INDEPENDENT AUDITORS' REPORT

To the Board of Directors and the Members of

Orbis Japan Equity (US\$) Fund Limited (the "Fund"):

We have audited the accompanying financial statements of the Fund, which comprise the statement of financial position as at 31 December 2017, and the statements of comprehensive income, changes in net assets attributable to holders of redeemable fund shares and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information on pages 7 to 14.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Fund's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as at 31 December 2017, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

General information

Orbis Japan Equity (US\$) Fund Limited (the “Fund”) is an open-ended mutual fund company incorporated in Bermuda, with its registered office located at Orbis House, 25 Front Street, Hamilton, HM 11, Bermuda.

The Fund seeks higher returns in US dollars than the Japanese stockmarket hedged into US dollars, without greater risk of loss. The Fund invests substantially all of its assets in the Orbis SICAV - Japan Equity Fund (“SICAV - Japan Equity”) and hedges the resulting Japanese yen exposure into US dollars, with the result that the Fund’s returns are managed in US dollars.

Orbis Investment Management (B.V.I) Limited has been contractually appointed as the Investment Manager of the Fund.

These financial statements were authorised for issue by the Board of Directors on 23 January 2018.

Summary of significant accounting policies

Basis of preparation. These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

All references to net assets throughout this document refer to net assets attributable to holders of redeemable Fund shares.

The financial statements have been prepared on a historical cost basis, except for financial assets and liabilities held at fair value through profit or loss, which are measured at fair value.

Financial instruments.

Recognition. Financial assets and financial liabilities are recognised when the Fund becomes party to the contractual provisions of the instrument. Financial assets are derecognised when the rights to receive cash flows from the asset have expired or the Fund has transferred substantially all the risks and rewards of ownership. Financial liabilities are derecognised when the obligation under the liability is discharged, cancelled or expired.

Measurement. The Fund’s investments are initially recognised at fair value on the trade date. Transaction costs are expensed as incurred. Subsequent to initial recognition, investments are measured at fair value. Changes in their fair value, together with realised gains and losses on disposal calculated using the average cost method, are included in the Statement of Comprehensive Income as Net gain (loss) on financial assets and liabilities at fair value through profit or loss.

The fair value of the investment in SICAV - Japan Equity is based on the net asset value of the share class in which the Fund is invested at the year-end date as this is the price at which the Fund would transact in these shares. The fair value of investments not traded in an active market, including over-the-counter derivatives, is determined using valuation techniques commonly applied by market participants, making the maximum use of market inputs and assumptions based on existing market conditions. Should any price be unavailable or considered unrepresentative of fair value, a price considered fair by the Investment Manager will be used.

Cash and cash equivalents and all other receivables and payables are classified under IFRS as loans and receivables and other financial liabilities, which are short-term in nature, are measured at amortised cost which approximates fair value.

Classification. The Fund's investments are categorised under IFRS as at fair value through profit or loss as follows:

(i) **Designated as at fair value through profit or loss upon initial recognition**

Financial instruments designated upon initial recognition as being managed and having their performance evaluated on a fair value basis in accordance with the Fund's investment strategy, which includes the investment in SICAV - Japan Equity.

(ii) **Held for trading**

Derivatives held by the Fund, which include forward currency contracts, are classified as held for trading unless they are designated as effective hedging instruments as defined by *International Accounting Standard ("IAS") 39 Financial Instruments: Recognition and Measurement*. The Fund does not designate any of its derivative instruments as hedges for hedge accounting purposes.

Offsetting. Financial assets and financial liabilities are offset when the Fund has a legally enforceable right to offset recognised amounts and either intends to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Foreign currency translation. These financial statements are presented in US dollars, the Fund's functional and presentation currency, being the currency in which performance is measured and reported and in which the shares are issued and redeemed.

Transactions in foreign currencies are translated using exchange rates prevailing at the date of the transaction. Assets and liabilities denominated in foreign currencies are translated using exchange rates prevailing at the year-end.

In the Statement of Comprehensive Income, translation gains and losses on financial instruments at fair value through profit or loss are included in Net gain (loss) on financial assets and liabilities at fair value through profit or loss. Other translation gains and losses are included in Other foreign currency gain (loss).

Cash and cash equivalents. Cash and cash equivalents include cash and other highly liquid investments held for meeting short-term cash commitments.

Income and expenses. Income and expenses are recorded on an accrual basis. All income and expenses which can be allocated directly to individual share classes are charged to those share classes. Income and expenses which do not relate specifically to a particular share class are allocated between the share classes pro rata to their Net Asset Values.

