Independent Auditor's Report

To the Board of Directors and Shareholders of LOM Funds SAC Ltd.

Opinion

We have audited the financial statements of LOM Funds SAC Ltd.(the "Company"), which comprise the statement of assets and liabilities of LOM Money Market Fund USD, LOM Money Market Fund CAD, LOM Money Market Fund GBP, LOM Stable Income Fund USD, LOM Emerging Market Fund USD, LOM Fixed Income Fund USD, LOM Fixed Income Fund EUR, LOM Fixed Income Fund GBP, LOM Fixed Income Fund CAD, LOM Equity Growth Fund USD, LOM Balanced Fund and LOM Innovation and Opportunity Fund USD, including the condensed schedule of investments, as of December 31, 2021, and the related statements of operations and changes in net assets for the year then ended, and the related notes to the financial statements (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021, and the results of its operations and changes in its net assets for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a period of one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited ("DTTL"), its global network of member firms, and their related entities (collectively, the "Deloitte organization"). DTTL (also referred to as "Deloitte Global") and each of its member firms and related entities are legally separate and independent entities, which cannot obligate or bind each other in respect of third parties. DTTL and each DTTL member firm and related entity is liable only for its own acts and omissions, and not those of each other. DTTL does not provide services to clients. Please see www.deloitte.com/about to learn more. Deloitte Ltd. is an affiliate of DCB Holding Ltd., a member firm of Deloitte Touche Tohmatsu Limited.

Independent Auditor's Report (cont'd)

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2021

NOTE 1 - NATURE OF THE COMPANY

ORGANIZATION

LOM Funds SAC Ltd. (the "Company") was incorporated in Bermuda as a segregated accounts company pursuant to the Companies Act of 1981 (as amended) and registered under the Segregated Accounts Companies Act 2000, as amended, on November 28, 2011, and began operations on January 2, 2012. The names of the segregated accounts each, a "Segregated Account", collectively (the "Funds") are as follows:

- LOM Money Market Fund USD
- LOM Money Market Fund CAD
- LOM Money Market Fund GBP (suspended its operations on January 12, 2021)
- LOM Stable Income Fund
- LOM Emerging Market Fund
- LOM Fixed Income Fund USD
- LOM Fixed Income Fund EUR
- LOM Fixed Income Fund GBP
- LOM Fixed Income Fund CAD
- LOM Equity Growth Fund
- LOM Balanced Fund
- LOM Innovation and Opportunity Fund

As a segregated accounts company, the Company is permitted to create Segregated Accounts in order to segregate the assets and liabilities that are held within or on behalf of a particular Segregated Account from the assets and liabilities of any other Segregated Account and from the Company's general assets and liabilities. Segregated Account assets are only available and may only be used to meet liabilities to creditors in respect of a particular Segregated Account and are not available to meet liabilities to creditors in respect of other Segregated Accounts or to general creditors of the Company. As of December 31, 2021, there were eleven Segregated Accounts, all of which are within these financial statements.

LOM Money Market Fund GBP was put on hold on January 13, 2021. The Segregated Account liquidated all its holdings and Investor Capital was redeemed at the last issued NAV on January 12, 2021 and have been paid in full. The Segregated Account has suspended its operations, as approved by Management, until such time as market conditions and specifically interest rates make it viable to resume. The Segregated Account had a Nil NAV as on December 31, 2021, while the operations during the year have been presented in these financial statements. All the statements of this Segregated Account are presented on a liquidation basis.

LOM Innovation and Opportunity Fund was incorporated with an issue of Investor Capital on March 19, 2021.

Capitalized terms herein have been defined in the company's Information Memorandum, or in a segregated Account's Class Supplement unless otherwise noted.

Each Segregated Account has its own investment objective and strategy.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2021

NOTE 1 - NATURE OF THE COMPANY (CONTINUED)

The LOM Money Market Fund USD is a money market fund designed to preserve investors' capital and liquidity while providing, through active management, a return in line with US Dollar short-term money rates.

The LOM Money Market Fund CAD is a money market fund designed to preserve investors' capital and liquidity while providing, through active management, a return in line with Canadian Dollar short-term money rates.

The LOM Money Market Fund GBP is a money market fund designed to preserve investors' capital and liquidity while providing, through active management, a return in line with Pound Sterling short-term money rates.

The investment objective of the LOM Stable Income Fund is to generate premium returns over full market cycles and protect the purchasing power and principal of the LOM Stable Income Fund while providing relatively high levels of monthly current income through the purchase of attractively valued, higher yielding securities.

