Chapter 4. Qualifications for Listing

Preliminary

4.1 This Chapter sets out the basic conditions which have to be met as a pre-requisite to the listing of debt securities issued by international issuers. They apply to every method by which securities may be brought to a listing and to both new applicants and listed issuers, except where otherwise stated. The Exchange will list any type of debt securities which meet these conditions, including debt issuance programmes (such as medium term notes), asset-backed securities, convertible bonds, eurobonds and any other bonds which, by their nature, are purchased and traded mainly by Qualified Investors. For the regulations applying to cat bonds, insurance risk debt and other insurance securitization bonds see Section V. It shall be noted that:-

- (1) these requirements are not exhaustive and the Exchange may impose additional requirements in a particular case; and
- (2) the Exchange retains an absolute discretion to accept or reject applications for listing, and that compliance with the relevant conditions may not of itself ensure an applicant's suitability for listing.

4.2 Where application for listing is made in respect of any class of security:-

- (1) if none of the securities of that class are already listed, the application must relate to all securities of that class, whether already issued or proposed to be issued; or
- (2) if some of the securities of that class are already listed, the application must relate to all further securities of that class which are proposed to be issued and the application must be made prior to the issue of the securities.

4.3 Where application is made to list a security which is convertible into another security the Exchange must be satisfied that investors will be able to obtain the necessary information to form a reasoned opinion regarding the value of the underlying security. For example, this requirement is met if the underlying security is listed on the Exchange or on another stock exchange which is recognised for this purpose by the Exchange (as stated in the Listing Guidelines).

General

4.4 If the issuer's shares are not listed on the Exchange, both the issuer and its business must, in the opinion of the Exchange, be suitable for listing.

4.5 The debt securities for which listing is sought must be fully negotiable and freely transferable (at least between Qualified Investors, in the case of a restricted marketing).

- 4.6 The issuer must maintain a paying agent in such place as the Exchange may agree, for so long as its debt securities are listed.
- 4.7 The debt securities must be eligible for deposit in a clearing and settlement system recognised for this purpose by the Exchange.
- 4.8 In the case of a debt issuance programme, the initial prospectus prepared pursuant to Chapter 5, together with any subsequent pricing prospectus relating to a specific tranche or series issuance, when read together, must provide an investor with the full terms and conditions of the issue.

Traditional Bonds and Notes (e.g. Eurobonds)

- 4.9 A new applicant must normally have produced independently audited accounts for the two (2) financial years preceding the application for listing. In exceptional cases the Exchange may accept a shorter period. This requirement does not apply to a special purpose vehicle which has been incorporated for less than two (2) years.

Nature of issuer or restricted marketing

- 4.10 The issuer must EITHER:
 - (1) be a supranational body which is recognised for this purpose by the Exchange (as stated in the Listing Guidelines); OR
 - (2) be a government, or a governmental agency whose obligations are irrevocably guaranteed by a government; OR
 - (3) be an exempted company which is incorporated in Bermuda and which has consolidated net tangible assets of at least \$10 million; OR
 - (4) have a primary listing for its share capital, or the debt securities for which a listing is sought, on another stock exchange which is recognised for this purpose by the Exchange (as stated in the Listing Guidelines); OR
 - (5) restrict investment in its listed debt securities to Qualified Investors in a manner acceptable to the Exchange. This means, *inter alia*, that the securities may only be marketed to Qualified Investors and may only be traded on the Exchange between Qualified Investors.

Specialist Debt Securities

General

- 4.11** The issuer must restrict investment in its listed securities to Qualified Investors in a manner acceptable to the Exchange. **This means, inter alia, that the securities may only be marketed to Qualified Investors and may only be traded on the Exchange between Qualified Investors.**
- 4.12** The issuer may be a special purpose vehicle and, in the case of a debt issuance programme, may be listed prior to the issuance of any tranche or series under the programme.

Asset Backed Securities

- 4.13** A new applicant must follow the application procedure set out in Chapter 5, which requires the preparation of a prospectus.
- 4.14** A trustee or other appropriate independent representative must be appointed to represent the interests of the holders of asset-backed securities and that representative must have the right of access to appropriate information relating to the underlying assets.
- 4.15** The issuer must also appoint a custodian acceptable to the Exchange or make the trustee referred to in Regulation 4.14 responsible for holding the underlying assets and having custody, possession or control of any funds flowing from the assets to the issuer or to the holders of the debt securities. Any custodian must be a separate legal entity from the issuer, its directors and the entity appointed to manage or service the portfolio of assets, but may be an associate of any of them.
- 4.16** The Exchange must be satisfied that investors will be able to obtain the necessary information on the underlying assets to enable them to form a reasoned opinion regarding the value of the securities. Where the debt securities are secured on a managed pool of assets, disclosure of factors such as credit enhancements, the securities eligible for purchase and any investment criteria which must be observed may be sufficient to satisfy this requirement. Where the securities are secured on specific assets, then depending on the nature of the transaction and the assets, the Exchange may (but is not obliged to) require the underlying assets to be listed on the Exchange or another stock exchange recognized for this purpose by the Exchange (as stated in the Listing Guidelines).
- 4.17** Where the issue is secured by equity securities, the equity securities must normally represent minority interests in, and must not confer legal or management control of the companies issuing them, save with the specific approval of the Exchange and subject to such conditions as the Exchange may impose;
- 4.18** Where options or conversion rights relating to equity securities are used to back an issue of debt securities, Regulation 4.17 shall apply to the securities resulting from the exercise of those options or rights, or where an issue of asset backed securities is secured on debt obligations or other receivables from a managed pool of assets, the entity appointed to manage/service the portfolio of assets must have, in the opinion of the Exchange, adequate experience and expertise and must be required to provide periodic financial reports on the performance and credit quality of the underlying portfolio for the benefit of the trustee.