Taxes. There are no Bermuda income, profit, capital, capital gains, estate or inheritance taxes payable by the Fund or its shareholders in respect of shares in the Fund. The Bermuda Government has undertaken that, in the event that any such Bermuda taxes are levied in Bermuda in the future, the Fund and its shares will be exempt from such taxes until 31 March 2035.

Accounting estimates and assumptions. The preparation of financial statements requires management to make estimates and assumptions concerning the future. Actual results may differ from these estimates.

The most significant use of assumptions and estimation applied in preparing these financial statements relate to the determination of the fair value of financial instruments. The Fund may hold financial instruments which are not quoted in active markets, such as over-the-counter derivatives. The fair value of these instruments may be determined using valuation techniques based on observable market prices from reputable pricing sources or indicative pricing. Where such valuation techniques have been applied, they are validated and periodically reviewed. Changes in relevant assumptions could affect the fair values reported in the financial statements.

Standards issued but not yet effective. *IFRS 9 Financial Instruments* will replace *IAS 39 Financial Instruments: Recognition and Measurement*. IFRS 9 introduces a model for classification and measurement, a single, forward-looking 'expected loss' impairment model and a substantially reformed approach to hedge accounting and is effective beginning 1 January 2018. The Fund has determined there will be no material implications to the Fund's financial statements from adopting IFRS 9.

Fair value measurement

Fair value hierarchy. The Fund's financial instruments measured at fair value are categorised within a three-level fair value hierarchy, based on the lowest level input significant to the fair value measurement.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input significant to the fair value measurement is directly or indirectly observable.

Level 3: Valuation techniques for which the lowest level input significant to the fair value measurement is unobservable.

All of the Fund's financial instruments are Level 2 investments.

Valuation techniques. The fair value of the investment in SICAV - Japan Equity is based on the net asset value per share of the share class in which the Fund is invested. Forward currency contracts are valued at their mid-market prices, determined using valuation techniques that incorporate market observable inputs including foreign exchange spot and forward rates.

Transfers between levels of the fair value hierarchy are deemed to have occurred at the end of the reporting period. There were no transfers between levels during the year ended 31 December 2017 or 31 December 2016.

Net gain (loss) on financial assets and liabilities at fair value through profit or loss

For the year ended 31 December	2017	2016
	US\$ 000's	US\$ 000's
Realised gains (losses)		
SICAV - Japan Equity	20,675	(3,635)
Derivatives	(5,808)	(5,774)
Change in unrealised gains (losses)		
SICAV - Japan Equity	32,314	28,217
Derivatives	(596)	3,936
Net gain on financial assets and liabilities at fair value through profit or loss	46,585	22,744

Derivative financial instruments. Subject to its investment restrictions, the Fund may utilise derivative financial instruments, primarily to manage its exposure to currency risk. The Fund only invests in such instruments if they are sufficiently marketable such that an objective market price may be obtained from a third party and they can be realised within a period considered acceptable. Thus, the instruments used are usually forward currency contracts.

The Fund has entered into agreements whereby all its currency transactions with the counterparty to that agreement can be netted in various events of default. On the Statement of Financial Position, unrealised gains and losses on forward currency contracts are offset only when they share the same maturity date, settle in the same currency and are held with the same counterparty. At 31 December 2017, the gross unrealised gains and (losses) on the forward currency contracts held by the Fund were, in thousands, US\$1,312 and US\$(502), respectively (2016 - US\$3,344 and US\$(1,938)).

Financial risk management

The Fund's investment activities expose it to a variety of financial risks: market risk (which includes currency risk, interest rate risk and price risk), credit risk and liquidity risk.

The investments of the Fund are managed by the Investment Manager in accordance with the investment policy and investment restrictions of the Fund described in the Fund's prospectus.

Market risk.

Currency risk. Currency risk is the risk that the fair value of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Fund invests substantially all of its assets in SICAV - Japan Equity which invests in a portfolio of Japanese equities. The currency exposure of the Fund is managed, principally by using forward currency contracts to sell Japanese yen against the US dollar. As a result, the Fund's returns are managed in US dollars and the Fund is not subject to a significant level of risk due to changes in foreign exchange rates.

Interest rate risk. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates.

The majority of the Fund's and SICAV - Japan Equity's financial assets and liabilities are non-interest bearing. Accordingly, the Fund is not subject to significant levels of risk due to fluctuations in the prevailing levels of market interest rates.

Price risk. Price risk is the risk that the fair value of a financial instrument will fluctuate as a result of changes in market prices, other than those arising from currency or interest rate risk.