The investment objective of the LOM Emerging Market Fund is to provide long-term capital appreciation by investing in securities domiciled in and/or deriving the majority of their revenues from emerging market countries as popularly defined. The Fund invests in emerging markets through individual securities, American depository receipts (ADR's) and exchange-traded funds (ETF's).

The investment objective of the LOM Fixed Income Fund USD is to achieve above-average longterm absolute returns while controlling risk through an effective program of diversification when considered prudent and through an asset allocation strategy with an emphasis on fixed income securities with a focus on the United States.

The investment objective of the LOM Fixed Income Fund EUR is to achieve above-average longterm absolute returns while controlling risk through an effective program of diversification when considered prudent and through an asset allocation strategy with an emphasis on fixed income securities with a focus on the European region.

The investment objective of the LOM Fixed Income Fund GBP is to achieve above-average longterm absolute returns while controlling risk through an effective program of diversification when considered prudent and through an asset allocation strategy with an emphasis on fixed income securities with a focus on the UK and European regions.

The investment objective of the LOM Fixed Income Fund CAD is to achieve above-average longterm absolute returns while controlling risk through an effective program of diversification when considered prudent and through an asset allocation strategy with an emphasis on fixed income securities with a focus on Canada.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2021

NOTE 1 - NATURE OF THE COMPANY (CONTINUED)

The investment objective of the LOM Equity Growth Fund is to achieve above-average long-term capital appreciation and dividend income while controlling risk through diversification by company, industry, and region. The LOM Equity Growth Fund invests primarily in the quoted equities of larger capitalisation global companies and in exchange traded funds.

The investment objective of the LOM Balanced Fund is to achieve above-average long-term appreciation of capital while controlling risk by primarily purchasing mutual funds and exchange traded funds, whilst maintaining disciplined and effective money management strategies.

The investment objective of the LOM Innovation and Opportunity Fund is to achieve aboveaverage long-term capital appreciation through investment in attractive sectors and subsectors of the equity markets. The Fund will invest in individual securities or third-party mutual funds including exchange-traded-funds (ETFs).

Each Segregated Account is listed on the Bermuda Stock Exchange.

LOM Asset Management Limited ("LOMAM" or the "Investment Manager") (a related party to the Company) acts as the Investment Manager and owns 100% of the Organisational Shares (Note 4). Global Custody and Clearing Limited (the "Custodian") (a related party to the Company) acts as paying agent and custodian to the Company. Certain directors of the Company are also principals, directors and officers of companies affiliated with LOMAM and the Custodian.

The Company is classified as an investment company as defined in Accounting Standards update ("ASU") 2013-08, Investment Companies (Topic 946): Amendments to the scope, measurement and Disclosure Requirements. The Company applies the guidance set forth in Accounting Standards Codification ("ASC" or "Codification") Topic 946 Financial Services – Investment Companies ("ASC 946") in its financial statements and related notes.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Company in the preparation of its financial statements. The policies are in conformity with United States ("U.S.") generally accepted accounting principles, which require management to make estimates and assumptions that affect the reported amounts, contingent assets and liabilities, and disclosures in the financial statements. Actual results could differ from those estimates. Management has considered the circumstances under which the Company should recognize or make disclosures regarding events or transactions occurring subsequent to the balance sheet date through the date the financial statements were issued. Adjustments or additional disclosures, if any, have been included in these financial statements.

CASH

Cash consists of interest bearing and non interest bearing accounts held by the Custodian, a related party.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2021

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

INVESTMENT VALUATION AND REVENUE RECOGNITION

Investment transactions are accounted for on a trade date basis.

The Company invests in securities traded on a stock exchange or other market which are valued generally at last trade value and where this is not available at the last mid-market price on the relevant exchange or market or, if not available, at bid value prices (see Note 3).

The Company invests in bonds and other fixed income securities that may not trade on national exchanges. These investments are valued at the last quoted bid price and where this is not available at the last trade value, or if not available, at prices determined by an independent third party pricing source (see Note 3).

The Company invests in other investment companies which consist primarily of mutual funds and exchange traded funds ("ETFs"). Mutual funds are valued at the net asset value or bid prices of the fund, as published or otherwise reported by the respective stock exchange or administrator. The other investment companies in which the Company invests will generally value securities at fair value. Investments in ETFs are stated at the last reported sales price on the day of valuation or at the last quoted bid price, if no sale was reported on the valuation date (see Note 3).

