds.

The proceeds of each Loan made pursuant to the Revolving Credit Facility hereunder shall be used for working capital and other general corporate purposes.

2.13. Defaulting Lenders.

(a) Notwithstanding anything to the contrary contained in this Agreement, if any Lender becomes a Defaulting Lender, then, until such time as such Lender is no longer a Defaulting Lender, to the extent permitted by applicable law:

(i) Such Defaulting Lender’s right to approve or disapprove any amendment, waiver or consent with respect to this Agreement shall be restricted as set forth in the definition of Required Lenders.

(ii) Any payment of principal, interest, fees or other amounts received by the Agent for the account of such Defaulting Lender (whether voluntary or mandatory, at maturity, pursuant to Article X or otherwise) or received by the Agent from a Defaulting Lender pursuant to Section 12.3 shall be applied at such time or times as may be determined by the Agent as follows: first, to the payment of any amounts owing by such Defaulting Lender to the Agent hereunder; second, as the Borrower may request (so long as no Default or Event of Default exists), to the funding of any Loan in respect of which such Defaulting Lender has failed to fund its portion thereof as required by this Agreement, as determined by the Agent; third, if so determined by the Agent and the Borrower, to be held in a deposit account and released pro rata in order to satisfy such Defaulting Lender’s potential future funding obligations with respect to Loans under this Agreement; fourth, to the payment of any amounts owing to the Lenders as a result of any judgment of a court of competent jurisdiction obtained by any Lender against such Defaulting Lender as a result of such Defaulting Lender’s breach of its obligations under this Agreement; fifth, so long as no Default or Event of Default exists, to the payment of any amounts owing to the Borrower as a result of any judgment of a court of competent jurisdiction obtained by the Borrower against such Defaulting Lender as a result of such

Defaulting Lender's breach of its obligations under this Agreement; and sixth, to such Defaulting Lender or as otherwise directed by a court of competent jurisdiction; provided that if (x) such payment is a payment of the principal amount of any Loans in respect of which such Defaulting Lender has not fully funded its appropriate share, and (y) such Loans were made at a time when the conditions set forth in Section 6.2 were satisfied or waived, such payment shall be applied solely to pay the Loans of all non-Defaulting Lenders on a pro rata basis prior to being applied to the payment of any Loans of such Defaulting Lender until such time as all Loans are held by the Lenders pro rata in accordance with the Revolving Credit Commitments under the Revolving Credit Facility. Any payments, prepayments or other amounts paid or payable to a Defaulting Lender that are applied (or held) to pay amounts owed by a Defaulting Lender shall be deemed paid to and redirected by such Defaulting Lender, and each Lender irrevocably consents hereto.

(b) If the Borrower and the Agent agree in writing that a Lender is no longer a Defaulting Lender, the Agent will so notify the parties hereto, whereupon as of the effective date specified in such notice and subject to any conditions set forth therein, that Lender will, to the extent applicable, purchase at par that portion of outstanding Loans of the other Lenders or take such other actions as the Agent may determine to be necessary to cause the Loans to be held pro rata by the Lenders in accordance with the Revolving Credit Commitments under the Revolving Credit Facility, whereupon such Lender will cease to be a Defaulting Lender; provided that no adjustments will be made retroactively with respect to fees accrued or payments made by or on behalf of the Borrower while that Lender was a Defaulting Lender; and provided, further, that except to the extent otherwise expressly agreed by the affected parties, no change hereunder from Defaulting Lender to Lender will constitute a waiver or release of any claim of any party hereunder arising from that Lender's having been a Defaulting Lender

## CHANGE IN CIRCUMSTANCES

### 5.1. Requirements of Law.

(a) If the adoption of or any change in any Requirement of Law or in the interpretation or application thereof or compliance by any Lender with any request or directive (whether or not having the force of law) from any central bank or other Governmental Authority made subsequent to Original Closing Date, with respect to each Lender hereunder on the Original Closing Date, or such later date that such Lender became a Lender hereunder, with respect to any other Lender:

(i) shall impose, modify or hold applicable any reserve, special deposit, compulsory loan or similar requirement against assets held by, deposits or other liabilities in or for the account of, advances, loans or other extensions of credit by, or any other acquisition of funds by, any office of such Lender that is not otherwise included in the determination of the Eurodollar Rate; or

(ii) shall impose on such Lender any other condition;

and the result of any of the foregoing is to increase the cost (other than a Tax) to such Lender, by an amount that such Lender deems to be material, of making, converting into, continuing or maintaining Eurodollar Rate Loans, or to reduce any amount receivable hereunder in respect thereof (other than by reason of any Tax), then, in any such case, the Borrower shall promptly pay such Lender, upon its demand, any additional amounts necessary to compensate such Lender (on an after-tax basis) for such increased cost or reduced amount receivable. If any Lender becomes entitled to claim any additional amounts pursuant to this paragraph, it shall promptly notify the Borrower (with a copy to the Agent) of the event by reason of which it has become so entitled.

(b) If any Lender shall have determined that the adoption of or any change in any Requirement of Law regarding capital adequacy or in the interpretation or application thereof or compliance by such Lender or any corporation controlling such Lender with any request or directive regarding capital adequacy (whether or not having the force of law) from any Governmental Authority made subsequent to the Original Closing Date, with respect to each Lender hereunder on the Original Closing Date, or such later date that such Lender became a Lender hereunder, with respect to any other Lender, shall have the effect of reducing the rate of return on such Lender's or such corporation's capital as a consequence of its obligations hereunder to a level below that which such Lender or such corporation could have achieved but for such adoption, change or compliance (taking into consideration such Lender's or such corporation's policies with respect to capital adequacy) by an amount deemed by such Lender to be material, then from time to time, after submission by such Lender to the Borrower (with a copy to the Agent) of a written request therefor, the Borrower shall pay to such Lender such additional amount or amounts as will compensate such Lender or such corporation (on an after-tax basis) for such reduction.

(c) Each Lender shall promptly notify the Borrower and the Agent of any event of which it has knowledge occurring after the Original Closing Date, with respect to each Lender hereunder on the Original Closing Date, or such later date that such Lender became a Lender hereunder, with respect to any other Lender, which will entitle a Lender to compensation pursuant to this Section 5.1, and such Lender shall, upon written request by the Borrower, designate a different Applicable Lending Office if such designation will avoid the need for, or reduce the amount of, such compensation and will not, in the judgment of such Lender, be otherwise disadvantageous to it. A certificate as to any additional amounts payable pursuant to this Section submitted by any Lender to the Borrower (with a copy to the Agent) shall be conclusive in the absence of manifest error. Notwithstanding anything to the contrary in this Section, the Borrower shall not be required to compensate a Lender pursuant to this Section for any amounts incurred more than three months prior to the date that such Lender notifies the Borrower of such Lender's intention to claim compensation therefor; provided that, if the

circumstances giving rise to such claim have a retroactive effect, then such three-month period shall be extended to include the period of such retroactive effect. The obligations of the Borrower pursuant to this Section shall survive the termination of this Agreement and the payment of the Loans and all other amounts payable hereunder.

(d) For purposes of this Section 5.1, (a) the Dodd-Frank Wall Street Reform and Consumer Protection Act, and all requests, rules, guidelines and directives promulgated thereunder, are deemed to have been introduced or adopted subsequent to the Original Closing Date (or the First Restatement Date, with respect to any Lender that became a Lender on the First Restatement Date, or the Second Restatement Date, with respect to any Lender that became a Lender on the Second Restatement Date, or the Third Restatement Date, with respect to any Lender that became a Lender on the Third Restatement Date, or the Fourth Restatement Date, with respect to any Lender that became a Lender on the Fourth Restatement Date, or the Fifth Restatement Date, with respect to any Lender that became a Lender on the Fifth Restatement Date, or the A&R Closing Date, with respect to any Lender that became a Lender on the A&R Closing Date), regardless of the date enacted or adopted and (b) the adoption of the risk-based capital adequacy framework commonly known as Basel III shall be deemed to have occurred subsequent to the Original Closing Date (or the First Restatement Date, with respect to any Lender that became a Lender on the First Restatement Date, or the Second Restatement Date, with respect to any Lender that became a Lender on the Second Restatement Date, or the Third Restatement Date, with respect to any Lender that became a Lender on the Third Restatement Date, or the Fourth Restatement Date, with respect to any Lender that became a Lender on the Fourth Restatement Date, or the Fifth Restatement Date, with respect to any Lender that became a Lender on the Fifth Restatement Date, or the A&R Closing Date, with respect to any Lender that became a Lender on the A&R Closing Date) regardless of when adopted.

## 5.2. Limitation on Types of Loans.

(a) Subject to clauses (b), (c), (d), (e), (f) and (g) of this Section 5.2, if prior to the commencement of any Interest Period for a Eurodollar Rate Loan:

(i) the Agent determines (which determination shall be conclusive) that by reason of circumstances affecting the relevant market, adequate and reasonable means do not exist for ascertaining the Eurodollar Rate for such Interest Period; provided that no Benchmark Transition Event shall have occurred at such time; or

(ii) the Required Lenders determine (which determination shall be conclusive) and notify the Agent that the Eurodollar Rate will not adequately and fairly reflect the cost to the Lenders of funding Eurodollar Rate Loans for such Interest Period;

then the Agent shall give the Borrower prompt notice thereof specifying the relevant Type of Loans and the relevant amounts or periods, and so long as such condition remains in effect, the Lenders shall be under no obligation to make additional Loans of such Type, Continue Loans of such Type or to Convert Loans of any other Type into Loans of such Type, and the Borrower shall, on the last day(s) of the then current Interest Period(s) for the outstanding Loans of the affected Type, either prepay such

Loans or Convert such Loans into Base Rate Loans in accordance with the terms of this Agreement.

(b) Notwithstanding anything to the contrary herein or in any other Loan Document, if a Benchmark Transition Event or an Early Opt-in Election, as applicable, and its related Benchmark Replacement Date have occurred prior to the Reference Time in respect of any setting of the then-current Benchmark, then (x) if a Benchmark Replacement is determined in accordance with clause (1) or (2) of the definition of "Benchmark Replacement" for such Benchmark Replacement Date, such Benchmark Replacement will replace such Benchmark for all purposes hereunder and under any Loan Document in respect of such Benchmark setting and subsequent Benchmark settings without any amendment to, or further action or consent of any other party to, this Agreement or any other Loan Document and (y) if a Benchmark Replacement is determined in accordance with clause (3) of the definition of "Benchmark Replacement" for such Benchmark Replacement Date, such Benchmark Replacement will replace such Benchmark for all purposes hereunder and under any Loan Document in respect of any Benchmark setting at or after 5:00 p.m. (New York City time) on the fifth (5th) Business Day after the date notice of such Benchmark Replacement is provided to the Lenders without any amendment to, or further action or consent of any other party to, this Agreement or any other Loan Document so long as the Agent has not received, by such time, written notice of objection to such Benchmark Replacement from Lenders comprising the Required Lenders.

(c) In connection with the implementation of a Benchmark Replacement, the Agent will have the right to make Benchmark Replacement Conforming Changes from time to time and, notwithstanding anything to the contrary herein or in any other Loan Document, any amendments implementing such Benchmark Replacement Conforming Changes will become effective without any further action or consent of any other party to this Agreement or any other Loan Document.