The Fund is exposed to price risk arising from its indirect investments in equity securities through its holding in SICAV - Japan Equity. The investment manager of SICAV - Japan Equity attempts to mitigate price risk through the use of a consistent and carefully considered investment approach, based on extensive proprietary investment research, appropriate diversification of investments and equity selection in accordance with the investment guidelines of that Fund. In constructing the portfolio, the investment manager of SICAV - Japan Equity assesses not only each equity's perceived risk and reward but also, in order to manage risk further by appropriate diversification, its correlation with the rest of the portfolio. The investment manager of SICAV - Japan Equity also takes into account the composition of its performance benchmark, the TOPIX, and monitors its risk of underperforming its benchmark by comparing its weighting in each industry sector with that of the benchmark and ensuring that deviations in such weightings, which are prompted by detailed "bottom up" research, are not inconsistent with the investment manager's "top down" macroeconomic view. The maximum risk resulting from the Fund's financial instruments is equal to their fair value.

Considering the historical correlation between the return of the underlying equities held by SICAV - Japan Equity at year-end and the returns of the Japanese stockmarket index, the impact on the Fund's net assets of a 5% change in that market as at 31 December 2017 would have been 5.0% (2016 – 5.0%). Historical correlation may not be representative of future correlation. Actual results may differ and those differences could be material.

Credit risk. Credit or counterparty risk arises from the potential inability of a counterparty to a financial instrument to perform its contractual obligations, resulting in a financial loss to the Fund.

Credit risk arises primarily from the Fund's forward currency contracts and cash and cash equivalents. The maximum exposure to credit risk at the year-end is the carrying value of these financial assets.

The Investment Manager seeks to reduce the Fund's credit risk to the extent practicable by dealing only with counterparties that meet our strict contractual terms and trading practices, designed to mitigate counterparty insolvency risk; and, to limit its risk to the amount of any net unrealised gain, by entering into agreements whereby all its currency transactions with the counterparty to that agreement can be netted.

Liquidity risk. Liquidity risk is the risk that the Fund will not be able to generate sufficient cash resources to meet its obligations as they fall due.

For the Fund, exposure to liquidity risk may arise from the requirement to meet cash redemption requests, normally payable within five business days of any weekly Dealing Day.

The Fund invests the majority of its assets in the No Fee share class of SICAV - Japan Equity which is redeemable weekly. The majority of SICAV - Japan Equity's investments are actively traded on a stock exchange and can be readily disposed of. The Fund also invests in derivative contracts traded over-the-counter. These may not be able to be liquidated quickly at an amount close to their fair value to meet liquidity requirements or to respond to specific events such as deterioration in the creditworthiness of any particular issuer.

Fund shares are redeemable weekly on demand at the holder's option. Financial liabilities at fair value through profit or loss include forward currency contracts which mature within six months of the year-end and all other payables are due within one month.

Net assets attributable to holders of redeemable shares

The Fund issues two classes of redeemable shares, Fund and Founders' shares, both of which are classified as financial liabilities. Notwithstanding that the net assets attributable to holders of redeemable Fund shares are classified as a liability in these financial statements, the Investment Manager considers those net assets to represent the Fund's capital. The amount of such net assets can change significantly due to changes in the value of the Fund's investments and from subscriptions or redemptions placed at the discretion of the holders of the redeemable Fund shares. The Fund is not subject to any externally imposed capital requirements.

At 31 December 2017 and 2016, the Fund's authorised share capital comprises 100 million redeemable Fund shares and 12,000 redeemable Founders' shares, each with a par value of US\$1 per share.

Fund shares may be issued in one or more classes or series of shares. At 31 December 2017, the Fund offers Investor shares and Base Refundable Reserve Fee shares, each of which may have different management fees or eligibility requirements. Within the Base Refundable Reserve Fee share class, individual share classes or individual series within a share class are issued to investors to facilitate calculation of the management fees. Fee Reserve Fund shares are issued to the Investment Manager in relation to the performance fee.

Fund and Fee Reserve shares participate pro rata in the net assets and dividends of the Fund attributable to those classes of shares. These shares are redeemable at their net asset value and are non-voting. At the year-end they are carried at their redemption value which is equivalent to their net asset value. Founders' shares do not participate in the Fund's net assets, are redeemable at their par value only after all Fund and Fee Reserve shares have been redeemed, and carry the right to vote. All authorised Founders' shares are issued, fully paid, carried at their par value of, in thousands, US\$12 (2016 – US\$12) and included in Other payables and accrued liabilities on the Statement of Financial Position. There were no transactions in Founders' shares in 2017 or 2016.

Fund and Fee Reserve share transactions for the year, in thousands of shares, were as follows:

	Fund shares					
	Investor Shares		Base Shares		Fee Reserve shares	
	2017	2016	2017	2016	2017	2016
Balance at beginning of year	4,568	3,998	246	348	5	-

Balance at end of year	3,020	4,568	-	246	-	5

The Net Asset Value per share in US\$ at 31 December 2017 was:

Investor 60.94

Investment in SICAV - Japan Equity

The Fund meets the definition of an investment entity within *IFRS 10 Consolidated Financial Statements* and measures its investment in SICAV - Japan Equity at fair value through profit or loss. The Orbis SICAV is a Luxembourg SICAV with its domicile and principal place of business in Luxembourg.