Realized and unrealized gains and losses on investments are calculated using the first-in-first-out method, and are reported in the accompanying statements of operations.

INCOME RECOGNITION

Interest income is earned on cash balances, fixed income securities and money market securities. Interest income earned on cash balances is recognized when posted. Interest income on fixed income securities is recognized on an accrual basis based on the stated interest rate of the security. Dividend income is recognized on the ex-dividend date and is presented net of withholding taxes, which are withheld by the Custodian's clearing brokers.

FOREIGN CURRENCY TRANSLATION

The functional currency for the LOM Money Market Fund CAD and LOM Fixed Income Fund CAD is the Canadian Dollar ("CAD"). The functional currency for the LOM Fixed Income Fund EUR is the Euro ("EUR"). The functional currency for the LOM Money Market Fund GBP and LOM Fixed Income Fund GBP is the British Pound ("GBP"). For all other Segregated Accounts, the functional currency is the United States Dollar ("USD"). Investment securities denominated in currencies other than a Segregated Account's functional currency are translated to the Segregated Account's functional currency at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in currencies other than Segregated Account's functional currency are translated to the Segregated Account's functional currency are translated to the Segregated Account's functional currency are translated to the Segregated Account's functional currency on the respective date of such transactions.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2021

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FOREIGN CURRENCY TRANSLATION (CONTINUED)

The Company does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized gain or loss on sale of investments, and the net change in unrealized appreciation or depreciation on investments.

CONDENSED SCHEDULES OF INVESTMENTS

The accompanying condensed schedules of investments present the investments by country. The industry classifications included in the condensed schedules of investments represent management's belief as to the most meaningful presentation of the classification of the Company's investments.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

For the year ended December 31, 2021, there were no recent accounting pronouncements that would impact the financial statements of the Fund.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Company follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Company's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Company's investments and are summarized in the following fair value hierarchy:

- Level 1 inputs are based upon unadjusted quoted prices for identical instruments traded in active markets. Level 1 non-derivative investments primarily include U.S. treasuries, domestic and international equities, and actively traded mutual funds. Level 1 derivative assets and liabilities include those actively traded on exchanges.
- Level 2 inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and modelbased valuation techniques for which all significant inputs are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Where applicable, these models project future cash flows and discount the future amounts to a present value using market-based observable inputs including interest rate curves, foreign exchange rates, and forward and spot prices for currencies and commodities. Level 2 non-derivative investments consist primarily of corporate notes and bonds, non-U.S. government debt, mortgage-backed securities, agency securities, certificates of deposit, and commercial paper. Level 2 derivative assets and liabilities primarily include certain over-the-counter option contracts and futures contracts.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2021

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

• Level 3 – inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques, including option pricing models and discounted cash flow models.

Securities for which market quotations are not readily available are fair valued as determined by the Investment Manager. Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Company uses prices and inputs that are current as of the measurement date, including periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

The use of valuation techniques and the availability of observable inputs can vary from security to security and is affected by a wide variety of factors and other characteristics particular to the transaction. Factors that may be considered when fair valuing a security are: fundamental analytical data relating to the investment in the security; evaluation of the forces that influence the market in which the security is purchased and sold; type of security or asset; financial statements of issuer; special reports prepared by analysts or the Investment Manager; information as to any transactions or offers with respect to the security; and the historical tendency of the security's price to track or respond to general and specific market movements (in terms of indices, sectors, or other market measurements). To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for securities categorized in Level 3.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following are the Company's major categories of investment assets measured at fair value as of December 31, 2021:

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

VALUATION TECHNIQUES

EQUITY SECURITIES (COMMON STOCKS, MUTUAL FUNDS, PREFERRED STOCKS AND EXCHANGE TRADED FUNDS ("ETFS"))

Equity securities traded on a national securities exchange (or reported on a national market) are stated at the last reported sales price on the day of valuation. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy. Open-end mutual funds are valued at the last published price reported on the major market on which the mutual funds are listed and are classified as Level 1.

GOVERNMENT BONDS (U.S. AND FOREIGN)

The fair value of government bonds is generally based on quoted prices in active markets. When quoted prices are not available, fair value is determined based on a valuation model that uses inputs that include interest rate yield curves, cross-currency basis index spreads, and country credit spreads similar to the bond in terms of issuer, maturity and seniority. Government bonds are generally categorized in Levels 1 or 2 of the fair value hierarchy depending on the inputs used and market activity levels for specific securities, based upon independent pricing from known independent pricing services.