(d) The Agent will promptly notify the Borrower and the Lenders of (i) any Benchmark Replacement Date or an Early Opt-in Election, as applicable, and its related Benchmark Replacement, (ii) the effectiveness of any Benchmark Replacement Conforming Changes, (iii) the removal or reinstatement of any tenor of a Benchmark pursuant to clause (d) below and (iv) the commencement of any Benchmark Unavailability Period. For the avoidance of doubt, any notice required to be delivered by the Agent as set forth in this Section 5.2 may be provided, at the option of the Agent (in its sole discretion), in one of more notices and may be delivered together with, or as part of any amendment which implements any Benchmark Replacement or Benchmark Replacement Conforming Changes. Any determination, decision or election that may be made by the Agent or, if applicable, any Lender (or group of Lenders) pursuant to this Section 5.2 including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, will be conclusive and binding absent manifest error and may be made in its or their sole discretion and without consent from any other party to this Agreement or any other Loan Document, except, in each case, as expressly required pursuant to this Section 5.2.

(e) Notwithstanding anything to the contrary herein or in any other Loan Document, at any time (including in connection with the implementation of a Benchmark

Replacement), (i) if the then-current Benchmark is a term rate (including Term SOFR or the Eurodollar Rate) and either (A) any tenor for such Benchmark is not displayed on a screen or other information service that publishes such rate from time to time as selected by the Agent in its reasonable discretion or (B) the regulatory supervisor for the administrator of such Benchmark has provided a public statement or publication of information announcing that any tenor for such Benchmark is or will be no longer representative, then the Agent may modify the definition of "Interest Period" for any Benchmark settings at or after such time to remove such unavailable or non-representative tenor and (ii) if a tenor that was removed pursuant to clause (i) above either (A) is subsequently displayed on a screen or information service for a Benchmark (including a Benchmark Replacement) or (B) is not, or is no longer, subject to an announcement that it is or will no longer be representative for a Benchmark (including a Benchmark Replacement), then the Agent may modify the definition of "Interest Period" for all Benchmark settings at or after such time to reinstate such previously removed tenor.

(f) Upon the Borrower's receipt of notice of the commencement of a Benchmark Unavailability Period, the Borrower may revoke any request for a Eurodollar Rate Loan of, conversion to or continuation of Eurodollar Rate Loans to be made, converted or continued during any Benchmark Unavailability Period and, failing that, the Borrower will be deemed to have converted any such request into a request for a borrowing of or conversion to Base Rate Loans. During any Benchmark Unavailability Period or at any time that a tenor for the then-current Benchmark is not an Available Tenor, the component of Base Rate based upon the then-current Benchmark or such tenor for such Benchmark, as applicable, will not be used in any determination of Base Rate.

(g) The Agent does not warrant or accept any responsibility for, and shall not have any liability with respect to (i) the administration, submission or any other matter related to the London interbank offered rate or other rates in the definition of "Eurodollar Rate" or with respect to any alternative or successor rate thereto, or replacement rate thereof (including, without limitation any Benchmark Replacement implemented hereunder), (ii) the composition or characteristics of any such Benchmark Replacement, including whether it is similar to, or produces the same value or economic equivalence to USD LIBOR (or any other Benchmark) or have the same volume or liquidity as did USD LIBOR (or any other Benchmark), (iii) any actions or use of its discretion or other decisions or determinations made with respect to any matters covered by this Section 5.2 including, without limitation, whether or not a Benchmark Transition Event has occurred, the removal or lack thereof of unavailable or non-representative tenors, the implementation or lack thereof of any Benchmark Replacement Conforming Changes, the delivery or non-delivery of any notices required by clause (d) above or otherwise in accordance herewith, and (iv) the effect of any of the foregoing provisions of this Section 5.2.

### 5.3. Illegality.

Notwithstanding any other provision of this Agreement, in the event that it becomes unlawful for any Lender or its Applicable Lending Office to make, maintain, or fund Eurodollar Rate Loans hereunder, then such Lender shall promptly notify the Borrower thereof and such Lender's obligation to make or Continue Eurodollar Rate Loans and to Convert other Types of Loans into Eurodollar Rate Loans shall be suspended until such time as such Lender

may again make, maintain, and fund Eurodollar Rate Loans (in which case the provisions of Section 5.4 shall be applicable).

#### 5.4. Treatment of Affected Loans.

If the obligation of any Lender to make a Eurodollar Rate Loan or to Continue, or to Convert Loans of any other Type into, Loans of a particular Type shall be suspended pursuant to Section 5.2 or 5.3 hereof (Loans of such Type being herein called "Affected Loans" and such Type being herein called the "Affected Type"), such Lender's Affected Loans shall be automatically Converted into Base Rate Loans on the last day(s) of the then current Interest Period(s) for Affected Loans (or, in the case of a Conversion required by Section 5.3 hereof, on such earlier date as such Lender may specify to the Borrower with a copy to the Agent) and, unless and until such Lender gives notice as provided below that the circumstances specified in Section 5.2 or 5.3 hereof that gave rise to such Conversion no longer exist:

(a) to the extent that such Lender's Affected Loans have been so Converted, all payments and prepayments of principal that would otherwise be applied to such Lender's Affected Loans shall be applied instead to its Base Rate Loans; and

(b) all Loans that would otherwise be made or Continued by such Lender as Loans of the Affected Type shall be made or Continued instead as Base Rate Loans, and all Loans of such Lender that would otherwise be Converted into Loans of the Affected Type shall be Converted instead into (or shall remain as) Base Rate Loans.

If such Lender gives notice to the Borrower (with a copy to the Agent) that the circumstances specified in Section 5.2 or 5.3 hereof that gave rise to the Conversion of such Lender's Affected Loans pursuant to this Section 5.4 no longer exist (which such Lender agrees to do promptly upon such circumstances ceasing to exist) at a time when Loans of the Affected Type made by other Lenders are outstanding, such Lender's Base Rate Loans shall be automatically Converted, on the first day(s) of the next succeeding Interest Period(s) for such outstanding Loans of the Affected Type, to the extent necessary so that, after giving effect thereto, all Loans held by the Lenders holding Loans of the Affected Type and by such Lender are held pro rata (as to principal amounts, Types, and Interest Periods) in accordance with their respective Revolving Credit Commitments.

#### 5.5. Compensation.

Upon the request of any Lender, the Borrower shall pay to such Lender such amount or amounts as shall be sufficient (in the reasonable opinion of such Lender) to compensate it for any loss, cost, or expense incurred by it as a result of:

(a) any payment, prepayment, or Conversion of a Eurodollar Rate Loan for any reason (including, without limitation, the acceleration of the Loans pursuant to Section 10.1) on a date other than the last day of the Interest Period for such Loan; or

(b) any failure by the Borrower for any reason (including, without limitation, the failure of any condition precedent specified in Article VI to be satisfied) to borrow,

Convert, Continue, or prepay a Eurodollar Rate Loan on the date for such borrowing, Conversion, Continuation, or prepayment specified in the relevant notice of borrowing, prepayment, Continuation, or Conversion under this Agreement.

5.6. Taxes.

(a) Any and all payments by or on account of any obligation of any Credit Party to or for the account of any Lender or the Agent hereunder or under any other Loan Document shall be made free and clear of and without deduction or withholding for any and all Taxes, and all liabilities with respect thereto, now or hereafter imposed, levied, collected, withheld or assessed by any Governmental Authority, excluding, in the case of each Lender and the Agent, Taxes imposed on its net income, overall gross receipts, capital or net worth, and any franchise, doing business or similar Taxes imposed on it in lieu of net income taxes, in each case, imposed on such Lender or Agent (as applicable) as a result of a present or former connection between the Agent or such Lender (as applicable) and the jurisdiction of the Governmental Authority imposing such tax (other than any such connection arising solely from the Agent or such Lender (as applicable) having been a party to, executed, delivered or performed its obligations or received a payment under or engaged in any other transaction pursuant to, or enforced, this Agreement or any other Loan Document). If any such non-excluded Taxes ("Indemnified Taxes") or Other Taxes (as defined below) are required to be withheld by the applicable withholding agent from or in respect of any sum payable under this Agreement or any other Loan Document to any Lender or the Agent, (i) the sum payable by the applicable Credit Party shall be increased as necessary so that after all required deductions have been made (including deductions applicable to additional sums payable under this Section 5.6) such Lender (or, in the case of an amount paid to the Agent for its own account, the Agent) receives an amount equal to the sum it would have received had no such deductions been made, (ii) the applicable withholding agent shall make such deductions, (iii) the applicable withholding agent shall timely pay the full amount deducted to the relevant taxation authority or other authority in accordance with applicable law and (iv) the applicable withholding agent shall furnish to the Agent (in a reasonably prompt manner), at its address referred to in Section 12.2, the original or a certified copy of a receipt evidencing payment thereof or other evidence of payment reasonably acceptable to such Lender or the Agent; provided however, that no Credit Party shall be required to increase such amounts payable to any Lender with respect to any Taxes that are (i) attributable to such Lender's failure to comply with the requirements of paragraph (d) or (e) of this Section or (ii) imposed pursuant to FATCA.

(b) In addition, the Borrower agrees to timely pay any and all present or future stamp, documentary or other similar excise or property Taxes which arise from any payment made under any Loan Document or from the execution, performance, registration, delivery or enforcement of this Agreement or any other Loan Document (hereinafter referred to as "Other Taxes").

(c) The Borrower agrees to indemnify each Lender and the Agent for the full amount of Indemnified Taxes and Other Taxes (including, without limitation, any Indemnified Taxes or Other Taxes imposed or asserted by any jurisdiction on amounts payable under this Section 5.6) paid by such Lender or the Agent (as the case may be) and any liability (including penalties, interest, additions to tax and expenses) arising therefrom or with respect thereto,

whether or not such Indemnified Taxes or Other Taxes are correctly or legally imposed or asserted. A certificate as to the amount of such payment or liability delivered by any Lender (or by the Agent, on its own behalf or on behalf of a Lender) shall be conclusive absent manifest error.

(d) Each Lender, on or prior to the date of its execution and delivery of this Agreement in the case of each Lender listed on the signature pages hereof and on or prior to the date on which it becomes a Lender in the case of each other Lender, and from time to time thereafter if requested in writing by the Borrower or the Agent, shall provide the Borrower and the Agent with documentation that would enable payments to be made to such Person without backup withholding (i.e., an Internal Revenue Service Form W-9, or successor form, certifying an exemption from backup withholding or the applicable Internal Revenue Service Form W-8, or successor form, certifying non U.S. status). In addition, each Lender and the Agent agrees that it will (i) take all actions reasonably requested by the Borrower in writing that are consistent with applicable legal and regulatory restrictions to claim any available reductions or exemptions from Indemnified Taxes or Other Taxes and (ii) otherwise cooperate with the Borrower to minimize any amounts payable by the Borrower under this Section 5.6; provided, however, that in each case, any out-of-pocket cost relating to such action or cooperation requested by the Borrower shall be borne by the Borrower and no Lender shall be required to deliver any documentation that is not legally eligible to deliver or take any action that it determines in its sole good faith discretion, may be adverse in any non de minimis respect to it and not indemnified to its satisfaction.

(e) A Lender that is entitled to an exemption from or reduction of withholding tax under the law of the jurisdiction in which the Borrower is located, or any treaty to which such jurisdiction is a party, with respect to any payments under this Agreement shall deliver to the Borrower and the Agent, at the time or times reasonably requested by the Borrower or the Agent, such properly completed and executed documentation prescribed by applicable law as will permit such payments to be made without withholding or at a reduced rate, provided that such Lender is legally eligible to complete, execute and deliver such documentation and in such Lender's judgment such completion, execution or submission would not materially prejudice the economic, legal or regulatory position of such Lender.