At 31 December 2017, the Fund owned 8.6% of SICAV – Japan Equity (2016 – 12.3%). Each share of an Orbis SICAV Fund, along with all other shares in issue irrespective of the Class or Fund to which they belong, is entitled to one vote at all general meetings of shareholders. The percentage of voting rights held by the Fund in the Orbis SICAV at 31 December 2017 was 0.5% (2016 – 0.8%).

Related party transactions

Orbis Investment Management (B.V.I.) Limited is the Investment Manager of the Fund.

The Investor shares pay the Investment Manager a fee which can vary between 0.5% and 2.5% per annum of weekly net assets, determined by the SICAV - Japan Equity class' rate of return versus its performance fee hurdle.

The Base Refundable Reserve Fee Share class pays the Investment Manager a base fee of 0.60% per annum of its net assets and a performance-related fee of 25% of the share class' rate of return versus its performance fee hurdle since the last Dealing Day. At each Dealing Day, the Investment Manager is issued Fee Reserve shares to the extent of any performance fee accrued. The performance fee is partially refundable in the event of future underperformance, with the refund limited to the value of the Fee Reserve shares and the fee subject to a high water mark should the available refund be exhausted. The Fee Reserve shares bear no fee.

For each investor in the Base Refundable Reserve Fee Share class, when the value of the related Fee Reserve shares exceeds 3% and 7% of the total Net Asset Value of their Refundable Reserve Fee shares, the Investment Manager is paid in cash at the rate of 1% and 2% per annum, respectively, of the total Net Asset Value of those Refundable Reserve Fee shares.

The shareholders have approved Director's fees for 2017 to each of John Collis, Barclay Simmons and David Smith of US\$1,000 (2016 – US\$1,000). No other directors have received any remuneration or other direct benefit material to them.

At the year-end, other Orbis funds did not hold any Investor class shares (2016 – 712 thousand). Other related parties, which include institutional and other clients managed on a discretionary basis and the directors and officers of the Orbis funds and of their Investment and Sub-Portfolio Managers and Investment Advisors, held, in thousands, 22 Investor class shares (2016 – 37), excluding their indirect holdings via other Orbis Funds.

NOTICES

Annual General Meeting. Notice is hereby given that the Annual General Meeting of Orbis Japan Equity (US\$) Fund Limited (the “Fund”) will be held at the offices of Orbis Investment Management Limited, Orbis House, 25 Front Street, Hamilton HM 11, Bermuda on 29 March 2018 at 10:00 am. Members are invited to attend and address the meeting. The Agenda will comprise the following:

- Review of Minutes of the Annual General Meeting of Members of the Fund held on 31 March 2017
- Review of 2017 audited financial statements
- Appointment of the Directors of the Fund
- Approval of Director's fees for the year to 31 December 2018
- Proposed re-appointment of Ernst & Young as Auditors for the year to 31 December 2018

By Order of the Board, James Dorr, Secretary

Notice to Persons in the European Economic Area (EEA). The Fund is an alternative investment fund that is neither admitted for public marketing anywhere in the EEA nor marketed in the EEA for purposes of the Alternative Investment Fund Managers Directive. As a result, persons located in any EEA member state will only be permitted to subscribe for shares in the Fund under certain circumstances as determined by, and in compliance with, applicable law.

Supplemental Disclosure under the Distance Marketing of Financial Services Directive. Disclosure requirements arising from the European Council Distance Marketing Directive (No. 2002/65/EC) apply to financial services supplied at a distance to consumers in the European Union. The Fund has determined that for the purposes only of meeting the Directive requirements, the Luxembourg Distance Marketing of Consumer Financial Services Law of 2006 shall apply to the establishment of relations with prospective and current Members entitled to the benefit of the Directive. The Fund is required to provide specified information to prospective and current Members. This specified information, which is provided in English, is contained in the Fund's Prospectus, account opening form, application form and (for Members who elect to view their account online at www.orbis.com) the Orbis Funds Portfolio Services Agreement. These services are not a type of financial service to which cancellation rights apply.

Other. This Report does not constitute a financial promotion, a recommendation, an offer to sell or a solicitation to buy shares of the Fund. Subscriptions are only valid if made on the basis of the current Prospectus of the Fund. Certain capitalised terms are defined in the Glossary section of the Fund's Prospectus, a copy of which is available upon request. Orbis Investment Management (B.V.I.) Limited is licensed to conduct investment business by the Bermuda Monetary Authority.