MUNICIPAL BONDS

The fair value of municipal bonds is estimated using recently executed transactions, market price quotations and pricing models that factor in, where applicable, interest rates, bond or credit default swap spreads and volatility. Municipal bonds are generally categorized in Level 2 of the fair value hierarchy.

CORPORATE BONDS (U.S. AND FOREIGN)

The fair value of corporate bonds is estimated using recently executed transactions, market price quotations (where available), bond spreads or credit default swap spreads. The spread data used is for the same maturity as the bond. If the spread data does not reference the issuer, then a comparable issuer is used. When observable price quotations are not available, fair value is determined based on cash flow models with yield curves, bond or single name credit default swap spreads and recovery rates based on collateral values as key inputs. To the extent that these inputs are observable the values of corporate bonds are generally categorized as Level 2.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2021

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

GOVERNMENT AGENCY SECURITIES (U.S. AND FOREIGN)

Government agency securities are normally valued using a model that incorporates market observable data such as reported sales of similar securities, broker quotes, yields, bids, offers, and reference data. Certain securities are valued principally using dealer quotations. To the extent that these inputs are observable, the values of government agency securities are categorized at Level 2.

MORTGAGE-BACKED SECURITIES

Mortgage-backed securities are typically fair valued using pricing models based on a security's average life volatility. The models take into account tranche characteristics such as average life of the underlying mortgages, including assumptions regarding pre-payments and default rates, loan to value ratios, ratings, the issuer and tranche type, geographic characteristics, and discount margin for certain floating rate issues. Certain securities are valued principally using dealer quotations.

To the extent that these inputs are observable, the values of mortgage-backed securities are categorized at Level 2.

ASSET-BACKED SECURITIES ("ABS")

Asset-backed securities are interests in pools of loans or other receivables. ABS are created from many types of assets, including auto loans, home equity loans and other receivables. ABS are typically fair valued using estimated expected future cash flows of each security by estimating the expected future cash flows of the underlying collateral and applying those collateral cash flows, together with any credit enhancements such as subordinating interests owned by third parties, to the security. The expected future cash flows of the underlying collateral are determined using the remaining contractual cash flows adjusted for future expected credit losses (including current delinquencies and nonperforming assets, future expected default rates and collateral value by vintage and geographic region) and prepayments.

The expected cash flows of the security are then discounted at the interest rate used to recognize interest income on the security to arrive at a present value amount. Certain securities are valued principally using dealer quotations. To the extent that these inputs are observable, the values of asset-backed securities are categorized at Level 2.

NOTE 4 - CAPITAL STOCK

The authorised share capital of the Company is \$10,001 divided into 100,000,000 Participating Shares of \$0.0001 par value each and 1,000 Organisational Shares of par value \$0.001 each. The rights attached to each class of shares are summarized below.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2021

NOTE 4 - CAPITAL STOCK (CONTINUED)

PARTICIPATING SHARES

The Directors have the power to issue Participating Shares in separate Classes corresponding to a Segregated Account from time to time up to the limit of the authorised capital. The assets and liabilities of each Class of Participating Shares are maintained and accounted for in its own Segregated Account. A Class Supplement is issued in respect of each such Segregated Account.

The Participating Shares have no voting rights and the holder of a Participating Share is not entitled to receive notice of, attend, nor vote at general meetings of Shareholders (except in connection with the variation of class rights). The Participating Shares of each Class have the right to participate equally in any dividends declared by the Company in respect of the Segregated Account to which such Participating Shares relate and are redeemable. In the event of a winding-up of the Company, each holder of a Participating Share is entitled to return of the paid-up par value and a pro-rata share in surplus assets of the relevant Segregated Account after return of the paid-up par value of the Organisational Shares.

ORGANISATIONAL SHARES

Organisational Shares may be issued at par value and to such person as the Directors may determine. Organisational Shares do not, while any Participating Shares are in issue, carry any right to participate in dividends declared by the Company and are not redeemable. The holder of an Organisational Share has the right to receive notice of, attend and vote at general meetings of the Company. In the event of a winding-up of the Company, the holder of an Organisational Share is entitled only to the return of its paid-up par value after the paid-up par value of Participating Share has been returned. All of the Organisational Shares have been issued to and fully paid for by the Investment Manager.

SUBSCRIPTIONS

Participating Shares are available for subscription at the discretion of the Directors on each Subscription Day at the Subscription Price calculated at the close of business on the relevant Valuation Day. The Subscription Day is defined in the relevant Class Supplement. The Subscription Price equals the Net Asset Value per Participating Share as at the Valuation Day on the Subscription Day on which the application is effective (exclusive of any Front End Load). The Participating Shares are issued in registered form. Share certificates are not issued.