Chapter 5. Application Procedures and Requirements

Preliminary

- 5.1 This Chapter sets out the procedures and requirements for applications for the listing of debt securities issued by international issuers whether by new applicants or by listed issuers except where otherwise stated.
- 5.2 These requirements are not exhaustive and an applicant must satisfy any additional requirements and supply such further documents and information that the Exchange may require in any particular case or class of case.
- 5.3 Every document submitted to the Exchange must be in the English language or accompanied by a certified English translation.

Application Procedures - General

5.4

- (1) Subject to Regulation 5.5 each application for listing shall consist of the following:-
 - i. a formal letter of application signed by a duly authorised officer of the applicant and the sponsor, if there is a sponsor, and which complies with the requirements set out in Part A of Appendix 1;
 - ii. the various supporting documents specified in Regulation 5.6;
 - iii. a prospectus that complies with the contents requirements set out in Regulation 5.11 and Appendix 2; and
 - iv. the appropriate fees.
- (2) The issuer must take all reasonable care to ensure that any statement, document or other information which is made available to the Exchange as part of the listing application is not misleading, false or deceptive and does not omit anything likely to affect the import of such statement, document or other information.

Application Procedures - Debt Issuance Programme

- 5.5 The initial prospectus applicable to the programme as a whole must include the general terms and conditions applicable to all of the securities that may be issued and listed under the programme and must cover the maximum nominal amount of securities which may be issued and listed at any one time under the programme. If the Exchange approves the application, it will grant an “in principle” approval to list all securities which may be issued under the programme, subject to the applicant complying with the requirements of Regulation 5.6.

- 5.6** Each application to confirm the listing of a subsequent issue under a debt issuance programme that has been approved by the Exchange shall consist of a term sheet which complies with the requirements of Part B of Appendix 1 and payment of the appropriate fees. The issuer must attach a copy of any supplementary prospectus/pricing supplement which is being issued in support of the tranche or series. Information in a prospectus which is attached to the letter may be incorporated by reference.
- 5.7** Any application to list securities pursuant to a securitization programme in excess of the maximums stated in the original prospectus must include the submission of a new prospectus which complies with the requirements of Part A of Appendix 2.

Supporting Documents

- 5.8** In support of its letter of application, the applicant must lodge with the Exchange at the same time the following documents:-
- (1) in the case of a new applicant, a certified copy of its certificate of incorporation or equivalent document;

- (9) a copy of the trust deed or other document securing or constituting the debt securities must be supplied unless this has previously been supplied; and
- (10) such other documentation as may be required by the Exchange.

Prospectus

- 5.9 The prospectus must contain all the specific items of information set out in Regulation 5.11 and Appendix 2. The prospectus may not be dated and issued in final form until the Exchange has confirmed that it has no further comments and it must then be distributed to the public.
- 5.10 The draft prospectus should be submitted in sufficient time for the Exchange to review it before the proposed publication date, but should not be submitted until it includes the required financial information about the issuer. Every draft prospectus submitted must be dated and marked in the margin so as to indicate where the particular requirements of Appendix 2 have been met. Subsequent redrafts must be blacklined against the version previously reviewed by the Exchange to clearly identify any changes.
- 5.11 In addition to the detailed requirements set out in Appendix 2 the prospectus must:
 - (1) as an overriding principle, contain such particulars and information which, according to the particular nature of the issuer and the securities for which listing is sought, is necessary to enable an investor to make an informed assessment of the activities, assets and liabilities, financial position, management and prospects of the issuer and of its profits and losses and of the rights attaching to such securities; and
 - (2) carry on the first page of the document (excluding the cover), in a prominent position and in bold type, the following disclaimer:

- 5.13 If the method of listing involves a distribution of securities to the public in Bermuda then the prospectus must be distributed to the public and the issuer must ensure that a notice, which states where members of the public may obtain a copy of the prospectus free of charge, is published in the newspapers at the start of the distribution process.

Chapter 6. Issuer's Continuing Obligations

Preliminary

6.1

- (1) This Chapter sets out the continuing obligations which each issuer must undertake to comply with as a condition of being granted, and of maintaining, a listing.
- (2) The issuer must take all reasonable care to ensure that any statement, document or other information which is notified to or made available to the Exchange is not misleading, false or deceptive and does not omit anything likely to affect the import of such statement, document or other information.