(f) If a payment made to a Lender under any Loan Document would be subject to U.S. federal withholding Tax imposed by FATCA if such Lender were to fail to comply with the applicable reporting requirements of FATCA (including those contained in Section 1471(b) or 1472(b) of the Code, as applicable), such Lender shall deliver to the Borrower and the Agent at the time or times prescribed by law and at such time or times reasonably requested by the Borrower or the Agent such documentation prescribed by applicable law (including as prescribed by Section 1471(b)(3)(C)(i) of the Code) and such additional documentation reasonably requested by the Borrower or the Agent as may be necessary for the Borrower and the Agent to comply with their obligations under FATCA, to determine whether such Lender has complied with such Lender's obligations under FATCA or to determine the amount, if any, to deduct and withhold from such payment; provided that no Lender shall be required to deliver any documentation pursuant to this Section 5.6(f) that it is not legally eligible to deliver

(g) Within thirty (30) days after the date of any payment of Taxes by any Credit Party, the Borrower shall furnish to the Agent the original or a certified copy of a receipt evidencing such payment or other evidence of such payment as is reasonably acceptable to the Agent.

(h) If any Credit Party is required to pay additional amounts to or for the account of any Lender pursuant to this Section 5.6, then such Lender will agree to use reasonable efforts to change the jurisdiction of its Applicable Lending Office so as to eliminate or reduce any such additional payment which may thereafter accrue if such change, in the sole judgment of such Lender, is not otherwise disadvantageous to such Lender.

(i) If the Agent or any Lender receives a refund of any Indemnified Taxes or Other Taxes as to which it has been indemnified by any Credit Party or with respect to which any Credit Party has paid additional amounts pursuant to this Section 5.6, it shall pay over such refund to the Borrower (but only to the extent of indemnity payments made, or additional amounts paid, by the Credit Parties under this Section 5.6 with respect to the Indemnified Taxes or Other Taxes giving rise to such refund), net of all out-of-pocket expenses (including any net increase in Taxes imposed on such Person by reason of such refund and the payment by such Person pursuant to this sentence) of the Agent or such Lender and without interest (other than any interest paid by the relevant Governmental Authority with respect to such refund); provided that the Borrower, upon the request of the Agent or such Lender, agrees to repay the amount paid over to the Borrower (plus any penalties, interest or other charges imposed by the relevant Governmental Authority) to the Agent or such Lender in the event the Agent or such Lender is required to repay such refund to such Governmental Authority. This paragraph shall not be construed to require the Agent or any Lender to make available its tax returns (or any other information relating to its taxes which it deems confidential) to the Borrower or any other Person.

(j) Upon Borrower's timely written request, the Lender shall, in good faith, with due diligence, and at the Borrower's expense, contest the validity, applicability or amount of any Indemnified Taxes or Other Taxes for which Borrower is responsible under this Section 5.6 by, in such Lender's sole discretion after consultation with Borrower, (i) resisting payment thereof, (ii) not paying the same except under protest, if protest is necessary and proper, or (iii) if payment is made, using reasonable efforts to obtain a refund thereof in appropriate administrative and judicial proceedings; provided that (y) the Lender will not be required to take any action hereunder which, in its sole discretion, would cause the Lender to suffer a material economic, legal or regulatory disadvantage, and (z) Borrower agrees to pay and shall timely pay on written demand to such Lender all reasonable costs and expenses that such Lender actually incurs in connection with and reasonably allocable to contesting such claim (including reasonable legal and accounting fees, penalties, interest, and additions to tax).

(k) Without prejudice to the survival of any other agreement of the Credit Parties under the Loan Documents, the agreements and obligations of each Credit Party contained in this Section 5.6 shall survive the termination of the Revolving Credit Commitments, any assignment of rights by, or the replacement of, a Lender, and the payment in full of the Loans.

(l) Each Lender hereby authorizes the Agent to deliver to the Credit Parties and to any successor Agent any documentation provided by such Lender to the Agent pursuant to this Section 5.6.

(a) within 20 Business Days of the date on which it guarantees Indebtedness of the Borrower or any Guarantor executes and delivers to the Agent a guarantee to which such Subsidiary shall guarantee (each, a "Guarantee") all of the Borrower's Obligations and other terms contained in the applicable Guarantee and subject to the conditions contained in such Guarantee; provided that, for the avoidance of doubt, such Guarantee shall include customary keepwell and excluded swap obligation provisions that are satisfactory to the Borrower and the Agent; and

In addition, upon the release or discharge of any guarantee of other Indebtedness which resulted in the creation of a Guarantee (except a discharge or release by or as a result of payment under such guarantee), the Guarantor of such Guarantee shall be deemed automatically and unconditionally cancelled, released and discharged of any obligations under its Guarantee, as evidenced by agreement, written instrument or confirmation executed by the Agent, upon request. The Borrower may cause any other Subsidiary of the Borrower to issue a Guarantee and become a Guarantor.

(iii) Each Guarantee by a Subsidiary will be limited to an amount not to exceed the maximum amount that can be guaranteed by that Subsidiary without rendering the Guarantee, as it relates to such Subsidiary, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally.

9.13. [RESERVED].

(b) the redemption, repurchase or other acquisition or retirement of Subordinated Indebtedness of the Borrower made by exchange for, or out of the proceeds of the substantially concurrent sale of, new Indebtedness of the Borrower, which is incurred in compliance with Section 9.4 so long as:

### THE AGENT

#### 11.1. Appointment and Authority.

Each Lender hereby irrevocably appoints Citibank, N.A. to act on its behalf as the Agent hereunder and under the other Loan Documents and authorizes the Agent to take such actions on its behalf and to exercise such powers as are delegated to the Agent by the terms hereof or thereof, together with such actions and powers as are reasonably incidental thereto. The provisions of this Article are solely for the benefit of the Agent and the Lenders, and neither the Borrower nor any Guarantor, if any, shall have rights as a third party beneficiary of any of such provisions.

#### 11.2. Agent Individually.

(a) The Person serving as the Agent hereunder shall have the same rights and powers in its capacity as a Lender as any other Lender and may exercise the same as though it were not the Agent and the term "Lender" or "Lenders" shall, unless otherwise expressly indicated or unless the context otherwise requires, include the Person serving as the Agent hereunder in its individual capacity. Such Person and its Affiliates may accept deposits from, lend money to, act as the financial advisor or in any other advisory capacity for and generally engage in any kind of business with the Borrower or any Subsidiary or other Affiliate thereof as if such Person were not the Agent hereunder and without any duty to account therefor to the Lenders.

(b) Each Lender understands that the Person serving as Agent, acting in its individual capacity, and its Affiliates (collectively, the "Agent's Group") are engaged in a wide range of financial services and businesses (including investment management, financing, securities trading, corporate and investment banking and research) (such services and businesses

are collectively referred to in this Section 11.2 as “Activities”) and may engage in the Activities with or on behalf of the Borrower or its respective Affiliates. Furthermore, the Agent’s Group may, in undertaking the Activities, engage in trading in financial products or undertake other investment businesses for its own account or on behalf of others (including the Borrower and its Affiliates and including holding, for its own account or on behalf of others, equity, debt and similar positions in the Borrower or its Affiliates), including trading in or holding long, short or derivative positions in securities, loans or other financial products of the Borrower or its Affiliates. Each Lender understands and agrees that in engaging in the Activities, the Agent’s Group may receive or otherwise obtain information concerning the Borrower or its Affiliates (including information concerning the ability of the Borrower to perform its respective Obligations hereunder and under the other Loan Documents) which information may not be available to any of the Lenders that are not members of the Agent’s Group. None of the Agent nor any member of the Agent’s Group shall have any duty to disclose to any Lender or use on behalf of the Lenders, and shall not be liable for the failure to so disclose or use, any information whatsoever about or derived from the Activities or otherwise (including any information concerning the business, prospects, operations, property, financial and other condition or creditworthiness of the Borrower or any of its Affiliates) or to account for any revenue or profits obtained in connection with the Activities, except that the Agent shall deliver or otherwise make available to each Lender such documents as are expressly required by any Loan Document to be transmitted by the Agent to the Lenders.

(c) Each Lender further understands that there may be situations where members of the Agent’s Group or their respective customers (including the Borrower and its Affiliates) either now have or may in the future have interests or take actions that may conflict with the interests of any one or more of the Lenders (including the interests of the Lenders hereunder and under the other Loan Documents). Each Lender agrees that no member of the Agent’s Group is or shall be required to restrict its activities as a result of the Person serving as Agent being a member of the Agent’s Group, and that each member of the Agent’s Group may undertake any Activities without further consultation with or notification to any Lender party. None of (i) this Agreement nor any other Loan Document, (ii) the receipt by the Agent’s Group of information concerning the Borrower or its Affiliates (including information concerning the ability of the Borrower to perform its Obligations hereunder and under the other Loan Documents) nor (iii) any other matter shall give rise to any fiduciary, equitable or contractual duties (including without limitation any duty of trust or confidence) owing by the Agent or any member of the Agent’s Group to any Lender including any such duty that would prevent or restrict the Agent’s Group from acting on behalf of customers (including the Borrower or its Affiliates) or for its own account.

(d) If the Agent notifies a Lender or any Person who has received funds on behalf of a Lender (any such Lender or other recipient, a “Payment Recipient”) that the Agent has determined in its sole discretion (whether or not after receipt of any notice under immediately succeeding clause (e)) that any funds received by such Payment Recipient from the Agent or any of its Affiliates were erroneously transmitted to, or otherwise erroneously or mistakenly received by, such Payment Recipient (whether or not known to such Lender or other Payment Recipient on its behalf) (any such funds, whether received as a payment, prepayment or repayment of principal, interest, fees, distribution or otherwise, individually and collectively,

an "Erroneous Payment") and demands the return of such Erroneous Payment (or a portion thereof), such Erroneous Payment shall at all times remain the property of the Agent and shall be segregated by the Payment Recipient and held in trust for the benefit of the Agent, and such Lender shall (or, with respect to any Payment Recipient who received such funds on its behalf, shall cause such Payment Recipient to) promptly, but in no event later than two Business Days thereafter, return to the Agent the amount of any such Erroneous Payment (or portion thereof) as to which such a demand was made, in same day funds (in the currency so received), together with interest thereon in respect of each day from and including the date such Erroneous Payment (or portion thereof) was received by such Payment Recipient to the date such amount is repaid to the Agent in same day funds at the greater of the Federal Funds Rate and a rate determined by the Agent in accordance with banking industry rules on interbank compensation from time to time in effect. A notice of the Agent to any Payment Recipient under this clause (d) shall be conclusive, absent manifest error.

(e) Without limiting immediately preceding clause (d), each Lender or any Person who has received funds on behalf of a Lender hereby further agrees that if it receives a payment, prepayment or repayment (whether received as a payment, prepayment or repayment of principal, interest, fees, distribution or otherwise) from the Agent (or any of its Affiliates) (x) that is in a different amount than, or on a different date from, that specified in a notice of payment, prepayment or repayment sent by the Agent (or any of its Affiliates) with respect to such payment, prepayment or repayment, (y) that was not preceded or accompanied by a notice of payment, prepayment or repayment sent by the Agent (or any of its Affiliates), or (z) that such Lender or other such recipient, otherwise becomes aware was transmitted, or received, in error or by mistake (in whole or in part) in each case:

- (i) (A) in the case of immediately preceding clauses (x) or (y), an error shall be presumed to have been made (absent written confirmation from the Agent to the contrary) or (B) an error has been made (in the case of immediately preceding clause (z)), in each case, with respect to such payment, prepayment or repayment; and
- (ii) such Lender shall (and shall cause any other recipient that receives funds on its respective behalf to) promptly (and, in all events, within one Business Day of its knowledge of such error) notify the Agent of its receipt of such payment, prepayment or repayment, the details thereof (in reasonable detail) and that it is so notifying the Agent pursuant to this Section 11.2(e).