FRONT END LOAD

A Front End Load of up to 5% on Subscription Price may be deducted from the Subscription. No Front End Load Fees were charged for the year ended December 31, 2021.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2021

NOTE 4 - CAPITAL STOCK (CONTINUED)

MINIMUM SUBSCRIPTION

The minimum initial subscription that will be accepted, and the minimum amount for any additional subscriptions for Participating Shares from a new investor will be as follows:

Fund	Minimum Initial Subscription	Minimum Additional Subscription
LOM Money Market Fund USD	USD \$10,000	USD \$1
LOM Money Market Fund CAD	CAD \$10,000	CAD \$1
LOM Money Market Fund GBP	GBP £10,000	GBP £1

LOM Equity Growth Fund	USD \$10,000	USD \$1
LOM Balanced Fund	USD \$10,000	USD \$1
LOM Innovation and Opportunity Fund	USD \$1,000	USD \$1

The Directors may determine that the Company accept such lesser amount as they may in any particular case determine.

Redemptions

PROCEDURE

Participating Shares may be redeemed at the option of the holder on each Redemption Day. Shareholders wishing to redeem all or part of their holding of Participating Shares should send a completed Redemption Request (available from the Administrator) to the Administrator by fax (with original to follow by mail) to be received not later than the time specified in the relevant Class Supplement on the relevant Redemption Day.

Any delay in receipt of the Redemption Request will result in the request being deferred until the next Redemption Day and, in such cases, the Participating Shares will be redeemed at the Redemption Price prevailing on that Redemption day. The Directors reserve the right in their absolute discretion to waive the foregoing notice period.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2021

NOTE 4 - CAPITAL STOCK (CONTINUED)

A request for the redemption of part of a holding of Participating Shares may be refused, or the holding redeemed in its entirety, if, as a result of such partial redemption, the Net Asset Value of the Participating Shares retained by the holder would be less than the following amounts:

Fund	Holding Limit
LOM Money Market Fund USD	USD \$10,000
LOM Money Market Fund CAD	CAD \$10,000
LOM Money Market Fund GBP	GBP £10,000
LOM Stable Income Fund	USD \$10,000
LOM Emerging Market Fund	USD \$10,000
LOM Fixed Income Fund USD	USD \$10,000
LOM Fixed Income Fund EUR	EUR €10,000
LOM Fixed Income Fund GBP	GBP £10,000
LOM Fixed Income Fund CAD	CAD \$10,000
LOM Equity Growth Fund	USD \$10,000
LOM Balanced Fund	USD \$10,000
LOM Innovation and Opportunity Fund	USD \$10,000

REDEMPTION PRICE

The Redemption Price for each Participating Share is equal to the Net Asset Value per Participating Share of the relevant Class on the relevant Redemption Day.

The Net Asset Value per Participating Share is determined as of the close of business on each Valuation Day in accordance with the provisions set out under the Information Memorandum.

PAYMENT OF REDEMPTION PROCEEDS

Redemption proceeds normally will be remitted within a certain number of business days as specified in the relevant Class Supplement, without interest for the period from that date to the payment date. Redemption payments will be made in the currency of the relevant class and will be remitted to the Shareholder by wire transfer (at the expense and risk of the Shareholder) to an account as specified by the Shareholder in his Redemption Request.

GATING

In the event that redemption requests on a particular Redemption Day exceed in aggregate twenty per cent (20%) of the total number of Participating Shares of a particular Segregated Account then in issue, the Directors may reduce the requests rateably amongst all Shareholders seeking to redeem Participating Shares of the relevant Class on the relevant Redemption Day and effect only sufficient redemptions which in aggregate equal twenty per cent (20%) of the number of Participating Shares of the particular Class then in issue. Participating Shares which are not thereby redeemed will be redeemed on the next Redemption Day (subject to further deferral if the deferred requests themselves exceed twenty per cent of the number of Participating Shares then in issue) in priority to any later redemption requests that may have been received.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2021

NOTE 4 - CAPITAL STOCK (CONTINUED)

All Participating Shares will be redeemed at the Redemption Price prevailing on the Redemption Day on which they are actually redeemed.

Custodian fees are included in miscellaneous expenses on the Statements of Operations. Custodian fees payable are included in accounts payable and accrued liabilities on the Statements of Assets and Liabilities.