Notifications

Corporate disclosure policy

6.2 Generally, and apart from compliance with all the specific requirements of this Chapter, the issuer shall keep the Exchange and holders of its listed debt securities informed without delay, by way of public announcements and/or circulars, of any information relating to the issuer or the group that:-

- (1) is necessary to enable them and the public to appraise the financial position of the issuer and the group;
- (2) is necessary to avoid the establishment of a false market in its securities; and
- (3) might reasonably be expected materially to significantly effect its ability to meet its commitments.

6.3 If the documents of title to any listed debt securities are in bearer form, the time and place in Bermuda, or such other place as the Exchange may agree, at which copies of the annual report and accounts of the issuer may be obtained without charge must be notified to the Exchange, for dissemination by the Exchange. Where another company provides a guarantee for the debt security or where the debt security is convertible, exchangeable or carries subscription rights which are exercisable into the securities of another company, copies of the annual report and accounts of that other company must also be so available and the notification must also state this.

6.4 If the issuer's securities are also listed on another stock exchange, the issuer must ensure that copies of all documents required to be filed and information required to be notified to the other stock exchange is simultaneously made available to the Exchange.

Financial Statements

Preparation and distribution of financial statements

- 6.5** The issuer shall prepare and send audited annual accounts to the trustee or fiscal agent and to all debt security holder annual accounts within six months of the end of the financial period to which they relate. A copy of any interim financial statements published by the issuer must also be sent to the trustee or fiscal agent once prepared. At the same time that the issuer delivers the above noted financial statements to the trustee or fiscal agent, it shall send to the Exchange an electronic copy of the statement, for dissemination by the Exchange.

Other Disclosures

Changes in the terms of debt securities

- 6.6** Any change in the rights attaching to any class of listed debt securities (including any change in the rate of interest carried) and any change in the rights attaching to any shares into which any listed debt securities are convertible or exchangeable must be disclosed to the Exchange without delay, for dissemination by the Exchange.

Purchase, redemption or cancellation

- 6.8** Any purchase, redemption or cancellation by the issuer, or any member of the group, of its listed debt securities must be disclosed to the Exchange, for dissemination by the Exchange, without delay after such purchase, redemption or cancellation. The announcement should also state the amount of the relevant debt securities outstanding after such operations. For this purpose, purchases of debt securities may be aggregated and an announcement should be made when, in aggregate, ten percent (10%) of the outstanding amount of a debt security has been acquired. If the issuer or any member of the group purchases further amounts of that security an announcement should be made whenever an additional five percent (5%) in aggregate has been acquired.

- (4) any changes in its secretary, auditors, trustee or fiscal agent or registered address.

Information about another company

6.11 Where listed debt securities carry rights of conversion or exchange into or subscription for the share capital of another company, or are guaranteed by another company, the issuer must ensure that adequate information is at all times available about the other company and about any changes in the rights attaching to the shares to which such rights of conversion, exchange or subscription relate. This must include the availability of the audited annual accounts of the other company together with any interim financial statements and any other information necessary for a realistic valuation of such listed debt securities to be made.

Proposed drawings and closure of books

6.12 The issuer shall inform the Exchange for dissemination by the Exchange, in advance of all proposed drawings to effect partial redemptions, and, in the case of registered debt securities, the date on which it is proposed to close the books for the purpose of making a drawing. The Exchange must be informed without delay of the amount of the debt securities outstanding after any such drawing has been made, for dissemination by the Exchange.

- (2) For the purposes of paragraph (1) a "major subsidiary" means a subsidiary representing twenty percent (20%) or more of the consolidated net tangible assets or pre-tax trading profits of the group.

Review and Distribution of Other Documents

- 6.14** In addition to the specific requirements set out in these Listing Regulations, the issuer shall submit to the Exchange, for review, copies of drafts, before they are issued, of any announcements or advertisements the subject matter of which involves a change in or relates to or affects arrangements regarding trading in its listed securities on the Exchange (including a suspension of trading).
- 6.15** The issuer shall send an electronic copy to the Exchange of all circulars to holders of its listed debt securities, at the same time as they are issued.

6.19 The issuer shall respond promptly to any enquiries made of the issuer by the Exchange concerning unusual movements in the trading, bid or offer price or trading volume of its listed securities with reference to its historic pattern of trading, or any other matters, by giving such relevant information as is available to the issuer or, if appropriate, by issuing a statement to the effect that the issuer is not aware of any matter or development that is or may be relevant to the unusual price movement or trading volume of its listed securities.

Asset-backed securities

6.20 If further debt securities are to be issued backed by the same asset, unless those further debt securities rank pari passu with, or subordinated to any class of existing listed debt securities, prior approval of the existing holders of the existing listed class must be obtained.

Additional obligations

6.21 The Exchange shall be entitled to require the publication of further information by, and impose additional continuing obligations on the issuer, where it considers that circumstances so justify, but will allow representations by the issuer before imposing any additional obligations on it which are not imposed on listed issuers generally.