(f) Each Lender hereby authorizes the Agent to set off, net and apply any and all amounts at any time owing to such Lender under any Loan Document, or otherwise payable or distributable by the Agent to such Lender from any source, against any amount due to the Agent under immediately preceding clause (d) or under the indemnification provisions of this Agreement.

(g) In the event that an Erroneous Payment (or portion thereof) is not recovered by the Agent for any reason, after demand therefor by the Agent in accordance with immediately preceding clause (d), from any Lender that has received such Erroneous Payment (or portion thereof) (and/or from any Payment Recipient who received such Erroneous Payment (or portion thereof) on its respective behalf) (such unrecovered amount, an "Erroneous Payment Return Deficiency"), upon the Agent's notice to such Lender at any time, (i) such Lender shall be deemed to have assigned its Loans (but not its Commitments) with respect to which such Erroneous Payment was made (the "Erroneous Payment Impacted Class") in an amount equal to the Erroneous Payment Return Deficiency (or such lesser amount as the Agent may specify) (such assignment of the Loans (but not Commitments) of the Erroneous Payment Impacted Class, the "Erroneous Payment Deficiency Assignment") at par plus any accrued and unpaid interest (with the assignment fee to be waived by the Agent in such instance), and is hereby (together with the Borrower) deemed to execute and deliver an Assignment and Acceptance (or, to the extent applicable, an agreement incorporating an Assignment and Acceptance by reference pursuant to the Platform as to which the Agent and such parties are participants) with respect to such Erroneous Payment Deficiency Assignment, and such Lender shall deliver any Notes evidencing such Loans to the Borrower or the Agent, (ii) the Agent as the assignee Lender shall be deemed to acquire the Erroneous Payment Deficiency Assignment, (iii) upon such deemed acquisition, the Agent as the assignee Lender shall become a Lender hereunder with respect to such Erroneous Payment Deficiency Assignment and the assigning Lender shall cease to be a Lender hereunder with respect to such Erroneous Payment Deficiency Assignment, excluding, for the avoidance of doubt, its obligations under the indemnification provisions of this Agreement and its applicable Commitments which shall survive as to such assigning Lender and (iv) the Agent may reflect in the Register its ownership interest in the Loans subject to the Erroneous Payment Deficiency Assignment. The Agent may, in its discretion, sell any Loans acquired pursuant to an Erroneous Payment Deficiency Assignment and upon receipt of the proceeds of such sale, the Erroneous Payment Return Deficiency owing by the applicable Lender shall be reduced by the net proceeds of the sale of such Loan (or portion thereof), and the Agent shall retain all other rights, remedies and claims against such Lender (and/or against any recipient that receives funds on its respective behalf). For the avoidance of doubt, no Erroneous Payment Deficiency Assignment will reduce the Commitments of any Lender and such Commitments shall remain available in accordance with the terms of this Agreement. In addition, each party hereto agrees that, except to the extent that the Agent has sold a Loan (or portion thereof) acquired pursuant to an Erroneous Payment Deficiency Assignment, and irrespective of whether the Agent may be equitably subrogated, the Agent shall be contractually subrogated to all the rights and interests of the applicable Lender under the Loan Documents with respect to each Erroneous Payment Return Deficiency (the "Erroneous Payment Subrogation Rights").

(h) The parties hereto agree that an Erroneous Payment shall not pay, prepay, repay, discharge or otherwise satisfy any Obligations owed by the Borrower or any other Credit Party, except, in each case, to the extent such Erroneous Payment is, and solely with respect to the amount of such Erroneous Payment that is, comprised of funds received by the Agent from the Borrower or any other Credit Party for the purpose of making such Erroneous Payment.

(i) To the extent permitted by applicable law, no Payment Recipient shall assert any right or claim to an Erroneous Payment, and hereby waives, and is deemed to waive, any claim, counterclaim, defense or right of set-off or recoupment with respect to any demand, claim or counterclaim by the Agent for the return of any Erroneous Payment received, including without limitation waiver of any defense based on “discharge for value” or any similar doctrine

(j) Each party’s obligations, agreements and waivers under this Section 11.2(j) shall survive the resignation or replacement of the Agent, any transfer of rights or obligations by, or the replacement of, a Lender, the termination of the Commitments and/or the repayment, satisfaction or discharge of all Obligations (or any portion thereof) under any Loan Document.

### 11.3. Duties of Agent; Exculpatory Provisions.

(a) The Agent’s duties hereunder and under the other Loan Documents are solely ministerial and administrative in nature and the Agent shall not have any duties or obligations except those expressly set forth herein and in the other Loan Documents. Without limiting the generality of the foregoing, the Agent shall not have any duty to take any discretionary action or exercise any discretionary powers, but shall be required to act or refrain from acting (and shall be fully protected in so acting or refraining from acting) upon the written direction of the Required Lenders (or such other number or percentage of the Lenders as shall be expressly provided for herein or in the other Loan Documents), provided that the Agent shall not be required to take any action that, in its opinion or the opinion of its counsel, may expose the Agent or any of its Affiliates to liability or that is contrary to any Loan Document or applicable law.

(b) The Agent shall not be liable for any action taken or not taken by it (i) with the consent or at the request of the Required Lenders (or such other number or percentage of the Lenders as shall be necessary, or as the Agent shall believe in good faith shall be necessary, under the circumstances as provided in Article X or (ii) in the absence of its own gross negligence or willful misconduct. The Agent shall be deemed not to have knowledge of any Default or the event or events that give or may give rise to any Default unless and until the Borrower or any Lender shall have given notice to the Agent describing such Default and such event or events.

(c) Neither the Agent nor any member of the Agent’s Group shall be responsible for or have any duty to ascertain or inquire into (i) any statement, warranty, representation or other information made or supplied in or in connection with this Agreement or any other Loan Document, (ii) the contents of any certificate, report or other document delivered hereunder or thereunder or in connection herewith or therewith or the adequacy, accuracy and/or completeness of the information contained therein, (iii) the performance or observance of any of the covenants, agreements or other terms or conditions set forth herein or therein or the occurrence of any Default, (iv) the validity, enforceability, effectiveness or genuineness of this Agreement or any other Loan Document or (v) the satisfaction of any condition set forth in Article VI or elsewhere herein, other than (but subject to the foregoing clause (ii)) to confirm receipt of items expressly required to be delivered to the Agent.

(d) Nothing in this Agreement or any other Loan Document shall require the Agent or any of its Affiliates or representatives to carry out any “know your customer” or other checks in relation to any person on behalf of any Lender and each Lender confirms to the Agent that it is solely responsible for any such checks it is required to carry out and that it may not rely on any statement in relation to such checks made by the Agent or any of its Affiliates or representatives.

(e) In connection with all aspects of each transaction contemplated hereby (including in connection with any amendment, waiver or other modification hereof or of any other Loan Document), the Borrower acknowledges and agrees, and acknowledges its Affiliates’ understanding, that, (i) the Lenders each are and have each been acting solely as a principal and, except as expressly agreed in writing by the relevant parties, have not been, are not, and will not be acting as an advisor, agent or fiduciary for the Borrower or any of its Affiliates, or any other Person and (ii) the Lenders may have conflicting economic interests from time to time. To the fullest extent permitted by law, the Borrower hereby waives and releases any claims that it may have against the Lenders with respect to any breach or alleged breach of agency, advisory or fiduciary duty in connection with any aspect of any transaction contemplated hereby.

#### 11.4. Reliance by Agent.

The Agent shall be entitled to rely upon, and shall not incur any liability for relying upon, any notice, request, certificate, consent, statement, instrument, document or other writing (including any electronic message, Internet or intranet website posting or other distribution) believed by it to be genuine and to have been signed, sent or otherwise authenticated by the proper Person. The Agent also may rely upon any statement made to it orally or by telephone and believed by it to have been made by the proper Person, and shall not incur any liability for relying thereon. In determining compliance with any condition hereunder to the making of a Loan that by its terms must be fulfilled to the satisfaction of a Lender, the Agent may presume that such condition is satisfactory to such Lender unless an officer of the Agent responsible for the transactions contemplated hereby shall have received notice to the contrary from such Lender prior to the making of such Loan, and in the case of a borrowing, such Lender shall not have made available to the Agent such Lender’s ratable portion of such borrowing. The Agent may consult with legal counsel (who may be counsel for the Borrower), independent accountants and other experts selected by it, and shall not be liable for any action taken or not taken by it in accordance with the advice of any such counsel, accountants or experts.

#### 11.5. Indemnification.

The Lenders agree to indemnify the Agent (to the extent not reimbursed under Section 12.9 hereof, but without limiting the obligations of the Borrower under such Section) ratably in accordance with their respective Revolving Credit Commitments, for any and all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses (including reasonable attorneys’ fees), or disbursements of any kind and nature whatsoever that may be imposed on, incurred by or asserted against the Agent (including by any Lender) in any way relating to or arising out of any Loan Document or the transactions contemplated thereby or any action taken or omitted by the Agent under any Loan Document; provided that no Lender

shall be liable for any of the foregoing to the extent they arise from (x) the gross negligence or willful misconduct of the Person to be indemnified or (y) the failure by another Lender to comply with such other Lender's obligations under Sections 11.2(d) through 11.2(g). Without limitation of the foregoing, each Lender agrees to reimburse the Agent promptly upon demand for its ratable share of any costs or expenses payable by the Borrower under Section 12.5, to the extent that the Agent is not promptly reimbursed for such costs and expenses by the Borrower. The agreements contained in this Section 11.5 shall survive payment in full of the Loans and all other amounts payable under this Agreement.

#### 11.6. Delegation of Duties.

The Agent may perform any and all of its duties and exercise its rights and powers hereunder or under any other Loan Document by or through any one or more sub-agents appointed by the Agent. The Agent and any such sub-agent may perform any and all of its duties and exercise its rights and powers by or through their respective Related Parties. Each such sub-agent and the Related Parties of the Agent and each such sub-agent shall be entitled to the benefits of all provisions of this Article XI, Section 12.5 and Section 12.9 (as though such sub-agents were the "Agent" under the Loan Documents) as if set forth in full herein with respect thereto.