NOTE 6 - ADMINISTRATION FEES

In accordance with the terms of the contract with Apex Fund Services. (the "Administrator"), the Company is charged administrative fees equal to 0.09% of the combined net asset value of the segregated accounts created under the Company, allocated to each Fund pro-rata based on the net asset value of each Fund in relation to the combined net asset value. During 2021, administration fees amounted to \$219,617.

NOTE 7 - TAXATION

Under current Bermuda law, the Company is not required to pay taxes in Bermuda on either income or capital gains. The Company has received an undertaking from the Bermuda government that, in the event of income or capital gains taxes being imposed, the Company will be exempted from such taxes until March 31, 2035.

It is the Directors' belief that the Company is not engaged in United States trade or business and is not subject to United States income or withholding taxes in respect of the profits and losses of the Company other than the 30% withholding tax on US source equity dividends. Foreign securities held by the Company may be subject to foreign taxation on gains, dividends and interest income received. Foreign taxes, if any, are withheld by the Company's clearing brokers based on the tax laws in the applicable foreign jurisdiction.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2021

NOTE 7 – TAXATION (CONTINUED)

In addition, the Directors believe that the Company is not subject to income taxes in any other jurisdiction and that there are no uncertain tax positions that would require recognition in the financial statements. As a result, the Company has made no provision for income taxes in the accompanying financial statements.

The Investment Manager's conclusions regarding uncertain tax positions may be subject to review and adjustment at a later date based upon ongoing analyses of tax laws, regulations and interpretations thereof as well as other factors.

NOTE 8 - DERIVATIVE FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company does not buy or hold derivative financial instruments outside of listed options on equity securities, Treasury futures and options on Treasury futures. Some of the other investment companies in which the Company invests are dealing or trading in these instruments as their principal investment activity or use these instruments as part of their investment strategy. This may result in market or credit risk to the other investment companies in excess of the amount invested in these instruments. However, the Company's risk is limited to the net asset values of its investments in the other investment companies.

NOTE 9 - FAIR VALUE OF FINANCIAL INSTRUMENTS

In addition to the fair values of investments as disclosed in the condensed schedules of investments, the fair values of the Company's other financial instruments, including cash and cash equivalents, accounts payable and accrued expenses approximate their carrying values due to the short term maturity of these financial instruments.

NOTE 10 - GUARANTEES

In the normal course of its operations, the Company enters into contracts or agreements that contain indemnifications and warranties. The Company's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Company that have not yet occurred. However, the Company has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2021

NOTE 11 - FINANCIAL HIGHLIGHTS (CONTINUED)

Financial highlights are calculated for the class of shares taken as a whole. An individual shareholder's return and ratios may vary based on the timing of capital transactions.

Total return is computed using a time-weighted methodology whereby the returns for the individual accounting periods are geometrically linked. The ratios are computed using a weighted-average of the net assets for the year ended December 31, 2021. Interest and dividend income from underlying funds, if any, is included in the net realized and unrealized gain on investment in the accompanying statements of operations and is not included in the net investment loss.

- * Net of waived management fees as noted on the Statements of Operations.
- ** Includes waived management fees of 0.06%, 0.02% and 0.07% for LOM Money Market Fund USD, LOM Money Market Fund CAD and LOM Money Market Fund GBP respectively.
- *** The ratios for LOM Money Market Fund GBP and LOM Innovation and Opportunity Fund have been annualised, as those classes were in existence for a period of less than 12 months.

NOTE 12 - FINANCIAL INSTRUMENTS AND ASSOCIATED RISKS

CREDIT AND LIQUIDITY RISK

The Company is potentially subject to both credit and liquidity risk, principally through its investments in securities. The Company's credit risk is equal to the replacement cost at the then estimated fair value of the instrument. Credit risk arises because the possibility that promised cash flows on securities held will not be paid in full. Credit risk is risk due to uncertainty in a counterparty's (also called an obligor's or creditor's) ability to meet its obligations.

MARKET RISK

Market risk arises primarily from uncertainty around the future prices of financial instruments held by the Company and represents the loss the Company might incur through holding such instruments in the face of price movements. The Investment Manager allocates the Company's portfolio of investments with a view to minimizing the risk associated with particular countries and industry sectors.

CURRENCY RISK

The investments of each Fund are denominated in the related base-currency thus minimizing currency risk. The investments of each Fund are exposed to changes in foreign exchange rates (currency risk) where gains or losses may exceed the related amounts recorded. The fair value may change based on the fluctuations in the exchange rate of these underlying currencies.