#### 11.7. Resignation of Agent.

(a) The Agent may at any time give notice of its resignation to the Lender and the Borrower. Upon receipt of any such notice of resignation, the Required Lenders shall have the right, in consultation with the Borrower, to appoint a successor, which shall be a bank with an office in New York, New York, or an Affiliate of any such bank with an office in New York, New York. If no such successor shall have been so appointed by the Required Lenders and shall have accepted such appointment within 30 days after the retiring Agent gives notice of its resignation (such 30-day period, the "Lender Appointment Period"), then the retiring Agent may on behalf of the Lender parties, appoint a successor Agent meeting the qualifications set forth above. The resignation of the retiring Agent shall not be effective until a successor Agent has been appointed; provided that, notwithstanding the foregoing, the retiring Agent may at any time upon or after the 60<sup>th</sup> day after the retiring Agent gives notice of its resignation notify the Borrower and the Lender parties that no qualifying Person has accepted appointment as successor Agent and the effective date of such retiring Agent's resignation which effective date shall be no earlier than three (3) Business Days after the date of such notice; provided further that the retiring Agent has no obligation to appoint, on behalf of the Lender parties, a successor Agent. Upon the resignation effective date the retiring Agent's resignation shall become effective and (i) the retiring Agent shall be discharged from its duties and obligations as Agent hereunder and under the other Loan Documents and (ii) all payments, communications and determinations provided to be made by, to or through the Agent shall instead be made by or to each Lender directly, until such time as the Required Lenders appoint a successor Agent as provided for above in this paragraph. Upon the acceptance of a successor's appointment as Agent hereunder, such successor shall succeed to and become vested with all of the rights, powers, privileges and duties as Agent of the retiring (or retired) Agent, and the retiring Agent shall be discharged from all of its duties and obligations as Agent hereunder or under the other Loan Documents (if not already discharged therefrom as provided above in this paragraph). The

fees payable by the Borrower to a successor Agent shall be the same as those payable to its predecessor unless otherwise agreed between the Borrower and such successor. After the retiring Agent's resignation hereunder and under the other Loan Documents, the provisions of this Article XI, Section 12.5 and Section 12.9 shall continue in effect for the benefit of such retiring Agent, its sub-agents and their respective Related Parties in respect of any actions taken or omitted to be taken by any of them while the retiring Agent was acting as Agent.

11.8. Non-Reliance on Agent and Other Lenders.

(a) Each Lender confirms to the Agent, each other Lender and each of their respective Related Parties that it (i) possesses (individually or through its Related Parties) such knowledge and experience in financial and business matters that it is capable, without reliance on the Agent, any other Lender or any of their respective Related Parties, of evaluating the merits and risks (including tax, legal, regulatory, credit, accounting and other financial matters) of (x) entering into this Agreement, (y) making Loans and other extensions of credit hereunder and under the other Loan Documents and (z) in taking or not taking actions hereunder and thereunder, (ii) is financially able to bear such risks and (iii) has determined that entering into this Agreement and making Loans and other extensions of credit hereunder and under the other Loan Documents is suitable and appropriate for it.

(b) Each Lender acknowledges that (i) it is solely responsible for making its own independent appraisal and investigation of all risks arising under or in connection with this Agreement and the other Loan Documents, (ii) that it has, independently and without reliance upon the Agent, any other Lender or any of their respective Related Parties, made its own appraisal and investigation of all risks associated with, and its own credit analysis and decision to enter into, this Agreement based on such documents and information, as it has deemed appropriate and (iii) it will, independently and without reliance upon the Agent, any other Lender or any of their respective Related Parties, continue to be solely responsible for making its own appraisal and investigation of all risks arising under or in connection with, and its own credit analysis and decision to take or not take action under, this Agreement and the other Loan Documents based on such documents and information as it shall from time to time deem appropriate, which may include, in each case:

(i) the financial condition, status and capitalization of the Borrower;

(ii) the legality, validity, effectiveness, adequacy or enforceability of this Agreement and each other Loan Document and any other agreement, arrangement or document entered into, made or executed in anticipation of, under or in connection with any Loan Document;

(iii) determining compliance or non-compliance with any condition hereunder to the making of a Loan and the form and substance of all evidence delivered in connection with establishing the satisfaction of each such condition; and

(iv) the adequacy, accuracy and/or completeness of the information delivered by the Agent, any other Lender or by any of their respective Related Parties under or in connection with this Agreement or any other Loan Document, the transactions

contemplated hereby and thereby or any other agreement, arrangement or document entered into, made or executed in anticipation of, under or in connection with any Loan Document.

11.9. Withholding.

To the extent required by any applicable Law, the Agent may withhold from any payment to any Lender an amount equal to any applicable withholding Tax. If the IRS or any other Governmental Authority asserts a claim that the Agent did not properly withhold Tax from any amount paid to or for the account of any Lender for any reason (including because the appropriate form was not delivered or was not properly executed, or because such Lender failed to notify the Agent of a change in circumstances that rendered the exemption from, or reduction of, withholding Tax ineffective), such Lender shall indemnify and hold harmless the Agent (to the extent that the Agent has not already been reimbursed by a Credit Party and without limiting or expanding the obligation of the Credit Parties to do so) for all amounts paid, directly or indirectly, by the Agent as Tax or otherwise, including any penalties, additions to Tax or interest thereon, together with all expenses incurred, including legal expenses and any out-of-pocket expenses, whether or not such Tax was correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate as to the amount of such payment or liability delivered to any Lender by the Agent shall be conclusive absent manifest error. Each Lender hereby authorizes the Agent to set off and apply any and all amounts at any time owing to such Lender under this Agreement or any other Loan Document against any amount due to the Agent under this Article XI. The agreements in this Article XI shall survive the resignation and/or replacement of the Agent, any assignment of rights by, or the replacement of, a Lender, the termination of the Loans and the repayment, satisfaction or discharge of all obligations under this Agreement. Unless required by applicable Laws, at no time shall the Agent have any obligation to file for or otherwise pursue on behalf of a Lender any refund of Taxes withheld or deducted from funds paid for the account of such Lender.

11.10. No Other Duties, Etc.

Anything herein to the contrary notwithstanding, none of the Persons acting as Joint Lead Arrangers shall have any powers, duties or responsibilities under this Agreement or any of the other Loan Documents, except in its capacity, as applicable, as the Agent or as a Lender hereunder.

11.11. Fees.

The Borrower agrees to pay to the Agent, for its individual account, an Agent's fee as from time to time agreed to by the Borrower and the Agent in writing.

11.12. Certain ERISA Matters.

(a) Each Lender (x) represents and warrants, as of the date such Person became a Lender party hereto, to, and (y) covenants, from the date such Person became a Lender party hereto to the date such Person ceases being a Lender party hereto, for the benefit of, the Agent and not, for

the avoidance of doubt, to or for the benefit of the Borrower or any other Credit Party, that at least one of the following is and will be true:

(i) such Lender is not using “plan assets” (within the meaning of Section 3(42) of ERISA or otherwise) of one or more Benefit Plans with respect to such Lender’s entrance into, participation in, administration of and performance of the Loans, the Total Revolving Credit Commitment or this Agreement,

(ii) the transaction exemption set forth in one or more PTEs, such as PTE 84-14 (a class exemption for certain transactions determined by independent qualified professional asset managers), PTE 95-60 (a class exemption for certain transactions involving insurance company general accounts), PTE 90-1 (a class exemption for certain transactions involving insurance company pooled separate accounts), PTE 91-38 (a class exemption for certain transactions involving bank collective investment funds) or PTE 96-23 (a class exemption for certain transactions determined by in-house asset managers), is applicable with respect to such Lender’s entrance into, participation in, administration of and performance of the Loans, the Total Revolving Credit Commitment and this Agreement,

(iii) (A) such Lender is an investment fund managed by a “Qualified Professional Asset Manager” (within the meaning of Part VI of PTE 84-14), (B) such Qualified Professional Asset Manager made the investment decision on behalf of such Lender to enter into, participate in, administer and perform the Loans, the Commitments and this Agreement, (C) the entrance into, participation in, administration of and performance of the Loans, the Total Revolving Credit Commitment and this Agreement satisfies the requirements of sub-sections (b) through (g) of Part I of PTE 84-14 and (D) to the best knowledge of such Lender, the requirements of subsection (a) of Part I of PTE 84-14 are satisfied with respect to such Lender’s entrance into, participation in, administration of and performance of the Loans, the Total Revolving Credit Commitment and this Agreement, or

(iv) such other representation, warranty and covenant as may be agreed in writing between the Agent, in its sole discretion, and such Lender.

(b) In addition, unless either (1) sub-clause (i) in the immediately preceding clause (a) is true with respect to a Lender or (2) a Lender has provided another representation, warranty and covenant in accordance with sub-clause (iv) in the immediately preceding clause (a), such Lender further (x) represents and warrants, as of the date such Person became a Lender party hereto, to, and (y) covenants, from the date such Person became a Lender party hereto to the date such Person ceases being a Lender party hereto, for the benefit of, the Agent and not, for the avoidance of doubt, to or for the benefit of the Borrower or any other Credit Party, that the Agent is not a fiduciary with respect to the assets of such Lender involved in such Lender’s entrance into, participation in, administration of and performance of the Loans, the Total Revolving Credit Commitment and this Agreement (including in connection with the reservation or exercise of any rights by the Agent under this Agreement, any Loan Document or any documents related hereto or thereto).

## ARTICLE XII

### MISCELLANEOUS

#### 12.1. Assignments and Participations.

(a) Each Lender may assign to one or more Eligible Assignees all or a portion of its rights and obligations under this Agreement (including, without limitation, all or a portion of its Loans, its Note and its Revolving Credit Commitment); provided, however, that:

(i) each such assignment shall be to an Eligible Assignee;

(ii) except in the case of an assignment to another Lender (or an Affiliate of a Lender) or an assignment of all of a Lender's rights and obligations under this Agreement, any such partial assignment shall be in an amount at least equal to \$5,000,000 or an integral multiple of \$1,000,000 in excess thereof;

(iii) each such assignment by a Lender shall be of a constant, and not varying, percentage of all of its rights and obligations under this Agreement;

(iv) the parties to such assignment shall execute and deliver to the Agent for its acceptance an Assignment and Acceptance in the form of Exhibit B hereto, together with any Note subject to such assignment and a processing fee of \$3,500 (which amount shall not be payable by the Borrower);

(v) except in the case of an assignment to another Lender (or an Affiliate of a Lender) (but subject to the other requirements of this clause (a)), any assignment of all or any portion of the Revolving Credit Commitment shall require the consent of the Agent and, unless a Default or Event of Default has occurred and is continuing, an Authorized Representative, such consent in each case not to be unreasonably withheld or delayed;

(vi) no such assignment shall be made to a natural person; and

(vii) the Borrower shall not incur any greater expense or liabilities (including without limitation, indemnities and increased costs) than it would have incurred had such assignment not taken place.

Upon execution, delivery, and acceptance of such Assignment and Acceptance, the assignee thereunder shall be a party hereto and, to the extent of such assignment, have the obligations, rights, and benefits of a Lender hereunder and the assigning Lender shall, to the extent of such assignment, relinquish its rights (except for indemnification rights which survive termination of this Agreement) and be released from its obligations under this Agreement. Upon the consummation of any assignment pursuant to this Section, the assignor, the Agent and the Borrower shall make appropriate arrangements so that, if required, new Notes are issued to the assignor and the assignee. The assignee shall deliver to the Borrower and the Agent certifications as to the exemption from deduction or withholding of Taxes in accordance with Section 5.6.

(b) The Agent, acting solely for this purpose as an agent of the Borrower, shall maintain at its address referred to in Section 12.2 a copy of each Assignment and Acceptance delivered to and accepted by it and a register for the recordation of the names and addresses of the Lenders and the Revolving Credit Commitment of, and principal and interest amounts of the Loans owing to, each Lender from time to time (the "Register"). The entries in the Register shall be conclusive and binding for all purposes, absent manifest error, and the Borrower, the Agent and the Lenders shall treat each Person whose name is recorded in the Register as a Lender hereunder for all purposes of this Agreement. The Register shall be available for inspection by the Borrower or any Lender at any reasonable time and from time to time upon reasonable prior notice.

(c) Upon its receipt of an Assignment and Acceptance executed by the parties thereto, together with any Note subject to such assignment and payment of the processing fee, the Agent shall, if such Assignment and Acceptance has been completed and is in substantially the form of Exhibit B hereto, (i) accept such Assignment and Acceptance, (ii) record the information contained therein in the Register and (iii) give prompt notice thereof to the parties thereto.

(d) Each Lender may sell participations to one or more Persons that meets the criteria of an Eligible Assignee in all or a portion of its rights, obligations or rights and obligations under this Agreement (including all or a portion of its Revolving Credit Commitment or its Loans); provided, however, that (i) such Lender's obligations under this Agreement shall remain unchanged, (ii) such Lender shall remain solely responsible to the other parties hereto for the performance of such obligations, (iii) the participant shall be entitled to the benefit of the yield protection provisions contained in Article V and the right of set-off contained in Section 12.3, to the same extent as if it were a Lender and has acquired its interest by assignment pursuant to paragraph (a) of this Section 12.1, (iv) the Borrower shall not have any greater obligation to a participant than it would have had to such Lender in the absence of the existence of such participant except to the extent that any entitlement to a greater payment results from a change in any Requirement of Law arising after such participant became a participant and (v) the Borrower shall continue to deal solely and directly with such Lender in connection with such Lender's rights and obligations under this Agreement, and such Lender shall retain the sole right to enforce the obligations of the Borrower relating to its Loans and to approve any amendment, modification, or waiver of any provision of this Agreement (other than amendments, modifications, or waivers decreasing the amount of principal of or the rate at which interest or fees are payable on such Loans, extending any scheduled principal payment date or date fixed for the payment of interest on such Loans or increasing its Revolving Credit Commitment).

(e) Notwithstanding any other provision set forth in this Agreement, any Lender may at any time assign and pledge all or any portion of its Loans to secure obligations of such Lender, including any pledge or assignment to any Federal Reserve Bank as collateral security pursuant to Regulation A and any Operating Circular issued by such Federal Reserve Bank. No such assignment shall release the assigning Lender from its obligations hereunder.

(f) Any Lender may furnish any information concerning the Borrower or any of its Subsidiaries in the possession of such Lender from time to time to assignees and

participants (including prospective assignees and participants), subject, however, to the provisions of Section 12.15.

12.2. Notices.

All notices, requests and demands to or upon the respective parties hereto to be effective shall be in writing (including by facsimile), and, unless otherwise expressly provided herein, shall be deemed to have been duly given or made when delivered, or three Business Days after being deposited in the mail, postage prepaid by certified or registered mail, return receipt requested, or, in the case of telecopy notice, when received, addressed as follows in the case of the Borrower and the Agent, and as set forth in an administrative questionnaire delivered to the Agent in the case of the Lenders, or to such other address as may be hereafter notified by the respective parties hereto

Each Credit Party further agrees that the Agent may make communications available to the Lenders by posting such communications on SyndTrak or a substantially similar secure electronic transmission system (the "Platform"). The Platform is provided "as is" and "as available." The Agent does not warrant the accuracy or completeness of the communications, or the adequacy of the Platform and expressly disclaim liability for errors or omissions in the communications. No warranty of any kind, express, implied or statutory, including, without limitation, any warranty of merchantability, fitness for a particular purpose, non-infringement of third party rights or freedom from viruses or other code defects, is made by the Agent in connection with the communications or the Platform. In no event shall the Agent or any of its Related Parties have any liability to any Credit Party, any Lender or any other person for damages of any kind, including direct or indirect, special, incidental or consequential damages, losses or expenses (whether in tort, contract or otherwise) arising out of any Credit Party's or the

Agent's transmission of communications through the Internet, except to the extent the liability of such person is found in a final non-appealable judgment by a court of competent jurisdiction to have resulted from such person's gross negligence or willful misconduct.

#### 12.3. Right of Set-off; Adjustments.

(a) Upon the occurrence and during the continuance of any Event of Default, each Lender (and each of its affiliates) is hereby authorized at any time and from time to time, to the fullest extent permitted by law, to set off and apply any and all deposits (general or special, time or demand, provisional or final) at any time held and other indebtedness at any time owing by such Lender (or any of its affiliates) to or for the credit or the account of the Borrower against any and all of the obligations of the Borrower now or hereafter existing under this Agreement and the Note held by such Lender, irrespective of whether such Lender shall have made any demand under this Agreement or such Note and although such obligations may be unmatured. Each Lender agrees promptly to notify the Borrower and Agent after any such set-off and application made by such Lender; provided, however, that the failure to give such notice shall not affect the validity of such set-off and application. The rights of each Lender under this Section 12.3 are in addition to other rights and remedies (including, without limitation, other rights of set-off) that such Lender may have.

(b) If any Lender (a "benefited Lender") shall at any time receive any payment of all or part of the Loans owing to it, or interest thereon, or receive any collateral in respect thereof (whether voluntarily or involuntarily, by set-off, or otherwise), in a greater proportion than any such payment to or collateral received by any other Lender, if any, in respect of such other Lender's Loans owing to it, or interest thereon, such benefited Lender shall purchase for cash from the other Lenders a participating interest in such portion of each such other Lender's Loans owing to it, or shall provide such other Lenders with the benefits of any such collateral, or the proceeds thereof, as shall be necessary to cause such benefited Lender to share the excess payment or benefits of such collateral or proceeds ratably with each of the Lenders; provided, however, that if all or any portion of such excess payment or benefits is thereafter recovered from such benefited Lender, such purchase shall be rescinded, and the purchase price and benefits returned, to the extent of such recovery, but without interest. Each Borrower agrees that any Lender so purchasing a participation from a Lender pursuant to this Section 12.3 may, to the fullest extent permitted by law, exercise all of its rights of payment (including the right of set-off) with respect to such participation as fully as if such Person were the direct creditor of the Borrower in the amount of such participation.

#### 12.4. Survival.

All covenants, agreements, representations and warranties made herein shall survive the making by the Lenders of the Loans and the execution and delivery to the Lenders of this Agreement and any Notes and shall continue in full force and effect so long as any of Obligations remain outstanding or any Lender has any Loan hereunder or the Borrower has continuing obligations hereunder unless otherwise provided herein. Whenever in this Agreement any of the parties hereto is referred to, such reference shall be deemed to include the successors and permitted assigns of such party and all covenants, provisions and agreements by or on behalf

of the Borrower which are contained in the Loan Documents shall inure to the benefit of the successors and permitted assigns of the Lenders or any of them.

#### 12.5. Expenses.

The Borrower agrees to pay on demand (subject, in the case of preparation, execution, delivery and administration costs, to the fees separately agreed to by the Borrower and the Agent), all reasonable costs and expenses of the Agent in connection with the preparation, execution, delivery, administration, modification, and amendment of this Agreement, the other Loan Documents and the other documents to be delivered hereunder, including, without limitation, the reasonable fees and expenses of counsel for the Agent (excluding the cost of internal counsel) with respect thereto and with respect to advising the Agent as to its rights and responsibilities under the Loan Documents. The Borrower further agrees to pay on demand all costs and expenses of the Agent and the Lenders, if any (including, without limitation, reasonable external attorneys' fees and expenses), in connection with the enforcement (whether through negotiations, legal proceedings, or otherwise) of the Loan Documents and the other documents to be delivered hereunder.

#### 12.6. Amendments and Waivers.

Neither this Agreement, any other Loan Document, nor any terms hereof or thereof may be amended, supplemented or modified except in accordance with the provisions of this Section 12.6. The Required Lenders and the Borrower may, or, with the written consent of the Required Lenders, the Agent and the Borrower may, from time to time, (a) enter into written amendments, supplements or modifications hereto and to the other Loan Documents for the purpose of adding any provisions to this Agreement or the other Loan Documents or changing in any manner the rights of the Lenders or the Borrower hereunder or thereunder or (b) waive, on such terms and conditions as the Required Lenders or the Agent, as the case may be, may specify in such instrument, any of the requirements of this Agreement or the other Loan Documents or any Default or Event of Default and its consequences; provided, however, that no such waiver and no such amendment, supplement or modification shall (i) forgive or reduce the principal amount or extend the final scheduled date of maturity of any Loan, reduce the stated rate of any interest or fee payable hereunder (except that any amendment or modification of defined terms used in the financial covenants in this Agreement shall not constitute a reduction in the rate of interest or fees for purposes of this clause (i)) or extend the scheduled date of any payment thereof, or increase the amount or extend the expiration date of any Lender's Revolving Credit Commitment, in each case without the written consent of each Lender directly affected thereby; (ii) eliminate or reduce the voting rights of any Lender under this Section 12.6 without the written consent of such Lender; (iii) reduce any percentage specified in the definition of Required Lenders, consent to the assignment or transfer by the Borrower of any of its rights and obligations under this Agreement and the other Loan Documents without the written consent of all Lenders; (iv) amend, modify or waive any provision of Article XI without the written consent of the Agent; (v) amend or modify the definition of "Required Lenders" without the written consent of all Lenders or (vi) amend, modify or waive any provision of Section 2.6, Section 10.5, Section 12.3(b) or this Section 12.6 without the written consent of all Lenders. Any such waiver and any such amendment, supplement or modification shall apply equally to each of the Lenders and shall be binding upon the Borrower, the Lenders, the Agent and all future holders of the

Loans. In the case of any waiver, the Borrower, the Lenders and the Agent shall be restored to their former position and rights hereunder and under the other Loan Documents, and any Default or Event of Default waived shall be deemed to be cured and not continuing; but no such waiver shall extend to any subsequent or other Default or Event of Default, or impair any right consequent thereon;

No notice to or demand on the Borrower in any case shall entitle the Borrower to any other or further notice or demand in similar or other circumstances, except as otherwise expressly provided herein. No delay or omission on any Lender's or the Agent's part in exercising any right, remedy or option shall operate as a waiver of such or any other right, remedy or option or of any Default or Event of Default.

12.7. Counterparts.

This Agreement may be executed in any number of counterparts, each of which when so executed and delivered shall be deemed an original, and it shall not be necessary in making proof of this Agreement to produce or account for more than one such fully executed counterpart.

12.8. Return of Funds.

If after receipt of any payment of all or any part of the Obligations, any Lender is for any reason compelled to surrender such payment to any Person because such payment is determined to be void or voidable as a preference, impermissible setoff, a diversion of trust funds or for any other reason, this Agreement shall continue in full force and the Borrower shall be liable to, and shall indemnify and hold the Agent or such Lender harmless for, the amount of such payment surrendered until the Agent or such Lender shall have been finally and irrevocably paid in full. The provisions of the foregoing sentence shall be and remain effective notwithstanding any contrary action which may have been taken by the Agent or the Lenders in reliance upon such payment, and any such contrary action so taken shall be without prejudice to the Agent or the Lenders' rights under this Agreement and shall be deemed to have been conditioned upon such payment having become final and irrevocable.

12.9. Indemnification; Limitation of Liability.

(a) The Borrower agrees to indemnify and hold harmless the Agent and each Lender and each of their affiliates and their respective officers, directors, employees, agents, and advisors (each, an "Indemnified Party") from and against any and all claims, damages, losses, liabilities, costs, and expenses (including, without limitation, reasonable external attorneys' fees, but excluding principal and accrued interest on any Loan) that may be incurred by or asserted or awarded against any Indemnified Party, in each case arising out of or in connection with or by reason of (including, without limitation, in connection with any investigation, litigation, or proceeding or preparation of defense in connection therewith) the Loan Documents, any of the transactions contemplated herein, or the actual or proposed use of the proceeds of the Loans, except to the extent such claim, damage, loss, liability, cost, or expense is found in a final, non-appealable judgment by a court of competent jurisdiction to have resulted from such Indemnified Party's gross negligence or willful misconduct. In the case of an investigation,

litigation or other proceeding to which the indemnity in this Section 12.9 applies, such indemnity shall be effective whether or not such investigation, litigation or proceeding is brought by the Borrower, its directors, shareholders or creditors or an Indemnified Party or any other Person or any Indemnified Party is otherwise a party thereto and whether or not the transactions contemplated hereby are consummated.

(b) The Borrower agrees that none of the Agent, any Lender nor any of their respective affiliates nor their respective officers, directors, employees, agents, and advisors (each a "Lender Related Party") shall have any liability (whether direct or indirect, in contract or tort or otherwise) to it, any of its Subsidiaries or any security holders or creditors thereof arising out of, related to or in connection with the transactions contemplated in any Loan Document, except to the extent that such liability directly results from such Lender Related Party's gross negligence or willful misconduct (as determined in a final, non-appealable judgment by a court of competent jurisdiction). The Borrower agrees not to assert any claim against the Agent, any Lender, any of their affiliates, or any of their respective directors, officers, employees, attorneys, agents, and advisers, on any theory of liability, for special, indirect, consequential, or punitive damages arising out of or otherwise relating to the Loan Documents, any of the transactions contemplated herein or the actual or proposed use of the proceeds of the Loans.

(c) Without prejudice to the survival of any other agreement of the Borrower hereunder, the agreements and obligations of the Borrower contained in this Section 12.9 shall survive the payment in full of the Loans and all other amounts payable under this Agreement.

#### 12.10. Severability.

If any provision of this Agreement or the other Loan Documents shall be determined to be illegal or invalid as to one or more of the parties hereto, then such provision shall remain in effect with respect to all parties, if any, as to whom such provision is neither illegal nor invalid, and in any event all other provisions hereof shall remain effective and binding on the parties hereto.

#### 12.11. Entire Agreement.

This Agreement together with the other Loan Documents, constitutes the entire agreement among the parties with respect to the subject matter hereof and supersedes all previous proposals, negotiations, representations, and other communications between or among the parties, both oral and written, with respect thereto.

#### 12.12. Payments.

All principal, interest, and other amounts to be paid by the Borrower under this Agreement and the other Loan Documents shall be paid to the Agent at the Principal Office in Dollars and in immediately available funds, without setoff, deduction or counterclaim. Subject to the definition of "Interest Period" herein, whenever any payment under this Agreement or any other Loan Document shall be stated to be due on a day that is not a Business Day, such payment may be made on the next succeeding Business Day, and such extension of time in such case shall be included in the computation of interest and fees, as applicable, and as the case may be.

#### 12.13. Confidentiality.

The Agent and each Lender (each, a “Lending Party”) agrees to keep confidential any information furnished or made available to it by the Borrower or any Affiliate thereof, pursuant to or in connection with this Agreement or the other Loan Documents; provided that nothing herein shall prevent any Lending Party from disclosing such information (a) to any other Lending Party or any affiliate of any Lending Party, or any officer, director, employee, agent, or advisor of any Lending Party or affiliate or any Lending Party, (b) to any other Person if reasonably incidental to the administration of the credit facility provided herein, (c) as required by any law, rule, or regulation, (d) upon the order of any court or administrative agency, (e) upon the request or demand of any regulatory agency or authority or self-regulatory body, (f) that is or becomes available to the public or that is or becomes available to any Lending Party other than as a result of a disclosure by any Lending Party prohibited by this Agreement, (g) in connection with any litigation to which such Lending Party or any of its affiliates may be a party, (h) to the extent necessary in connection with the exercise of any remedy under this Agreement or any other Loan Document, (i) to any direct, indirect, actual or prospective counterparty (and its advisor) to any swap, derivative or securitization transaction related to the obligations under this Agreement, (j) to any credit insurance provider relating to the Borrower and its Obligations, (k) to market data collectors and service providers to the extent necessary or customary for inclusion in league table measurements and (l) subject to provisions substantially similar to those contained in this Section, to any actual or proposed participant or assignee.

#### 12.14. Governing Law; Waiver of Jury Trial.

(a) THIS AGREEMENT AND ALL CLAIMS OR CAUSES OF ACTION (WHETHER IN CONTRACT OR TORT OR OTHERWISE) THAT MAY BE BASED UPON, ARISE OUT OF OR RELATE IN ANY WAY TO THIS AGREEMENT, OR THE NEGOTIATION, EXECUTION OR PERFORMANCE OF THIS AGREEMENT OR THE TRANSACTIONS CONTEMPLATED HEREBY, SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF NEW YORK, WITHOUT REGARD TO ANY PRINCIPLE OF CONFLICTS OF LAW THAT COULD REQUIRE THE APPLICATION OF ANY OTHER LAW.

(b) THE BORROWER HEREBY EXPRESSLY AND IRREVOCABLY SUBMITS FOR ITSELF AND ITS PROPERTY, TO THE EXCLUSIVE JURISDICTION OF ANY NEW YORK STATE COURT OR FEDERAL COURT OF THE UNITED STATES OF AMERICA SITTING IN THE BOROUGH OF MANHATTAN, AND ANY APPELLATE COURT FROM ANY THEREOF, IN ANY ACTION OR PROCEEDING ARISING OUT OF OR RELATING TO THIS AGREEMENT OR THE OTHER LOAN DOCUMENTS, AND THE BORROWER HEREBY IRREVOCABLY AND UNCONDITIONALLY AGREES THAT ALL CLAIMS IN RESPECT OF ANY SUCH ACTION OR PROCEEDING MAY BE HEARD AND DETERMINED IN SUCH NEW YORK STATE, OR, TO THE EXTENT PERMITTED BY LAW, IN SUCH FEDERAL COURT. BY THE EXECUTION AND DELIVERY OF THIS AGREEMENT, THE BORROWER EXPRESSLY WAIVES ANY OBJECTION THAT IT MAY NOW OR HEREAFTER HAVE TO THE LAYING OF VENUE IN, OR TO THE EXERCISE OF JURISDICTION OVER IT AND ITS PROPERTY BY, ANY SUCH COURT IN ANY

SUCH SUIT, ACTION OR PROCEEDING, THE BORROWER HEREBY IRREVOCABLY SUBMITS GENERALLY AND UNCONDITIONALLY TO THE JURISDICTION OF ANY SUCH COURT IN ANY SUCH SUIT, ACTION OR PROCEEDING.

(c) THE BORROWER HEREBY APPOINTS AIRCASTLE ADVISOR LLC AS ITS PROCESS AGENT HEREUNDER, AND AGREES THAT SERVICE OF PROCESS MAY BE MADE BY PERSONAL SERVICE OF A COPY OF THE SUMMONS AND COMPLAINT OR OTHER LEGAL PROCESS IN ANY SUCH SUIT, ACTION OR PROCEEDING, OR BY REGISTERED OR CERTIFIED MAIL (POSTAGE PREPAID) TO THE ADDRESS PROVIDED IN SECTION 12.2(a), OR BY ANY OTHER METHOD OF SERVICE PROVIDED FOR UNDER THE APPLICABLE LAWS IN EFFECT IN THE STATE OF NEW YORK.

(d) NOTHING CONTAINED IN SUBSECTION (a) OR (b) HEREOF SHALL PRECLUDE THE AGENT OR ANY LENDER FROM BRINGING ANY SUIT, ACTION OR PROCEEDING ARISING OUT OF OR RELATING TO ANY LOAN DOCUMENT IN THE COURTS OF ANY OTHER JURISDICTION. TO THE EXTENT PERMITTED BY THE APPLICABLE LAWS OF ANY SUCH JURISDICTION, THE BORROWER HEREBY IRREVOCABLY SUBMITS TO THE JURISDICTION OF ANY SUCH COURT AND EXPRESSLY WAIVES, IN RESPECT OF ANY SUCH SUIT, ACTION OR PROCEEDING, OBJECTION TO THE EXERCISE OF JURISDICTION OVER IT AND ITS PROPERTY BY ANY SUCH OTHER COURT OR COURTS WHICH NOW OR HEREAFTER MAY BE AVAILABLE UNDER APPLICABLE LAW.

(e) IN ANY ACTION OR PROCEEDING TO ENFORCE OR DEFEND ANY RIGHTS OR REMEDIES UNDER OR RELATED TO ANY LOAN DOCUMENT OR ANY AMENDMENT, INSTRUMENT, DOCUMENT OR AGREEMENT DELIVERED OR THAT MAY IN THE FUTURE BE DELIVERED IN CONNECTION THEREWITH, THE BORROWER, THE AGENT AND THE LENDERS HEREBY AGREE, TO THE EXTENT PERMITTED BY APPLICABLE LAW, THAT ANY SUCH ACTION OR PROCEEDING SHALL BE TRIED BEFORE A COURT AND NOT BEFORE A JURY AND HEREBY IRREVOCABLY WAIVE, TO THE EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT SUCH PERSON MAY HAVE TO TRIAL BY JURY IN ANY SUCH ACTION OR PROCEEDING.

12.15. Judgment Currency.

(a) To the extent permitted by applicable law, if for the purposes of obtaining judgment in any court it is necessary to convert a sum due hereunder in United States Dollars into another currency, the parties hereto agree, to the fullest extent that they may effectively do so, the rate of exchange used shall be that at which in accordance with normal banking procedures the Agent could purchase the first currency with such other currency on the Business Day preceding that on which final judgment is given.

(b) To the extent permitted by applicable law, the obligation of the Borrower in respect of any sum due in United States Dollars from it to any Lender or the Agent hereunder

shall, notwithstanding any judgment in a currency other than United States Dollars, be discharged only to the extent that on the Business Day following receipt by such Lender or the Agent (as the case may be) of any sum adjudged to be so due in such other currency, such Lender or the Agent (as the case may be) may in accordance with normal banking procedures purchase United States Dollars with such other currency; if the United States Dollars so purchased are less than such sum due to such Lender or the Agent (as the case may be) in United States Dollars, the Borrower agrees, to the extent permitted by applicable law, as a separate obligation and notwithstanding any such judgment, to indemnify such Lender or the Agent (as the case may be) against such loss, and if the United States Dollars so purchased exceed such sum due to any Lender or the Agent (as the case may be) in United States Dollars, such Lender or the Agent (as the case may be) agrees to remit to the Borrower such excess.

#### 12.16. USA PATRIOT Act.

Each Lender hereby notifies the Borrower that pursuant to the requirements of the USA Patriot Act (Title III of Pub. L. 107-56 (signed into law October 26, 2001)) (the "Act"), it is required to obtain, verify and record information that identifies the Borrower, which information includes the name and address of the Borrower and other information that will allow such Lender to identify the Borrower in accordance with the Act.

#### 12.17. Counterparts.

(a) This Agreement and each other Loan Document may be executed in one or more counterparts (and by different parties hereto in different counterparts), each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Delivery by telecopier or other electronic transmission of an executed counterpart of a signature page to this Agreement and each other Loan Document shall be effective as delivery of an original executed counterpart of this Agreement and such other Loan Document. The Agent may also require that any such documents and signatures delivered by telecopier or other electronic transmission be confirmed by a manually-signed original thereof; provided, that the failure to request or deliver the same shall not limit the effectiveness of any document or signature delivered by telecopier or other electronic transmission.

(b) The words "execution," "execute", "signed," "signature," and words of like import in or related to this Agreement and any document to be signed in connection with this Agreement and the transactions contemplated hereby shall be deemed to include electronic signatures, the electronic matching of assignment terms and contract formations on electronic platforms approved by the Agent, or the keeping of records in electronic form, each of which shall be of the same legal effect, validity or enforceability as a manually executed signature or the use of a paper-based recordkeeping system, as the case may be, to the extent and as provided for in any applicable law, including the Federal Electronic Signatures in Global and National Commerce Act, the New York State Electronic Signatures and Records Act, or any other similar state laws based on the Uniform Electronic Transactions Act; provided that (x) notwithstanding anything contained herein to the contrary the Agent is under no obligation to agree to accept electronic signatures in any form or in any format unless expressly agreed to by the Agent pursuant to procedures approved by it and (y) each party hereto shall use commercially reasonable efforts to promptly provide manually executed counterparts of its electronic

signatures if reasonably requested by any other party hereto. Without limiting the generality of the foregoing, the Borrower hereby (i) agrees that, for all purposes, including without limitation, in connection with any workout, restructuring, enforcement of remedies, bankruptcy proceedings or litigation among the Agent, the Lenders and the Borrower, electronic images of this Agreement or any other Loan Documents (in each case, including with respect to any signature pages thereto) shall have the same legal effect, validity and enforceability as any paper original, and (ii) waives any argument, defense or right to contest the validity or enforceability of the Loan Documents based solely on the lack of paper original copies of any Loan Documents, including with respect to any signature pages thereto. The Borrower assumes all risks arising out of the use of digital signatures and electronic methods to submit communications, including without limitation the risk of a Person acting on unauthorized instructions, and the risk of interception and misuse by third parties.

12.18. Acknowledgement and Consent to Bail-In of Affected Financial Institutions.

Notwithstanding anything to the contrary in any Loan Document or in any other agreement, arrangement or understanding among any such parties, each party hereto acknowledges that any liability of any Affected Financial Institution arising under any Loan Document may be subject to the Write-Down and Conversion Powers of the applicable Resolution Authority and agrees and consents to, and acknowledges and agrees to be bound by:

- (a) the application of any Write-Down and Conversion Powers by an applicable Resolution Authority to any such liabilities arising hereunder which may be payable to it by any Lender that is an Affected Financial Institution; and
- (b) the effects of any Bail-in Action on any such liability, including, if applicable:
  - (i) a reduction in full or in part or cancellation of any such liability;
  - (ii) a conversion of all, or a portion of, such liability into shares or other instruments of ownership in such Affected Financial Institution, its parent entity, or a bridge institution that may be issued to it or otherwise conferred on it, and that such shares or other instruments of ownership will be accepted by it in lieu of any rights with respect to any such liability under this Agreement or any other Loan Document; or
  - (iii) the variation of the terms of such liability in connection with the exercise of the Write-Down and Conversion Powers of the applicable Resolution Authority.

12.19. Acknowledgement Regarding Any Supported QFCs. To the extent that the Loan Documents provide support, through a guarantee or otherwise, for swap agreements or any other agreement or instrument that is a QFC (such support “QFC Credit Support” and each such QFC a “Supported QFC”), the parties acknowledge and agree as follows with respect to the resolution power of the Federal Deposit Insurance Corporation under the Federal Deposit Insurance Act and Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act (together with the regulations promulgated thereunder, the “U.S. Special Resolution Regimes”)

in respect of such Supported QFC and QFC Credit Support (with the provisions below applicable notwithstanding that the Loan Documents and any Supported QFC may in fact be stated to be governed by the laws of the State of New York and/or of the United States or any other state of the United States):

In the event a Covered Entity that is party to a Supported QFC (each, a “Covered Party”) becomes subject to a proceeding under a U.S. Special Resolution Regime, the transfer of such Supported QFC and the benefit of such QFC Credit Support (and any interest and obligation in or under such Supported QFC and such QFC Credit Support, and any rights in property securing such Supported QFC or such QFC Credit Support) from such Covered Party will be effective to the same extent as the transfer would be effective under the U.S. Special Resolution Regime if the Supported QFC and such QFC Credit Support (and any such interest, obligation and rights in property) were governed by the laws of the United States or a state of the United States. In the event a Covered Party or a BHC Act Affiliate of a Covered Party becomes subject to a proceeding under a U.S. Special Resolution Regime, Default Rights under the Loan Documents that might otherwise apply to such Supported QFC or any QFC Credit Support that may be exercised against such Covered Party are permitted to be exercised to no greater extent than such Default Rights could be exercised under the U.S. Special Resolution Regime if the Supported QFC and the Loan Documents were governed by the laws of the United States or a state of the United States. Without limitation of the foregoing, it is understood and agreed that rights and remedies of the parties with respect to a Defaulting Lender shall in no event affect the rights of any Covered Party with respect to a Supported QFC or any QFC Credit Support.

WHEREAS, reference is hereby made to that certain Sixth Amended and Restated Credit Agreement, dated as of April 26, 2021, as amended, restated, amended and restated or otherwise modified from time to time prior to the date hereof (the "Existing Credit Agreement"), among the Borrower, the Agent and each of the financial institutions from time to time party thereto as lenders (the "Lenders"). Capitalized terms used herein and not defined shall have the meanings set forth in the Existing Credit Agreement.

WHEREAS, the parties hereto desire to amend the Existing Credit Agreement to replace the Eurodollar Rate with a rate using Adjusted Term SOFR (as defined in Exhibit A) as a benchmark.

WHEREAS, pursuant to Section 2.7(b) of the Existing Credit Agreement and subject to the terms and conditions of the Existing Credit Agreement, the Borrower may increase the Total Revolving Credit Commitment by entering into one or more accession agreements with the Agent and Increasing Lender.

WHEREAS, on September 8, the Borrower delivered an Increased Commitment Notice to the Agent with respect to an aggregate principal amount of \$100,000,000 of Increased Commitments to be provided by the Increasing Lender on the date hereof.

WHEREAS, the Increasing Lender has agreed to make available the aggregate principal amount of \$100,000,000 of Increased Commitments as of the date hereof.

NOW, THEREFORE, in consideration of the foregoing, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto hereby agree as follows:

SECTION ONE. Amendments to Existing Credit Agreement to Replace Eurodollar Rate with SOFR-based Rate.

Notwithstanding anything to the contrary contained in the Existing Credit Agreement, the Existing Credit Agreement is hereby amended to delete the stricken text (indicated textually in the same manner as the following example: ~~stricken text~~) and to add the double-underlined text (indicated textually in the same manner as the following example: double-underlined text) as set forth in the pages attached hereto as Exhibit A. A copy of the Existing Credit Agreement is attached hereto as Exhibit A, and is marked, as described in the preceding sentence, to show the additions and deletions made to the Existing Credit Agreement on the Effective Date pursuant to this Amendment.

SECTION TWO. Agreements of Increasing Lenders.

Immediately after giving effect to the Amendments described in Section One, the Increasing Lender hereby commits to provide its Increased Commitment as set forth on Schedule

I(a) annexed hereto and, after giving effect to such Increased Commitments, will have total Commitments as set forth on Schedule I(b) annexed hereto. Such Increased Commitment shall be subject to the provisions of the Existing Credit Agreement and the other Loan Documents and shall constitute Total Revolving Commitments thereunder.

SECTION THREE. Conditions to Effectiveness. This Amendment Agreement shall become effective on September 8, 2022 (the "Effective Date") when, and only when, the following conditions have been satisfied:

(i) this Amendment Agreement shall have been executed and delivered by the Borrower, each Lender under the Existing Credit Agreement, the Increasing Lender and the Agent; and

(ii) the Agent shall have received (x) for the account of the Increasing Lender, an upfront fee equal to 0.2633% of the aggregate principal amount of such Increasing Lender's Increased Commitment and (y) all expenses for which reasonably detailed invoices have been presented (including the reasonable fees and expenses of a single legal counsel), on or before the Effective Date.

SECTION FOUR. Representations and Warranties. In order to induce each Lender, Increasing Lender and the Agent to enter into this Amendment Agreement, the Borrower represents and warrants to each Lender, Increasing Lender and the Agent that, as of the Effective Date, after giving effect to this Amendment Agreement and both before and after giving effect to the transactions contemplated by this Amendment Agreement:

(a) no Default or Event of Default has occurred and is continuing;

(b) the entry into this Amendment Agreement by the Borrower has been duly authorized by all necessary corporate or other action of each such entity; and

(c) each of the representations and warranties made by the Borrower in or pursuant to the Loan Documents is true and correct in all material respects (except to the extent any such representation or warranty is qualified by "materially," "Material Adverse Effect" or a similar term, in which case such representation and warranty shall be true and correct in all respects) on and as of the date hereof as if made on the date hereof (or, if any such representation or warranty is expressly stated to have been made as of a specific date, in all material respects as of such specific date).

SECTION FIVE. Reference to and Effect on the Loan Documents. On and after the Effective Date, each reference in the Existing Credit Agreement to "this Agreement," "hereunder," "hereof" or words of like import referring the Credit Agreement, and each reference in the Notes and each of the other Loan Documents to "the Credit Agreement," "thereunder," "thereof" or words of like import referring to the Existing Credit Agreement, shall mean and be a reference to the Credit Agreement, as amended by this Amendment Agreement, and this Amendment Agreement shall constitute a "Loan Document" for all purposes under the Credit Agreement. Each of the parties hereto confirms that the amendments to the Existing Credit Agreement pursuant to this Amendment Agreement shall not constitute a novation of the Existing Credit Agreement. The Credit Agreement, the Notes and each of the other Loan Documents, as specifically amended by this Amendment Agreement, are and shall continue to be in full force and

effect. The execution, delivery and effectiveness of this Amendment Agreement shall not, except as expressly provided herein, operate as a waiver of any right, power or remedy of any Lender or the Agent under any of the Loan Documents, nor constitute a waiver of any provision of any of the Loan Documents.

SECTION SIX. Costs, Expenses and Taxes. The Borrower agrees to pay all reasonable out-of-pocket expenses incurred by the Agent in connection with the preparation, execution and delivery of this Amendment Agreement and the other instruments and documents to be delivered hereunder, if any (including, without limitation, the reasonable fees, charges and disbursements of Cahill Gordon & Reindel LLP, counsel to the Agent) in accordance with the terms of Section 12.5 of the Credit Agreement.

SECTION SEVEN. Execution in Counterparts. This Amendment Agreement may be executed in counterparts (and by different parties hereto on different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. Delivery of an executed counterpart of a signature page of this Amendment by facsimile or in electronic (e.g., “pdf” or “tif”) format shall be effective as delivery of a manually executed counterpart of this Amendment. The words “execution,” “signed,” “signature,” and words of like import in this Amendment shall be deemed to include electronic signatures or electronic records, each of which shall be of the same legal effect, validity or enforceability as a manually executed signature or the use of a paper-based recordkeeping system, as the case may be, to the extent and as provided for in any applicable law, including the Federal Electronic Signatures in Global and National Commerce Act, the New York State Electronic Signatures and Records Act, or any other similar state laws based on the Uniform Electronic Transactions Act..

SECTION EIGHT. Governing Law. **THIS AMENDMENT AGREEMENT AND THE RIGHTS AND OBLIGATIONS OF THE PARTIES UNDER THIS AMENDMENT AGREEMENT SHALL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAW OF THE STATE OF NEW YORK.**
